Commissioner Sonya Fischer
Clackamas County Commission
2051 Kaen Road
Oregon City, OR 97045

Dear Commissioner Fischer,

We were pleased with the Oregon Health Authority's announcement of its intent to award Trillium Community Health Plan with a coordinated care organization (CCO) contract to serve Clackamas County. As an important delivery system partner, we would like to request a meeting with you to discuss the opportunities ahead of us. We are looking forward to working with you to find ways in which Trillium can add value to your existing county programs and enhance efforts to deliver essential health care services to Clackamas County residents.

Since the launch of the CCO in 2012, Trillium has worked closely in cooperation with Lane County. We understand the importance of the county's role in delivering necessary safety net services and remain committed to enhancing crisis services and the critical infrastructure the county provides. It is our hope that Trillium can complement current investments in crisis services and provide increased opportunities for further delivery system innovation. As such, we offered MOU language to support the County's Behavioral Health Safety Net System, proportionate to the CCO's membership, using a payment methodology mutually agreed to by both parties.

We look forward to continuing to work with you and your Health, Housing and Human Services Department (H3S) Director Richard Swift to identify ways in which Trillium Community Health Plan can become a partner in supporting the county's health care investments. We are excited about the opportunity to serve your constituents as a valuable part of the delivery model.

Sincerely,

A handwritten signature in black ink, appearing to read "Chris Ellertson", written over a horizontal line.

Chris Ellertson
CEO, Trillium Community Health Plan
