

# Existing System Evaluation Report for Onsite Wastewater Systems

State of Oregon Department of Environmental Quality Onsite Program 165 East Seventh Ave, Suite 100 Eugene, OR 97401

Please answer the following questions completely. Do not leave any blank responses. Write unknown if unknown. Refer to Oregon Administrative Rule 340-071-0155 for more information, and please visit <a href="http://www.oregon.gov/DEQ/WQ/pages/onsite/septicsmart.aspx">http://www.oregon.gov/DEQ/WQ/pages/onsite/septicsmart.aspx</a>.

#### Septic System Owner-Provided Information:

Property Owner(s)(Sellers):		Telephone:
Site Address:	City:	Zip Code:
County: Lot Size:	1	Acres/Square Feet (circle units)
Legal Description:		
Age of wastewater treatment system(years) Is the	here a servi	ce contract for system components?
Date the septic tank was last pumped (please a	attach recei	pt if available)
Number of people occupying dwelling If u	noccupied,	for how long has it been vacant?
Was this section completed by the evaluator because own	or agent wa	as unavailable?
The above information is true and to the best of my kn	owledge.	
		Simotono of Ormon on court if morent
Date (MM/DD/YYYY)		Signature of Owner, or agent if present
Name of person performing evaluation (please print):		
Certification:       Installer      Maintenance Provider      National Association of Wastewater Technicians      Other: DEQ approved in writing (please describe)		Professional Engineer Environmental Health Specialist Waste Water Specialist
Certification Number:		
Business name	Email	
Business address		Phone
Date of Evaluation:	(MM/DI	D/YYYY)

I hereby certify, by my signature, that I meet all of the qualifications required to perform onsite wastewater system evaluations in the state of Oregon pursuant to OAR 340-071-0155.

Date (MM/DD/YYYY)
-------------------

### 1. General System Information

The Existing System Evaluation Report form contains 8 pages. Some of the questions on this form may not pertain to the system being evaluated, as there are many system designs. If you (the septic system evaluator) are unable to answer any of the questions on this form please indicate, in writing, why this information was not available at the time the evaluation was completed.

• The existing septic system consists of (check all that apply):

Septic Tank Dosing Tank	Cesspool Disposal Trenches/ Leach Lines
Multi-compartment Tank	Capping Fill
Seepage Bed	Sand Filter
Other	

**Note:** Cesspools may be used only to serve existing sewage loads and if failing only be replaced with a seepage pit system on lots that are too small to accommodate a standard system or other alternative onsite system.

There is a permit for the septic system Yes No Unknown

- Permit Number(s)
- Year original septic system installed: \_\_\_\_\_ (YYYY) No record of installation date
- Dates of subsequent repairs or alterations: \_\_\_\_\_ (YYYY)
- All plumbing fixtures are connected to the septic system Yes No Unknown

If you answered "No" or "unknown," please describe below:

• Additional Comments:

### 2. Overall Septic System Status

- Discharge of sewage to surface waters Yes No None observed
- Sewage backup into plumbing fixtures Yes No Unknown
- Additional Comments:

## 3. Septic tank

In order to fully describe the condition of the tank, the septic tank may need to be pumped. Please indicate below if the septic system tank was pumped during the course of *this* evaluation.

- Septic tank was pumped during the course of *this* evaluation Yes No
- If the septic tank was **NOT pumped** during the course of *this* evaluation, please explain (e.g. septic system owner declined to have the tank pumped etc):

