# CLACKAMAS COUNTY

Office of the County Clerk

March, 1997

Dear Clackamas County Voter:

You are holding the largest Voter's Pamphlet ever produced by Clackamas County! There are two reasons for this ninety-two (92) page document. First, nineteen arguments were filed regarding three of the seven measures on the March 11, 1997, ballot. Second, sixty-three of the candidates for district board positions filed candidate statements.

Please remember, your vote-by-mail ballot will contain **ONLY** the measures and candidates for your precinct. This voter's pamphlet has information about candidates for all twenty-six school districts, twenty-one water districts, seventeen fire districts and five other special districts.

A table of contents for measures is on page five. The arguments following each measure are printed in the order in which they were received. A table of contents for candidates begins on page twenty-one.

An elections calendar for the remainder of 1997 is on page 3. Please keep this calendar so you will know when measures must be filed and when the deadlines are for submitting arguments for each election date.

Information about cable access for election night results is on page 20. The address for internet access is on page 90.

This is the first election conducted following the passage of Ballot Measure 47 last November. There is now an additional requirement for certain money measures to be approved. Not only must a majority of people voting approve the measure, there must be at least a 50% turnout of those voters eligible to participate in the election.

We will know the total yes and no vote count later in the evening of March 11. However, it will take a few days for us to determine the actual voter turnout. A measure may "pass" election night, but if fewer than 50% of those eligible to vote actually participate, the measure will not be approved.

If you have any questions about this election, or the elections process, please call the Elections Office at (503) 655-8510.

Sincerely,

A handwritten signature in cursive script that reads "John Kauffman".

## Measure No. 3-91

### BALLOT TITLE

#### THREE-YEAR LIBRARY OPERATIONS SERIAL LEVY

**QUESTION:** Shall Clackamas County levy 35¢ per \$1000 assessed value outside the tax base for library operations from 1997-98 to 1999-2000?

**SUMMARY:** The basic operations of the county-wide library system are funded by a serial levy. The levy allows free use of city and county libraries by county residents. The levy funds the central computer and delivery system which helps libraries share materials throughout the county. The current serial levy is the sole funding source for some libraries and funds between 50% and 97% of the library budget in the others. Libraries use levy money to buy new books, magazines, videos, CDs, reference materials, and to pay for staff and facility costs.

The existing levy expires June 30, 1997. The purpose of this levy renewal is to continue funding for three more years. The proposed levy is 35 cents per \$1000 of assessed property value, or \$35 per year on a \$100,000 house. The levy would begin July 1, 1997, and end June 30, 2000.

This tax is subject to the other governmental purposes limit of Section 11b, Article XI of the Oregon Constitution. The money raised can only be used for library services.

It is estimated that this levy will raise \$8,407,823 in 1997-1998, \$9,385,562 in 1998-1999 and \$10,495,629 in 1999-2000.

### EXPLANATORY STATEMENT

Passage of this measure would allow Clackamas County to levy taxes outside the current tax base for three fiscal years, 1997-98, 1998-99 and 1999-2000. The levy would be limited to those three years, and any additional levy would have to be approved by the voters. By law the money raised by the levy could only be used for library services as stated in the ballot title.

County and city libraries are now funded by a three-year serial levy which expires on June 30, 1997. In order to maintain library funding as described below, replacement of the library levy is needed.

In addition to being the sole funding source for the County Library Branches in Oak Lodge and Clackamas Corner, a portion of the levy funds the central shared computer and delivery system that allows libraries share their materials quickly and efficiently throughout the county. A significant portion of the tax money goes back to the cities of Canby, Estacada, Gladstone, Lake Oswego, Milwaukie, Molalla, Oregon City, Sandy, West Linn and Wilsonville to support their libraries. Levy funding will continue to allow residents of unincorporated areas of the county to use these city libraries free of charge.

Libraries use levy money to buy new books, magazines, videos, CDs, talking books, reference materials, on-line resources and to pay for staff and facility costs.

