

DEFERRED SUBMITTAL PROCEDURES Clackamas County

1. Complete or write in each submittal item you are deferring below and **provide the valuation of each deferred submittal item** and an *estimated* time of submittal for each item.

2. As the deferred item documents & drawings are prepared for plan review, ensure that the architect and/or engineer of record reviews the deferred submittal documents. The drawings must have the registered design professional(s) notation(s) indicating the architect or engineer of record has reviewed the deferred submittal documents and that they have been found to be in general conformance with the design of the building. OSSC 107.3.4.1

3. **Deferred submittal documents and drawings must be submitted and approved by your plans examiner prior to the construction/installation of the deferred item. A stop work order will be issued if unapproved work proceeds.**

Examples of items, which may be deferred, include, but are not limited to the following:

Deferred Item	Valuation	Date	Deferred Item	Valuation	Date
Bleachers			Prefab stair units to include steel, aluminum, or pre-cast concrete stairs		
Curtain wall systems			Prefabricated wall panel		
Glass guardrails			Ore-stressed concrete structural members or panels		
Glazing systems			Raised floor systems		
Metal guardrails and handrails			Shelving systems and steel storage racks		
Post-tensioned concrete structural members or panels			Skylights		
Pre-cast concrete structural members or panels			Works of art