The septic t	
	ank material is:
Unkn	ic glass r (explain)
•	x volume in gallons
·	ne determined by: Check all that apply, add comments below as needed
	Records Measured Stamped on Tank Other
·	crisers are at ground level Yes No
• •	ars to be free from defects, leaking and signs of deterioration Yes No
-	wered "No," please describe the condition of the septic tank below. For example, f gas corrosion, cracks, leaks, etc.
Septic tank	c lid(s) is intact Yes No
·	c baffles are intact: Inlet Yes No Outlet Yes No
·	erial - <u>Inlet</u> Plastic Concrete Metal <u>Outlet</u> Plastic Concrete Metal
	lter is present Yes No
	Iter is free of debris Yes No Not Applicable
Liquid leve	
•	el in tank relative to invert of outlet At Above Below
If above or	
If above or <b>Scum</b> laye	el in tank relative to invert of outlet At Above Below below invert outlet, please explain: rr(inches) Sludge layer(inches)
If above or Scum laye Scum and	el in tank relative to invert of outlet At Above Below below invert outlet, please explain: r(inches) Sludge layer(inches)
If above or Scum laye Scum and Indicate wh	el in tank relative to invert of outlet At Above Below below invert outlet, please explain: tr(inches) Sludge layer(inches) Sludge layer more than 35% of the <i>total</i> tank volume Yes No
If above or Scum laye Scum and Indicate wh	el in tank relative to invert of outlet At Above Below below invert outlet, please explain: rr(inches) Sludge layer(inches) Sludge layer more than 35% of the <i>total</i> tank volume Yes No here sludge measured from: Inlet Middle Outlet
If above or Scum laye Scum and Indicate wh Additional	el in tank relative to invert of outlet At Above Below below invert outlet, please explain: rr(inches) Sludge layer(inches) Sludge layer more than 35% of the <i>total</i> tank volume Yes No here sludge measured from: Inlet Middle Outlet
If above or Scum laye Scum and Indicate wi Additional Dosing tar	el in tank relative to invert of outlet At Above Below below invert outlet, please explain: tr(inches) Sludge layer(inches) Sludge layer more than 35% of the <i>total</i> tank volume Yes No here sludge measured from: Inlet Middle Outlet Comments:
If above or Scum laye Scum and Indicate wi Additional Dosing tan	el in tank relative to invert of outlet At Above Below below invert outlet, please explain:
If above or Scum laye Scum and Indicate wi Additional Dosing tan Dosing tan The septic	el in tank relative to invert of outlet At Above Below below invert outlet, please explain:

- Dosing tank capacity \_\_\_\_\_(gallons)
- Tank volume determined by: Check all that apply, add comments below as needed
  Permit Records Measured Stamped on Tank Other
- Dosing tank material
- Dosing tank appears to be watertight and in good condition Yes No
- Dosing tank lid is intact Yes No
- Electrical components are sealed and watertight Ses No
- Pump/ siphon is functional Yes No
- Type of Pump Demand dose Time dose
- Pump control mechanism is functional (floats, pressure transducer) Yes No
- There is a high water alarm Yes No
- The high water alarm (audible and visual) is working Yes No Not Applicable
- Type of screen\_\_\_\_\_
- Screen is clean and free of debris Yes No Screen cleaned for this evaluation Yes No
- Scum/ sludge present in Dosing tank Yes No
- Scum layer \_\_\_\_\_(inches) Sludge layer \_\_\_\_(inches)
- Additional Comments:

### 5. Soil absorption system

The soil absorption system is a set of trenches that receives effluent from the septic tank and filters the effluent before it enters the groundwater.

- The septic system has a soil absorption system Yes No Unknown
- Was the soil absorption system part of the evaluation? Yes No See note below
  If the soil absorption system was not evaluated, please explain below (for example unable to locate, client did not authorize this part of the evaluation):
- Absorption distribution Equal Serial Pressure Equal via pressure
- Absorption lines construction material:
- Gravel and pipe Chamber Tile Polystyrene foam and pipe Other\_\_\_\_\_
- Absorption distribution unit(s): dropbox hydrosplitter equal distribution box
- □ Intact □ Damaged □ N/A
- Absorption distribution unit(s) are free of debris or solids Yes No N/A

• Locate all drain lines in soil absorption system Yes No

```
Total length of drain lines _____(ft)
```

Lengths determined by Physically uncovering portions of system/probing Written records

Fish tape Electronic locator camera

• Absorption area appears to be **free** from roads, vehicular traffic, structures, livestock, deep-rooted plants etc.

