COMMUNITY CONCERNS: Laurie reiterated that there are missing markings on SE 97th near Kaiser and Sunnyside on the one-way road that travels South. We looked at the map.

Andrew mentioned that the TSC of Gladstone is exploring a speed reduction on Oatfield Road. Christian mentioned that the road was on our list to investigate.

William asked about contact person for our planning department to address an issue around safety and planning. Rob agreed to make an introduction for William to the correct planning person(s).

Jeanette shared her experiences at a site visit at 172nd and Coyote Court (which we heard about several meetings ago from a group of citizens). Jeanette asked Happy Valley's administrator to try to coordinate code concerns that cross jurisdictions.

PRESENTATION: Scott Hoelscher from the County's planning department presented both the Safe Routes program and the project to update the County's Pedestrian and Bicycle Master Plans. The last time these documents were updated was 2003. See more at <https://www.clackamas.us/engineering/bikewalk> and <https://www.clackamas.us/engineering/srts>.

Radar Speed Sign: The committee recommended placing the sign on Webster.

Future agenda items: February will focus on our Radar Speed Sign locations.

Rob led the committee through the annual trivia competition. This year's honor of victory goes to William. This allows them to have bragging rights for one year. Huzzah!

Adjourned at 9pm.
