

Trillium Creek Native Plants Volunteer Work Party Burlwood #1 - February 23, 2019

Join the **Clackamas River Basin Council** to plant native trees and shrubs along Trillium Creek. Trillium Creek feeds into Rock Creek, an important tributary to the Clackamas River, and provides critical habitat for many sensitive species of plants, fish and wildlife including anadromous species such as salmon. By creating a healthy riparian zone along Trillium Creek we can minimize sedimentation and reduce water temperatures to restore this habitat.

Date & Time:

Saturday, February 23, 2019 - 9:30 a.m. to 12 p.m.

Location:

This project is located at the Trillium Creek access point adjacent to the intersection of SE Eckert Lane & SE Oak Meadow Court, Damascus, OR 97089 in the Burlwood neighborhood. A turnaround at the site will provide a place for volunteers to gather.

How to Sign Up:

Sign-up for the event by emailing pat@clackamasriver.org or registering online at clackamasriver.org/native. This is a family-friendly event, youth are welcome if accompanied by an adult, though activities are most appropriate for ages 5 and up!

What to Bring:

Please bring your favorite work gloves, sturdy shoes or rubber boots and dress in layers. Tools and refreshments will be provided.

About the Clackamas River Basin Council

Our mission is to foster partnerships for clean water and to improve fish and wildlife habitat and the quality of life for those who live, work and recreate in the Clackamas River watershed. Learn more about us at www.clackamasriver.org.
