EXECUTIVE SUMMARY: On behalf of the Housing and Community Development Division (HCDD), Health, Housing & Human Services requests approval of Contract #11299 with AntFarm for supportive services for youth in the rural areas of Clackamas County.

AntFarm offers strength-based and trauma-informed youth and family services through skill development, access to resources, and empowerment in partnership. AntFarm supports community and youth needs through a variety of programs with specific experience in rural Clackamas County. AntFarm is adept at identifying youth and family risk factors and finding solutions to support families and engage young people in positive ways. For over a decade, AntFarm has worked with over 4,000 young people with programs such as the Youth Homeless Demonstration Project, Youth Experiencing Homelessness Program, and YouthVoice and Focus Groups.

Through this contract, AntFarm will provide housing access and supportive services for youth in the rural areas of Clackamas County through a Youth Emergency Shelter Program (“YES”), Navigation and placement services, a Youth Rapid Rehousing (“RRH”) Program, and Youth Supportive Housing Case Management/Retention (“SHCM”) services. The YES program will operate emergency shelter services for approximately 40 youth households in rural Clackamas County with a goal of moving participants to stable, permanent housing within an average of 45 days. Navigation and placement services will provide for approximately 55 youth households annually, with 30 households being navigated into RRH

For Filing Use Only

and 25 navigated into permanent SHCM services. The RRH program seeks to provide the lightest touch necessary to support in achieving long term housing stability. Services include navigation, placement, rental assistance, and supportive services to help youth households move from temporary housing or homelessness to permanent housing. The SHCM program will assist approximately 25 youth households annually via navigation. Supportive housing is affordable housing combined with ongoing services that are flexible, participant-driven, not time-limited, and voluntary to assist youth households who are experiencing homelessness & and housing instability. Case management services are dedicated to ensuring participants remain in permanent housing long-term, either through ongoing housing subsidy and support or by “graduating” from rental subsidy and/or intensive case management.

Funding for this agreement is provided through \$760,446.72 of budgeted County General Funds. The County General Funds are allocated to support services in rural Clackamas County, outside of the Urban Growth Boundary.

RECOMMENDATION: Staff recommends that the Board approve Contract #11299 with AntFarm for supportive services for youth in the rural areas of Clackamas County.

Respectfully submitted,

Rodney A. Cook

**EXHIBIT A
PERSONAL SERVICES CONTRACT
SCOPE OF WORK**

Youth Emergency Shelter Program Design

Contractor will operate an emergency shelter for youth in rural Clackamas County. Eligible services may include congregate, non-congregate, facility based, host homes, and hotel/motel-based shelter.

Referrals for this program will come from both Coordinated Housing Access (CHA), street outreach programs, and Contractor's network of referral partners. Housing First Aid/diversion must be meaningfully attempted with each youth household requesting shelter, before enrolling in the shelter program. Shelter beds must be prioritized for youth with the highest safety and health vulnerabilities. Contractor will work with the Clackamas County Housing Services Team (HST) to establish and/or approve prioritization policies.

This emergency housing program will be time-limited, working toward a goal of moving participants to safe, stable permanent housing resources within an average of 45 days from move-in. Allowing for an average shelter stay of 90 days, with the goal that most youth households will move to more stable housing within 45 days, Contractor will serve not less than 10 youth households every three months or approximately 40 youth households annually. While 45 days is the goal, it is not a time limit, and there is a shared recognition of the specific needs of youth sometimes exceeding a 45-day stay.

School-age youth will receive assistance attending former or neighborhood school. Emergency shelter programs must provide a place to stay 24 hours/day, 365 days a year. Short closures of up to 14 days a year are allowed for deep cleaning, staff training and major repairs and maintenance.

Youth participants will be supported with various needs through flexible funding, which will also be used to remove barriers to housing placement. The HST will facilitate connections with long-term supportive housing case management, as needed.

