**Approval of Brand Standardization for
HACH Flow Meter and Auto Samplers**

Purpose/ Outcomes	To establish a brand standardization for Hach Company Flow meters and Auto Samplers in all WES Procurements for the next six (6) years.
Dollar Amount and Fiscal Impact	N/A
Funding Source	
Duration	Six (6) years from date of approval
Previous Board Action	N/A
Strategic Plan Alignment	This standardization will streamline WES upgrades of outdated equipment and is anticipated to reduce inefficiency's and provide an overall cost savings to the District.
Contact Person	Jessica Rinner, Project Manager 503-742-4551

Background:

Currently WES operates 340 miles of sewer pipe across Clackamas County. The last two iterations of flow meter upgrade purchases have been awarded to Hach via a competitive process. Now that WES has a substantial amount of Hach flowmeters, and currently uses Hach auto-samplers, the business decision has been made to standardize all of its flow-meter upgrades and future auto-sampler purchases to this brand.

This standardization will provide several benefits. By consolidating, flow-meter and auto-sampler data will be able to be stored/accessed through one software/report system each, which eliminates the inefficiency of using multiple systems for the same functions. Standardizing with Hach is anticipated to reduce costs for training, support, inventory and maintenance. Additionally, Hach equipment is available through multiple resellers, allowing for adequate competition in the marketplace. WES is requesting a six (6) year standardization based on its evaluation of the market. This Standardization will be used for all procurements as appropriate.

Procurement Process:

The Procurement Office advertised the Notification of Brand Name Standardization according to ORS 279B.215 on October 24, 2019. The Notification was published for fourteen (14) days and received no protests.

Recommendation:

Staff respectfully recommends the Board approve the request for a Brand Standardization for HACH Flowmeters and Auto-samplers with a six (6) year duration for all procurements as appropriate.

Respectfully,

Brant Sylvester

BACKGROUND:

Clackamas County Water Environment Services ("WES"), referred to as "District", is in need of an engineering firm to provide engineering services for design and permitting, and provide other services during construction for pump station upgrades at six (6) sanitary sewer pump stations. The six sanitary sewer pump stations included in this project will be: Sieben Lane, Gladstone, Clackamas, Willamette, Golf Club Terrace, and South Welches.

The pump stations were all constructed in the 1980's with the exception of Sieben Lane which was constructed in the early 1990's and Clackamas which was constructed in the early 1970's. Although there have been some upgrades made at each station since they were originally constructed, maintenance staff have had increasing difficulty operating and maintaining these stations in the recent years due to more frequent equipment failure and difficulty repairing obsolete equipment.

This project includes schematic design, final design, permitting, bid period support, and engineering services during construction.

PROCUREMENT PROCESS:

This project was advertised in accordance with ORS and LCRB Rules on July 1, 2019. Proposals were opened on July 31, 2019. The District received four (4) Proposals: Century West Engineering Corporation, Kennedy/Jenks Consultant, Inc., Murraysmith, Inc., and Water Systems Consulting, Inc. The Evaluation Committee selected Murraysmith, Inc. as the highest ranking proposer and the evaluation committee recommended a contract be awarded. Following award, the Project Manager entered into negotiations with Murraysmith, Inc. and developed a final statement of work along with final billing rates and a contract total value.

RECOMMENDATION:

Staff recommends that the Board of County Commissioners of Clackamas County, acting as the governing body of Water Environment Services, approve and execute the Contract between Water Environment Services and Murraysmith, Inc. for the Pump Station Rehabilitation and Upgrades project.

Respectfully submitted,

Greg Geist, Director
Water Environment Services