#### LEVY FUNDING as a PERCENTAGE of TOTAL LIBRARY BUDGET

CLACKAMAS CO. LIBRARIES (OAK LODGE, CLACKAMAS CORNER) - 100% levy funded

CANBY LIBRARY - 66% levy funded

ESTACADA LIBRARY - 97% levy funded

GLADSTONE LIBRARY - 67% levy funded

LAKE OSWEGO LIBRARY - 52% levy funded

LEDDING LIBRARY OF MILWAUKIE - 50% levy funded

MOLALLA LIBRARY - 100% levy funded

OREGON CITY LIBRARY - 63% levy funded

SANDY LIBRARY - 97% levy funded

WEST LINN LIBRARY - 60% levy funded

WILSONVILLE LIBRARY - 75% levy funded

The proposed renewal of the library serial levy will renew county-wide library support for three more years and is based on a fixed rate per \$1,000 of assessed value of property. The proposed rate is 35 cents for each \$1000 of assessed property value, which equals \$35 per year on a \$100,000 house. This fixed rate of 35 cents per \$1,000 is not an increase over the last levy and would stay the same over the three-year life of the proposed levy. The levy would begin July 1, 1997 and end June 30, 2000.

It is estimated that this levy will raise \$8,407,823 in 1997-1998, \$9,385,562 in 1998-1999 and \$10,495,629 in 1999-2000.

### ARGUMENT IN FAVOR

#### FRIENDS OF THE CANBY PUBLIC LIBRARY URGE YES VOTE ON LEVY

The Friends of the Canby Public Library recently endorsed the Library Levy, saying, "This is the most important vote you will ever cast for the public libraries of Clackamas County."

Every three years you have been asked to vote to continue the Clackamas County Library Levy, which provides 100% of the funding for County libraries and three quarters of the funding on average for all City libraries.

In fact, the Library Levy has been the vehicle which allows all residents of Clackamas County to use any library in the county, whether it is a City library or a County library. This has maximized both resources and access for everyone!

Once again you are being asked to renew this important levy. However, this year's vote is of such importance that **not only you but each and every person you know must cast their vote. Without a 50% turnout of eligible voters the whole election will be invalid due to the requirements of Measure 47.**

In Clackamas County this means that we need about 100,000 voters to cast ballots!

For the past three years you have paid 35 cents per thousand to operate your libraries. This levy election is to **renew** the County Library levy for three more years at the **same rate of 35 cents per thousand**. You will be continuing the funding of the libraries with no increase.

**Libraries are important to everyone: students, do-it-yourselfers, senior citizens, home-schoolers, people who want access to information via the Internet and electronic resources, people who want to preserve freedom of thought in a democratic society.**

## CLACKAMAS COUNTY

**Measure No. 3-91****ARGUMENT IN FAVOR****RE-NEW THE LIBRARY LEVY  
KEEP CLACKAMAS COUNTY LIBRARIES OPEN**

The LIBRARY LEVY provides operating funds for all libraries in Clackamas County. The County library depends entirely on these funds for its operation; cities provide additional funding but most need the levy to operate.

**THIS IS NOT A NEW TAX**

This three-year levy has a fixed rate of 35 cents per \$1,000 of assessed valuation. It would continue the current levy at the same rate. Increased valuation has provided some additional funds, but population increase, inflation and increased service requires a constant rate.

**PUBLIC LIBRARIES AID STUDENTS**

Public libraries provide a wide variety of educational material. As school tax support decreases, your library becomes an even more important source of information for students.

**LIBRARIES STIMULATE YOUNG CHILDREN TO LEARN**

Libraries provide a wide variety of books and other material for young children. Staff provide story hours for added interest.

**EDUCATION IS A LIFETIME PROCESS**

Libraries provide information for a lifetime of learning. Whether you need additional training for your job or just want to expand your mind, libraries can help.

**LIBRARIES PROVIDE ENTERTAINMENT MATERIALS**

Books are the mainstay of your library, but many other materials for reference and entertainment are also provided including: magazines, videos, compact discs, books on tape, foreign language and computer materials.

**LIBRARIES PROVIDE REFERENCE MATERIALS**

Businesses and individuals use library reference materials. Financial investing information is available and heavily used. Reference librarians are on staff to answer questions and help find information.