On-site amenities must include, but are not limited to:

- Access to telephone, computer, and internet
- Restroom facilities, including toilets, showers, and hygiene supplies
- Laundry facilities
- Access to storage for personal belongings
- Access to a place to stay 24hrs/day
- Mail access

Services offered must include, but are not limited to:

- Youth-specific service provision, including an intake/housing needs/strengths assessment
- Housing first aid/diversion
- If not already completed, complete CHA assessment with each youth participant within 3 days of move-in
- Work with each youth participant to obtain appropriate documents to access housing, employment, and other needed services
- Housing advocacy

Wraparound services led by case managers providing connections to physical and behavioral health, youth peer support, family mediation, and other services

In addition to the above, Contractor agrees to accomplish the above work under the following terms:

- Shelters may not require youth shelter guests to be clean and sober or pass urinalysis or breath testing. However, shelters may have rules disallowing alcohol or drug possession or use on shelter premises. Additionally, shelters must incorporate harm reduction into their service delivery.

- Open shelter beds must be accessible on weekends and holidays.
- Facility will be staffed with at least one staff member during business hours and overnight staff and/or security will be provided to ensure the safety of shelter guests.
- Shelters must comply with all relevant health, fire and life safety codes from the local fire marshal and the jurisdiction with permitting authority.
- All uses of flexible funds for client services must adhere to the Clackamas County Supportive Housing Services Flexible Funding Use Guidelines, attached hereto as Exhibit F and incorporated by this reference herein.

Navigation & Placement

Contractor shall provide housing navigation and placement for youth. Navigation and placement services will assist youth households with moving into permanent housing and provide a warm hand-off to rapid rehousing **or** supportive housing case management services. Agencies will provide both navigation and placement, and supportive housing case management to ensure the continuity of care. Navigators will have a revolving capacity to assist approximately 55 youth households annually in total. 30 households will be navigated into rapid rehousing services. 25 youth will be navigated into permanent supportive housing with supportive housing case management services.

This program will provide connections with long-term supportive services and help navigate the housing placement process following a Housing First model. This program will work with the Youth Housing Program Coordinator, Navigation Coordinator, and other HST members to provide engagement, problem solving, matching, warm hand-offs to services, and re-location assistance and support as needed. Youth households will be offered navigation and placement services within 90 days of program entry & allow for up to 120 days from navigation entry to placement. Contractor will move not less than approximately 55 households per year. There is no limit; therefore, the program may serve more than 55 households with navigation services each year bearing system capacity and availability of resources.

Housing navigation and placement consists of flexible services and funding to assist youth households in accessing and securing rental housing. Housing navigation and placement is tailored to meet each young person's unique needs so they can move into housing as quickly as possible. Contractor will engage collaboratively with the HST, community organizations, and other resources to creatively support client needs related to housing.

Referrals for navigation will come primarily from the By Name List. Referrals may also come directly from street outreach or from emergency shelter programs.

Navigation case managers must maintain contact with 100% of participants, check in at least weekly, and document activities and needs related to housing youth. Multiple, progressive efforts will be made to engage each youth household in a housing search plan. If program staff are unable to make contact over the course of 30 consecutive days, report the delay to the Youth Housing Program Coordinator & Navigation Coordinator to assist with engagement strategies. If a youth household does not find housing or chooses not to engage with navigation and placement services, the program will work with the Housing Services Team to engage in Housing First Aid & harm-reduction conversations.

Housing Navigation and Placement services are tailored to meet each youth household's specific needs and must include, but are not limited to:

- Check-ins at least weekly with all participating youth households during housing search.
- Client-driven assessment of housing barriers, needs, and preferences.
- Support and flexible funds to address immediate housing barriers.
- Assistance attending housing orientations and responding to program requirements to secure long-term rent assistance in cases where longer-term subsidy is deemed necessary for housing stabilization.
- Housing search assistance, including researching available units, contacting landlords, accompanying participants on apartment tours, etc.
- Landlord engagement, establishing relationships with landlords to facilitate participant placement and retention.
- Assistance with housing application preparation, housing application appeals and reasonable accommodation requests necessary to obtain housing.
- Support with moving assistance, securing furniture, application fees, and other non-rent move-in costs.

