**Community Leaders Meeting:** The committee discussed plans for the next CLM. Katie reviewed a revised plan to use the meeting as a community planning session for the wildfire debrief. There was a lengthy discussion on the topic. The committee members voiced concerns it has taken so long to get to a time where a debrief is possible and concerns the perception may be that they planning session is further extending the prolonged timeline. Members strongly advised a revised plan to expedite the timeline, prioritize listening to the community, provide an update about how the county is better prepared for this coming fire season, and to ensure partnering agencies such as fire and PGE are included. Committee members also shared ideas they had to help inform the community of the status of an emergency response including posting the BCC updates given by Emergency Operations Center staff to other platforms.

**Inactive CPOs:** Katie gave an update that she is working with the Damascus and Mt. Hood communities to help them re-activate their inactive CPOs. Katie and Brent also discussed their visit to the Redland CPO. Brent provided additional context from the CPO Summit regarding outstanding questions Katie is researching pertaining to provisions provided to CPOs if they choose to review and respond to land-use notifications in an inactive area.

**Public Comment:** None.