Yes No

If you answered "No," please describe below:

- Absorption area appears to be **free** from surface water runoff and down spouts Yes No
- Evidence of ponding in absorption area or distribution unit(s) Yes No
- The soil absorption system replacement area assigned in the permit record appears to be intact:

Yes No Replacement area not identified in permit record

If you answered "No," please explain below:

- Additional Comments:
- 6. Sand Filter System

There are different sand filter system designs used in Oregon. Not every sand filter system will contain all of the components mentioned below, e.g. pumps. The owner of a sand filter system **permitted on or after January 2, 2014** *must* maintain an annual service contract with a certified Maintenance Provider. Maintenance records should be available from the system owner, or the contracted Maintenance Provider. **Please attach copies of the previous two years of maintenance records to this evaluation form.** 

• The septic system has a sand filter Yes No

(If "No," skip the rest of section 6)

- Type of sand filter
  - Intermittent
  - Recirculating
  - Bottomless
- Sand filter container appears free from defects, leaks and signs of deterioration: Yes No

f you answered "No," please describe below:
Sand filter appears to be <b>free</b> from surface water runoff and down spouts Yes No
Evidence of ponding in/ on sand filter media surface Yes No
Surface access to manifold and valves Yes No
Monitoring ports are present Yes No
Lateral lines flushed and equal distribution verified Yes No
The sand filter has a pump Yes No
If "No", skip the rest of section 6)
Pump vault appears to be watertight and in good condition $\Box$ Yes $\Box$ No $\Box$ N/A
Pump is functional Yes No
Pump control mechanism is functional (floats, pressure transducer) Yes No
High water alarm in pump vault (audible and visual) is working $\Box$ Yes $\Box$ No
Pump electrical components are sealed and watertight Yes No
Additional Comments:

**Note\*** Some ATT systems may have a WPCF permit. Please contact the local Health Department or the DEQ to obtain a copy of the WPCF permit.

- The septic system has an Alternative Treatment Technology (ATT) Yes No (If "No," skip the rest of section 7)
- Please provide the product name, system ID number, and manufacturer name below:

Product name	
System ID number	
Manufacturer name	

- Previous two years of maintenance records are available Yes No If you answered "No," please explain below:
- Previous two years of maintenance records are attached to this form Yes No If you answered "No," please explain below:
- Additional Comments:
- 8. **Please attach a copy** of the following items to this form. Contact the DEQ, or the local Health Department to locate these items.
- The septic system permit(s) to this form, if available
- The as-built drawing(s) to this form, if available
- The Certificate of Satisfactory Completion to this form, if available
- Additional Comments:
- 9. **Provide a Site Plan**
- Please provide a sketch of the complete system (show only system components that were evaluated) on page 8 of this form, if a copy of the original "as-built" drawing is *not* available.
- Please provide a sketch of the complete system on page 8 of this form if the original "as-built" drawing is *not* accurate or representative of the existing system.
- If the original "as-built" drawing is available for copy, and the original appears to be accurate and representative of the existing system, write "see attached as-built" on page 8 of this form, redrawing the system is unnecessary.
- Additional Comments:

### 10. Disclaimer:

This evaluation report describes the septic system as it exists on the date of evaluation and to the extent that components and operation of the system are reasonably observable. DEQ recognizes that this evaluation report does not provide assurance or any warranty that the system will operate properly in the future.

11. I hereby certify, by my signature, that the above information and the plot plan on the next page of this form are accurate and true to the best of my knowledge.

Signature of Qualified Septic System Evaluator

**Provide a Site Plan in the space below:** Show the actual or best estimate measurements of components that were confirmed during this evaluation; septic tank, soil absorption system, property lines (if known), easements (if known), existing structures, driveways, and water supply (water lines and wells). **Draw to scale and indicate the direction north.**