Youth Rapid Rehousing (“RRH”) Program Design

Contractor shall provide a rapid rehousing program for youth in rural Clackamas County. This program includes navigation, placement, rental assistance, and supportive services to help youth households move from temporary housing or homelessness to permanent housing. Housing types may include private market rentals, affordable housing units, and long-term host homes. The goal of this project is to provide the lightest touch necessary to support in achieving long term housing stability.

All RRH referrals will come from the By Name List and through internal referral (“Step Up”) process. Housing First Aid/diversion must be meaningfully attempted with each youth household before providing prevention or re-location assistance.

When the program receives referrals, each new referral will be contacted via all known contact points within five (5) business days to assess current eligibility and interest in this program. The program will assist approximately 30 youth households annually with rapid rehousing.

Throughout the entirety of services, case managers will act as the landlord contact and assist in landlord relationship development. Wraparound services led by case managers will provide connections to physical and behavioral health, youth peer support, family mediation, and other services. As more participants are added to the case load, more staff must be added to accommodate them.

The participant’s portion of the rent will follow RRH rent assistance best practices to move the participant toward paying 100% of their rental costs as soon as possible. Rental subsidy will not necessarily be a percentage.

Rapid Rehousing services are tailored to meet each youth household’s specific needs and typically include a combination of one or more of the following:

- Regular check-ins with households (offered at least monthly, typically more frequently in the first months following placement)
- Support for households at risk of homelessness to remain in their existing housing or relocate
- Mediation between the landlord and resident
- Short-term rent assistance and case management (up to 24 months)
- Flexible funding to support housing stability goals
- Plan to increase income through education, employment, and/or benefits support
- Plan to “graduate” from housing subsidy and intensive services
- Plan to transition households who have higher needs to long term rental assistance with or without supportive services.

Youth Supportive Housing Case Management/Retention (“SHCM”) Program Design

Contractor shall provide a supportive housing case management program for youth in Clackamas County. Supportive housing is affordable housing combined with ongoing services that are flexible, participant-driven, not time-limited, and voluntary to assist youth households who are experiencing homelessness & housing instability in achieving housing stability and personal wellness. This program will work with the Housing Services Team as needed for operational support.

Referrals to SHCM will come from the By Name List and through internal referral (“Step Up”) process. When the program receives referrals, each new referral will be contacted via all known contact points. Housing First Aid/diversion must be meaningfully attempted with each youth household before providing services.

Both housed and unhoused youth may be referred to SHCM.

Subject to availability of funds, as determined by Clackamas County’s Housing Services Team in its sole administrative discretion, HACC will pay the rental subsidy costs through the Regional Long-term Rental Assistance (RLRA) program. Other funding streams may be “braided” to meet the young person’s needs.

The program will assist approximately 25 youth households annually with supportive housing case management via navigation. The expected case manager to participant ratio is approx. 1:25. As more participants are added to the case load, more staff must be added to accommodate them.

Case management services are dedicated to ensuring participants remain in permanent housing long-term either through ongoing housing subsidy and support or by “graduating” from rental subsidy and/or intensive case management. Program case managers and leadership will work with Housing Services Team on housing retention, capacity building and training needs

Specific components of supportive housing case management include, but are not limited to:

- Intensive, relationship based, and trauma informed one-on-one case management focused on housing stabilization and lease compliance offered at least monthly (and in most cases, weekly). Case Management services must be tailored to meet the need and desires of each youth. These services include but should not be limited to:
 - Identify and leverage existing individual/family strengths, expertise, and assets through a strength-based assessment
 - Create a housing stability plan including wraparound services, which are determined by participants and focused on housing success.
 - Wraparound services led by case managers providing connections to physical and behavioral health, youth peer support, family mediation, and other services
 - Evaluate progress, as defined by the participant, and adjust plan as needed
 - Ensure each participant has a monthly plan to pay their portion of the rent/utilities; money management support
 - Assistance responding to RLRA or other voucher or rental subsidy requirements including inspections and paperwork completion
 - Act as a landlord contact and assist in landlord relational development
 - Education on tenant and landlord rights and responsibilities
 - Regular communication with the tenant and property management
 - Early interventions and support to address issues that could jeopardize housing stability
 - Problem solving and crisis management
 - Connection to independent living supports and/or provision of life skills training, as needed
 - Connection to positive permanent social connections
 - Connection to education and employment opportunities, as defined by youth
 - Assistance (or connections to assistance) with applying for SSI/SSDI using the SOAR model, and other mainstream benefits, when appropriate.
 - Appropriate use of flexible funding to support housing stability and wellness goals
 - Assistance with house cleaning and unit maintenance as needed to ensure lease compliance
 - Coordination and connections with other supportive services as needed
 - Plan to “graduate” from housing subsidy and/or intensive housing case management services, as appropriate