COMPANIES LOOKING FOR NEW LOCATIONS WANT GOOD SCHOOLS, GOOD RECREATION AND GOOD LIBRARIES. MAKE SURE CLACKAMAS COUNTY PASSES ALL THE TESTS.

PASSING THIS OPERATING LEVY WILL: \*\*\*\* KEEP LIBRARIES IN CLACKAMAS COUNTY OPEN \*\*\*\* BUY BOOKS AND OTHER MATERIALS \*\*\*\* CONTINUE TO PROVIDE COMPETENT STAFF TO OPERATE CONVENIENT HOURS \*\*\*\* PROVIDE REFERENCE SERVICES \*\*\*\* CONTINUE TO PROVIDE GOOD LIBRARY SERVICE FOR OUR CITIZENS!

## Measure No. 3-91

### ARGUMENT IN FAVOR

For the past three years the Gladstone Public Library has received, on average, 67% of its funding from the county-wide Library Operations Serial Levy. Because this levy expires on June 30, 1997, it needs to be renewed to avoid significant reductions in library funding. Although the Gladstone Library does not rely entirely on this levy, its loss would mean fewer library services to its patrons. Even with approval of the renewed levy some reduction in funding is possible. The levy proposed for 1997-2000 is at the same rate of 35¢ per \$1,000 of valuation under the expiring levy.

In addition to the direct funding it provides to the Gladstone Library, the levy enables city libraries to participate in a county-wide network. This includes, for example, a central computer and delivery system by which Gladstone patrons have ready access to materials in other public libraries in Clackamas County. Smaller libraries are usually unable to provide the extensive reference services that the county-wide system can offer. The loss of this network would only serve to increase pressure on smaller city libraries, such as Gladstone, at a time when their resources would be significantly depleted.

Public libraries have traditionally had a special place at all levels of our national life. When the British attacked Washington D.C. in 1814, it resulted among other things in the destruction of the Library of Congress and all it contained. Soon after, Thomas Jefferson wrote to Samuel Smith, chairman of the Library Committee of the Library of Congress: "I learn from the newspapers that the vandalism of our enemy has triumphed at Washington over science as well as the arts, by the destruction of the public library..." (Koch & Peden, eds. *Writings*, 1944). Thereupon, Jefferson offered his private library to begin the rebuilding process. We are not faced with prospects nearly so calamitous today, but it is well to consider how much importance Jefferson assigned to libraries open to the public.

### ARGUMENT IN FAVOR

Lake Oswego Public Library is one of the busiest – and best – libraries in the state. **Over half of Lake Oswego Library's operating budget comes from the countywide serial levy.**

The countywide levy is entering its twentieth year. It provides staff, books, magazines, CDs, and videos. It pays for the computer system that enables us to share resources and borrow from other libraries.

The Friends of the Lake Oswego Public Library is a group of individuals interested in books and libraries. We formed a nonprofit 501 (c)(3) organization in 1971 to support the library as a community resource.

We opened our used bookstore, Booktique, in 1991. All the profits from Booktique go to benefit Lake Oswego Library. Our efforts enhance the library's programs, but a library circulating over 800,000 items per year must have strong public support.

We urge you to Vote Yes to Renew Our Library Levy.

Let's keep the quality library service our citizens want and deserve.

## CLACKAMAS COUNTY

**Measure No. 3-91****ARGUMENT IN FAVOR**

Libraries in Clackamas County are in trouble right now, faced with cuts in funds from former sources such as city budgets. If the current library levy fails, many of the services citizens expect from their libraries will no longer be available. Already funding problems have curtailed some services and the hours those services are available.

Voting for the library levy can at least assure libraries will stay open. The levy is simply the renewal of an existing tax. It is nothing new, but must be renewed every three years by the voters.

Citizens of Clackamas County have always supported their libraries, but Measure 47 makes it necessary to have a 50% return of ballots of registered voters for this measure to pass. If only 49% of the ballots are sent in and 90% of those sent favor the levy, it will not pass. This can result in closure of libraries and branches, cuts in services offered by libraries able to remain open, and a huge cutback in the ability to provide up-to-date materials.

