CERTIFICATE OF COMPLETION
FOR PRIVATE SANITARY AND STORM UTILITY CONSTRUCTION

PROJECT: _____

I hereby certify that the all pipes, manholes and other devices have been constructed using approved workmanship and materials and (check the applicable boxes below):

- Connection to the public sanitary sewer system was constructed in accordance with WES Sanitary Sewer Standards and WES Rules & Regulations.
- Stormwater management system was constructed in accordance with the WES Stormwater Design Standards and WES Rules and Regulations.
- I further certify that the stormwater management facilities have the full design volume and the flow control device(s) were constructed in accordance with the approved plans and are functioning as designed.

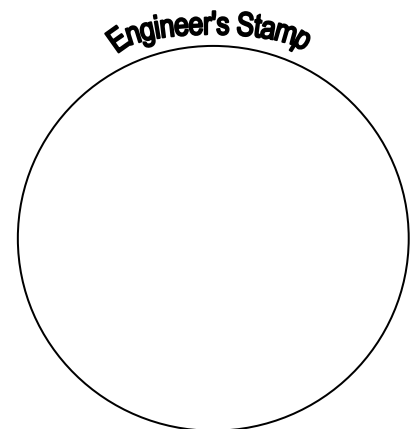

This certification is accompanied by the applicable items listed below:

- 1 paper copy and 1 PDF file of the sanitary and storm as-built drawings.
- Service connection drawings of the sanitary and storm service laterals.

The applicable items above will be submitted and reviewed by the District prior to scheduling a final construction inspection. If, during the; review of the submitted information, or final construction inspection, it is determined that the project is not 100% complete as indicated by this certificate of completion, the review process or final inspection will cease. The District will charge the applicant for a re-inspection fee prior to scheduling another inspection.
