BACKGROUND:

The Clackamas County vehicle registration fee (VRF) that went into effect in January 2020 is a consistent source of transportation revenue that allows the County and our cities to complete projects that are important to our residents and businesses. Revenue from the fee supports the Community Road Fund (CRF) program, which funds road transfers, congestion relief, local road paving, and safety projects on county roads. These priorities, which were established by our community, for our community, are being overseen by the 15-member Community Road Fund Advisory Committee (CRFAC).

The fee of \$30/year for most vehicles and trailers (and \$15/year for motorcycles) is paid by Clackamas County residents when they register their vehicle with the state Driver and Motor Vehicle (DMV) Services Division every two years, in conjunction with state registration fees.

Oregon Revised Statute (ORS) 801.041 does exempt some types of vehicles from paying the local vehicle registration fee (e.g. travel trailers, campers, motor homes), but other types of trailers (e.g. utility/light trailers with a loaded weight of 8,000 pounds or less) are still required by ORS to pay a local fee. However, the county is permitted to adopt a lower rate for utility/light trailers than the \$30 that most vehicles pay.

Since the adoption of the local VRF, staff has received some feedback suggesting that the charge for trailers be reduced. As a result, staff discussed the trailer fee with CRFAC members during their regularly scheduled update in September. The Committee supported lowering the fee for utility/light trailers and the majority believed that \$5 per year was a more appropriate amount.

In 2020, based on data received from the Oregon DMV, Clackamas County received trailer fees of approximately \$350,000 for 5600 trailers; about 3% of the total anticipated VRF collections in an average year. While reducing the trailer fee to \$5 would result in less annual revenue to the county and cities, the annual revenue reduction would not have a significant impact on the county's Community Road Program as a whole.

Therefore, this proposed ordinance reduces the local VRF for utility/light trailers to \$5 per year (\$10 per biannual renewal period.) Adoption of this ordinance follows the county's usual ordinance adoption procedures, with two separate readings by the Board at least 13 days apart and an effective date no sooner than 90 days after adoption (unless an emergency is declared). The first reading occurred on March 31, 2022 and ordinance No. 01-2022 was assigned.

If approved, staff will work with DMV to revise the current intergovernmental agreement that gives DMV direction to collect these fees. It is anticipated that the reduced fee for utility/light trailers would be implemented by January 2023.

RECOMMENDATION:

Staff respectfully requests that the Board of County Commissioners read the proposed ordinance by title only and proceed to adoption.

Respectfully submitted,

Mike Bezner
