

Travel Options Action Plan: Expanding transportation choice and access

Why this project?

To make travel easier, safer, and healthier in Clackamas County, we are developing tools and programs for travelers and employers. This set of tools (a travel options plan) is intended to help **expand awareness and access** for different ways to travel in the county. We envision that residents can get where they need to go via different travel **options that suit their specific lifestyles and needs**.

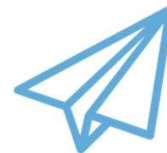

What does a travel options action plan do?

Develops a suite of options for residents of Clackamas County to **broaden ways for people to travel**, including new and innovative opportunities

Explores **strategies to reduce congestion** on roadways such as vanpools, commuter shuttles, and reduced-cost transit pass programs

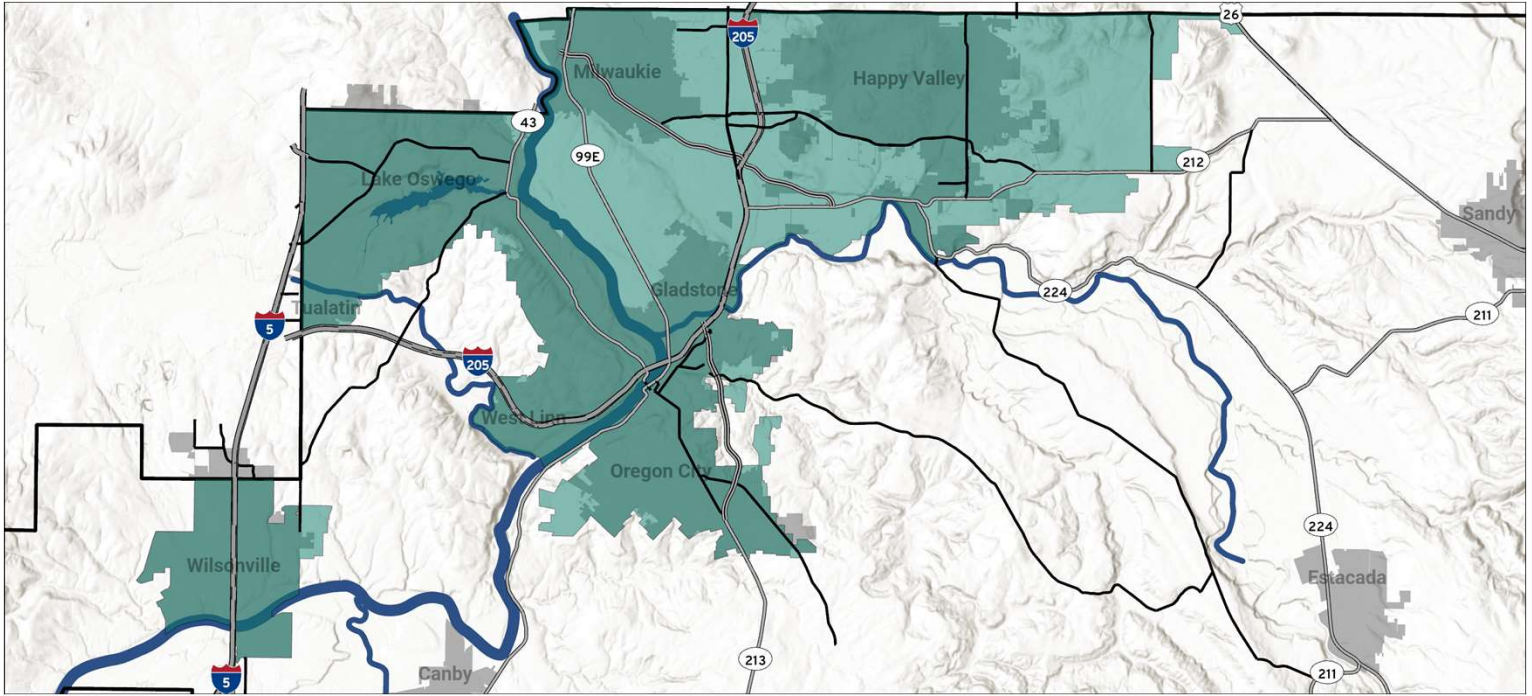

Conceptualizes, develops, and implements a limited **pilot program** to improve mobility in Clackamas County

Fulfills the travel options requirement of the county's transportation system plan **mandated by the State of Oregon**

Project scope area – Clackamas County urban areas

Project timeline

Summer-Fall 2024

TDM Inventory and Existing Conditions:
Identify programs and infrastructure that currently exist throughout Clackamas County

Vision and Goals:
Develop a vision statement and set of goals that will guide the plan

Steering Committee Meetings #1 & #2

Winter 2024-Spring 2025

Public Engagement:
Collaborate with stakeholders, historically marginalized populations, and the general public to ensure that recommended TDM programs are appropriate for Clackamas County

Spring 2025

Recommendations and Plan Development:
Create a toolbox of TDM strategies and framework for partnerships that is appropriate to Clackamas County's unique context. Develop performance measures to evaluate success against the project vision and goals

Steering Committee Meeting #3

Spring 2025-Spring 2026

Pilot Program Implementation:
Implement one or two identified high-priority projects as a pilot program

Steering Committee Meeting #4 (tentative)
