Desktop Survey completed Project Steps - Archaeology in October 2019 Archaeological Reports / Plans Agency / Permitting Engagement **STEP Project Phase** WES met with Desktop survey representatives from the **Preliminary** Step 1 -Alternatives (SHPO database review) Tribal Historical Archaeology **RESEARCH &** Evaluation Preservation Office on **Recommendations Report IDENTIFY** Site walk / reconnaissance June 25th 2020. **Apply for SHPO** STEP 2 -Refinement of Site survey Archaeology Report for ACOE, **Excavation** permit **EVALUATE Preferred Route** SHPO and Tribes Review * Subsurface testing if advised Project Completed Site Submit JPA to ACOE to initiate Project wrapped up Walk in June 2020 consultation with Tribes and Alternatives Evaluation SHPO through NHPA Section 106 in February 2020 process **Design of Selected** STEP 3 -Avoid impacts or mitigate for Incorporate **Prepare Cultural Resources** AVOID / Alternative adverse impacts to significant permitting requirements Monitoring Plan, **MITIGATE** cultural resources Unanticipated Discovery Plan in construction (historic properties) **Project** and possibly data recovery ** documents Construction

^{*} Any cultural resources found on public lands will be documented and curated at a museum facility per SHPO excavating permit.

^{**} If archaeological resources are encountered during construction, work will stop in the immediate vicinity of the find until a professional archaeologist in consultation with the lead federal agency, SHPO and area tribes can assess the significance of the find.