Please cast your ballot – your right to vote can insure your voice will be heard.

# CLACKAMAS COUNTY

## Measure No. 3-91

### ARGUMENT IN FAVOR

Since 1977 the countywide library serial levy has helped our library meet the needs of our growing community. The serial levy now provides over 60% of the funding for the Oregon City library and between 50% and 100% of the funding for the other ten public libraries across Clackamas County. The library levy makes it possible to keep the library's doors open and for county residents to take advantage of the many resources available in our libraries without paying expensive user fees.

Our libraries greatly enhance the quality of life in our communities: providing a safe learning place for our children and teens, attracting new businesses, and maintaining property values. The levy is a sound investment in the future of our community.

Over the past five years, the population of Clackamas County has grown significantly and our libraries have struggled to keep up with the growing demands placed upon them. In addition to the traditional collections of literature, non-fiction, newspapers and magazines, Oregon City Library has developed an exciting children's department and a comprehensive reference section, including books on everything from auto and home repair to tax preparation and troutfishing. The library also maintains an expanding collection of music, books-on-tape, videos, and CD ROMs. The knowledgeable staff is committed to helping members make the most of our library.

Our library is so much more than just a building housing books; it's part of the backbone of our community, serving as everything from an adult learning center to an access point to the Internet.

In the future our economy, education systems, and entertainment will depend on fast access to a wide variety of resources. Public libraries play a vital role in this new computer environment, since the business of libraries is in providing free access to information.

A small investment in our libraries will continue to yield rich rewards years into the future. Please join us in voting Yes for the library levy.

### ARGUMENT IN FAVOR

In order to keep the level of library service to which we are accustomed, the voters of Clackamas County MUST pass this levy!

For some of the libraries in the county, this levy is the only source of funding; for all of the others it is a major source of funding. (West Linn Public Library receives 59% of its funding from this levy).

At the West Linn library, reductions in the budget and in services were put in place on January 1 so that the library will be able to operate for the next year and a half should this levy fail. We need this levy to pass so that we can restore these cuts which include: operating hours, book and materials budgets, adult and children's programs, services to schools, computer lab access, art displays, and music programs. We also want to retain our staff, who are committed to excellent service by providing special attention to individual patrons as well as serving school and business requests.

For the people of West Linn, our library has also become our community center. We need your YES vote on the library levy to preserve this valuable resource.

A MINIMUM OF 50% OF THE REGISTERED VOTERS IN CLACKAMAS COUNTY MUST RETURN THEIR BALLOTS IN ORDER FOR THE VOTE ON THIS LEVY TO BE VALID. **A BALLOT NOT RETURNED BECOMES A NO VOTE!**

## CLACKAMAS COUNTY

**Measure No. 3-91****ARGUMENT IN FAVOR****RENEW OUR LIBRARY LEVY**

We hope voters will agree to help maintain the quality of life provided by our library in our community by voting to renew the Library's operating levy.

This levy funds over 75% of the Wilsonville Public Library's budget. Without it, your access to the collection and services will be dramatically reduced.

**OUR COUNTY LEVY GIVES LOCAL LIBRARIES, LIKE WILSONVILLE, THE BEST OF TWO WORLDS:**

- Access to powerful countywide resources, combined with
- Local control and responsiveness to community needs.

**ADDITIONALLY, IT PROVIDES:**

- A state of the art countywide library computer system that provides access to 700,000 books, videos, audio books, and online access to complete articles from hundreds of magazines. All accessible from home or office.
- Access to all public libraries countywide, regardless of residence, plus reciprocal access to Washington and Multnomah County Libraries.
- Dedicated professionals committed to serving you.

**WHERE ELSE CAN YOU PAY SO LITTLE FOR SO MUCH?**

- Books to read for pleasure or serious study...
- Weekly storytimes and books to read aloud to your children...
- Home schooling and homework resources...
- Lifelong learning/self education on any subject...