EXHIBIT B

GUIDING PRINCIPLES AND EXPECTATIONS

Equity:

The Supportive Housing Services program promotes racial and ethnic justice and seeks to end disparities in housing access. The County recognizes that culturally responsive and culturally specific services can eliminate structural barriers and provide a sense of safety and belonging, which will lead to better outcomes. The County recognizes that advancing equity also includes having cultural competencies to provide services to other historically marginalized communities such as LGBTQ2SIA+, youth, people with disabilities, and immigrants and refugees. To further equity goals, Contractor must develop/implement the following:

- A plan to ensure culturally responsive service delivery that is respectful of all participants.
- A plan assuring access to services for people who do not speak the primary language of the service provider.
- A process to work with the County SHS team to continuously monitor the demographics of those accessing services using the HMIS (or an HMIS comparable database for domestic violence service providers).
- A quality improvement plan, informed by quantitative and qualitative data analysis, to address evidence of differential access, based on race, ethnicity, disability, gender identity, sexual orientation or other protected class status.
- Ensure that staff and volunteers have knowledge and experience to participate in the effort to increase equity and decrease housing disparities.
- Ensure that staff and volunteers have access to equity and inclusion training on an on-going basis.

Outcomes:

The SHS program is intended to end chronic homelessness in Clackamas County. In addition, the County aims to make homelessness rare, short, and not reoccurring for all who live in Clackamas County. Programs must work in coordination to ensure housing options are safe, stable, and provide housing choice to meet the needs of each individual. The work of ending racial disparities in housing and ending homelessness is one and the same.

In addition to ending homelessness, outcomes and goals of the SHS program include:

- Advance housing equity by providing access to services and housing to Black, Indigenous and people of color at higher rates than their representation among those experiencing homelessness.
- House individuals and families, and support housing retention, at greater rates than those newly experiencing homelessness, to reduce the overall population of people experiencing homelessness.
- Reduce the average length of time anyone in Clackamas County experiences homelessness until people are offered housing options immediately upon becoming homeless.
- Strengthen housing retention so that, once stably housed, returns to the experience of homelessness are extremely rare.
- Housing programs promote long-term stability, measured by successful program “graduation” to permanent housing and/or housing retention.
- Increase culturally specific organization capacity with increased investments and expanded organizational reach for culturally specific organizations and programs.
- SHS-funded organizations increase equity by hiring a staff that is diverse by race, ethnicity, languages spoken, sexual orientation, gender identity, disability status, age, and lived experience.
- Increase safety, stability and healing for everyone who has experienced homelessness using person-centered, trauma-informed service approaches and connections with mental and physical healthcare.

- Other measures, as determined by Tri-County data team, and/or Clackamas County community of service providers, will be added.

Coordination:

Partnership and coordination are key components to ending homelessness. A coordinated system makes finding resources easy for potential program participants and allows the entire system to work more smoothly. When done well, a holistic, coordinated approach improves performance system-wide.

