

Need vaccines? **School Based Health Centers can help!**

Even now, while we're all taking precautions against COVID-19, visiting your healthcare provider is safe.

Immunizations are required by law for children in schools, preschools and child care facilities to keep our schools safe and healthy places for all children.

On **Feb. 17, 2021**, children who are not up-to-date on vaccinations will be excluded from school or day care.

If your child is missing vaccines for school or needs a flu shot, now is a great time to catch up.

Call your nearby school based health center for an appointment today!
