

REFILL, REPAIR, AND SHARE

Refill: using containers you already own! Reuse old plastic/zip-seal bags, cloth, and paper bags, or bring in bottles/jars (when allowed). Avoid using single-use bags to bag your produce and groceries, or bring your own (bonus: make reusable bags out of old sheets or clothes). Utilize deli counters to get cheese and meats in your own container or wrapping. Visit bakeries (in stores or stand-alone bakeries) to avoid plastic as well.

REFILL, REPAIR, AND SHARE

Refill: Small actions can make a big difference! Avoid new and single-use packaging by refilling—whether it be food, body care, cleaning supplies, beverages—with containers you already own! Many local stores around the county carry items in bulk and allow you to bring your own container/bag to refill.

Find stores on the back and online at clackamas.us/recycling/reducereuserecycle or scan:

Find additional stores locally, nationally, and online at litterless.com/wheretoshop.

Repair: to keep items from going to waste unnecessarily, save money, and reduce demand for new products. Attend a Repair Fair in Clackamas County! They're free community events where volunteers help fix your broken items.

There are lots of repair shops, tailors, technicians, mechanics, etc. around the county!
Find local repair through the Repair Finder at portlandrepairfinder.com.

Visit iFixit.com to learn how to fix your stuff with step-by-step videos, purchase quality parts and tools to get the job done, and read or post solutions from the fix-it community.

Share: books, seeds, and things with your local community. Clackamas County libraries help you reduce the amount of things you need to own by lending books and much more. From shovels to games, kitchenware, and karaoke machines, the libraries provide access to more than you may ever need.