The following are effective coordination principles and practices that must be followed. When followed, they ensure system-wide coordination:

- Coordinated Housing Access (CHA) must be utilized to effectively coordinate all housing services. It must be easily accessible and allow participants to complete a single assessment to access all services in the housing continuum.
- Demonstrated partnerships, at all levels of programming, between programs and organizations. Partnerships can be demonstrated through formal contracts, MOUs, system-wide planning participation, and providing infrastructure programming in a coordinated way (including outreach, housing navigation, CHA, and diversion).
- Build connections and coordinate with multiple systems of care (i.e. housing, workforce, education, foster care, DHS, domestic violence, community justice, health, mental health and addictions) to build a community of resources, easily accessible to all.
- Strengthen system capacity by supporting CHA, diversion, outreach and navigation.
- Participate in coordinated system development and implementation, including identifying, addressing, and following-up on unmet needs, gaps in services, and system barriers.

Services:

All services focus on building relationships and service engagement through person-centered, culturally-responsive, trauma-informed, strengths-based practices. Services should align with the Housing First model (see Addendum – Definitions). The purpose of these relationships is to support each household to achieve housing stability through individualized planning and connections with community resources.

To further these services goals, Contractor must follow the following proven practices:

- All services are low-barrier, not requiring pre-requisites to become eligible for services or housing.
- Diversion is attempted at every program “door,” including all immediate housing programs and permanent housing programs, when appropriate.
- Households experiencing or at risk of homelessness must be able to move directly into supportive housing and/or permanent housing without first accessing immediate housing programs. Households must also be presented with available immediate housing options.
- Families will be provided with the option to sleep/stay together; Families will not be separated unless they choose to sleep/stay separately.
- Vulnerable populations are prioritized.
 - Vulnerable populations include those with long homeless histories, incomes below 30% AMI, and one or more disabilities.
 - Due to a long history of systemic racism, oppression, and everyday micro and macro-aggressions, Black, Indigenous, and People of Color are also more vulnerable to the experience of homelessness.
- Services are voluntary, non-intrusive, and provide minimal disruption to meet the expressed needs and desires of the participant.
- Services are highly flexible and tailored to meet the needs of each household.

Participant Voice:

Each individual is the expert in their own life. To build the best system, people with lived experience of homelessness must help to shape the services designed to end homelessness.

Contractor must incorporate the following guidelines into all programs:

- Participants lead development of their own individual service plans.
- Ensure that all services are voluntary and that no participant is required to participate in a particular activity in order to receive services.
- Integrate participant (or those who choose not to participate) in decision-making at every level, including program/service development, delivery, and evaluation.
- People with lived experience, who participate in decision-making and program development, should be paid for their time.
- Have written procedures and policies, as well as an accessible and transparent grievance process, that ensure staff and volunteers provide respectful and effective services.

System-wide Service Delivery Expectations (in addition to any items above):

Contractor shall perform the following:

- Participate in the HMIS or, for domestic violence service providers, an HMIS comparable database.
- Provide services free of charge to participants or utilizing a pre-approved sliding scale fee.
- Include sustainable, environmentally friendly practices in business operations and the delivery of services (for example, providing onsite recycling, and encouraging reduction of waste through electronic records whenever possible).
- Confidential information must be protected in compliance with applicable federal, state, and local privacy rules.
- Maintain an effective working relationship. The County will have formal relationships with service providers through contracts, and will also expect contractors to maintain ongoing communication with the Supportive Housing Services Team about programs and performance, and to engage in community planning and training opportunities.
- All services must be delivered in a wholly secular manner, and programs may not require participation in religious activities for program eligibility purposes.
- Have a written termination and/or exclusion policy that appropriately protects the interests of participants by: (1) applying a trauma and equity lens to evaluating rule violations; (2) imposing sanctions short of termination whenever reasonably possible; (3) informing the participant in clear terms of the reason for their termination and/or exclusion from the program; and (4) outlines the process for grieving the decision. Except in the most extreme situations, termination and exclusion policies should allow for re-entry into the program under appropriate conditions.
- Ensure that staff and volunteers have access to continuing education opportunities.
- Attend training and community/system networking meetings as reasonably required by the County

Flexible Funding in the SHS program may be used to pay for supportive services or items that address specific needs of program participants. SHS flexible funding must only be used to assist program participants to obtain and maintain permanent housing. All SHS providers will follow procurement law and use reasonable discretion to make economical purchasing choices. **This list below includes guidelines and policies that should be used to inform program budgeting for use of client services flexible funding, recommended caps for specific expenditures, and some resources to seek first before using client services flexible funding.**

All uses of SHS client services flexible funding must fall within one of the following three categories:

- 3) Maintaining permanent housing – including supportive services such as skills training, credit counseling, benefits acquisition, etc.; and eviction prevention costs, such as rent and utility arrears.

All providers must maintain supportive documentation that any use of client services flexible funding falls within these three categories. For expenses that fall outside the spending guidelines listed below, please document the justification for the variance in such expenses as they relate to the three eligible categories above; this may include notes in the client’s case file, supporting documentation from a medical provider, ledgers of unpaid debts to a housing provider, etc. Any questions on eligible use or supporting documentation can be directed to HousingServices@clackamas.us.

ADDENDUM: DEFINITIONS

Culturally Responsive and Culturally Specific Services

HCDD is using definitions of Culturally Responsive and Culturally Specific services developed through a collaborative Metro-wide work group.

Culturally Responsive

Culturally responsive services are general services that have been adapted to honor and align with the beliefs, practices, culture and linguistic needs of diverse consumer / client populations and communities whose members identify as having particular cultural or linguistic affiliations by virtue of their place of birth, ancestry or ethnic origin, religion, preferred language or language spoken at home. Culturally responsive services also refer to services provided in a way that is culturally responsive to the varied and intersecting “biological, social and cultural categories such as gender identity, class, ability, sexual orientation, religion, caste, and other axes of identity.” Culturally responsive organizations typically refer to organizations that possess the knowledge and capacity to respond to the issues of diverse, multicultural communities at multiple intervention points. Culturally responsive organizations affirmatively adopt and integrate the cultural and social norms and practices of the communities they serve. These agencies seek to comprehensively address internal power and privilege dynamics throughout their service delivery, personnel practices, and leadership structure.

A culturally responsive organization is one that reflects the following characteristics:

- Prioritizes responsiveness to the interests of communities experiencing inequities/racism and provides culturally grounded interventions [that] have been designed and developed starting from the values, behaviors, norms, and worldviews of the populations they are intended to serve, and therefore most closely connected to the lived experiences and core cultural constructs of the targeted populations and communities;
- Affirmatively adopts and integrates the cultural and social norms and practices of the communities they serve;
- Addresses power relationships comprehensively throughout its own organization, through both the types of services provided and its human resources practices. A key way of doing this is engaging in critical analysis of the organization’s cultural norms, relationships, and structures, and promoting those that support democratic engagement, healing relationships and environments;
- Values and prioritizes relationships with people and communities experiencing inequities universally, paying particular attention to communities experiencing racism and discrimination;
- Commits to continuous quality improvement by tracking and regularly reporting progress, and being deeply responsive to community needs; and
- Strives to eliminate barriers and enhance what is working.

Culturally responsive organizations seek to build change through these major domains:

- Organizational commitment, leadership, and governance;
- Racial equity policies and implementation practice;
- Organizational climate, culture, and communications;

- Service-based equity and relevance;
- Workforce composition and quality;
- Community collaboration;
- Resource allocation and contracting practices; and
- Data metrics and continuous quality improvement.

Culturally Specific

Culturally specific services are services provided for specific populations based on their particular needs, where the majority of members/clients are reflective of that community, and use language, structures and settings familiar to the culture of the target population to create an environment of belonging and safety in which services are delivered. Culturally specific organizations typically refer to organizations with a majority of members/clients from a particular community. Culturally specific organizations also have a culturally focused organizational identity and environment, a positive record of successful community engagement, and recognition from the community served as advancing the best interests of that community.

Organizations providing Culturally Specific Services reflect the following characteristics:

- Programs are designed and continually shaped by community input to exist without structural, cultural, and linguistic barriers encountered by the community in dominant culture services or organizations AND designed to include structural, cultural, and linguistic elements specific to the community's culture which create an environment of accessibility, belonging and safety in which individuals can thrive.