**IF THIS LEVY IS NOT RENEWED, OUR LIBRARY WILL SUFFER THE WORST CUTBACKS IN ITS HISTORY:**

- Hours will be slashed to a small fraction of current
- Precious few books will be purchased
- Storytimes will be eliminated
- Most staff will be laid off

It's your access to the entire human record, for information, education, recreation, and entertainment. **Renew this vital support for libraries by voting and urging your friends and acquaintances to vote.**

**ARGUMENT IN FAVOR****Support Sandy Public Library. Vote Yes on Renewal of the Library Levy**

**WHAT:** Vote to renew funding for the Sandy Public Library. The levy will fund library operations for three years. The levy will be renewed at the existing rate of 35 cents per \$1,000 valuation. This year, 97% of the library's operating budget is from the current levy.

**WHY:** Measure 47 requires that all tax measures, even renewals at current rates, be described as tax increases on the ballot envelope. Measure 47 requires a **voter turnout of over 50% of registered voters** or the levy is voided, regardless of the number of votes in support of the measure.

The Sandy Public Library is a vital part of our community. It is an efficiently operated public agency, serving more patrons per \$1,000 expenditure than any other Clackamas County library. The Sandy Library works hard and well for our community. If you want continued, uninterrupted high quality library service, your yes vote is critically important.

**BEST CASE:** Voter turnout is over 50% of registered voters and the levy passes. Library services might be slightly reduced due to yearly increases in fixed costs and the effects of Measure 47 in protecting safety groups such as fire and police.

**WORST CASE:** Voter turnout is less than 50% of registered voters and the levy is voided. People who do not vote determine the immediate future of the Sandy Public Library. **The library will close or severely reduce operations** in June when current levy ends.

### ARGUMENT IN FAVOR

#### YOUR ESTACADA PUBLIC LIBRARY NEEDS YOUR SUPPORT

The Clackamas County Library Levy is:

- Vital – it provides 97% of the funding of the Estacada Library.
- Small – only 35 cents a year per \$1,000 of assessed property value.
- Not a new tax – it has been in effect since 1977.
- Not an increase – same tax rate since 1994.

Your Estacada Public library serves a real need:

- Over 8,000 patrons hold Estacada Library cards.
- Usage has increased over 350% in past five years.
- Patrons check out over 13,000 books, magazines, CDs, talking books, and videos each month.
- Provides access to other libraries, computer data sources, Internet, reference services and more.
- Sponsors the summer reading program for children.

Your library needs and deserves your support. Vote yes on the levy.

Encourage every one to vote because, thanks to new Measure 47, at least 50% of registered voters must vote in order for the vote to count.

Investment in the public library is an investment in the quality of life in our community.

# CITY OF WEST LINN

## Measure No. 3-87

## Measure No. 3-88

### BALLOT TITLE

#### FIVE-YEAR OPERATING SERIAL LEVY FOR FIRE AND EMERGENCY SERVICES.

**QUESTION:** Shall West Linn levy \$1,181,607 each year for five years outside tax base for fire and emergency services beginning 1997-98?

**SUMMARY:** Currently, seven firefighters and a part-time clerk position in West Linn are paid for through a three-year serial levy that expires on June 30, 1997. The proposed serial levy allows the City to retain the seven firefighters and add at least seven more firefighters over the next five years. The proposed levy will also allow the City to convert the part-time clerk position to full time.

The levy will pay for wages, benefits, uniforms, equipment, training and other services for these employees and other employees in the department. The levy will also fund safety programs. If this measure is approved, West Linn will be authorized to levy a total amount of \$5,908,035 over a five year period.

This tax levy is subject to the limits of section 11b, Article XI of the Oregon Constitution and the revenues raised will be used for governmental purposes other than schools. Approval of this measure will cause property taxes on West Linn properties to exceed the limits of Article XI, sections 11g(1) and (2)(a) of the Oregon Constitution.

### EXPLANATORY STATEMENT

#### West Linn Fire Levy Election Facts

Q. How many firefighters does West Linn have?

A. The West Linn Fire Department has 15 firefighters. The city's general fund pays for 8 firefighters; the other 7 are funded by a three-year levy that expires on June 30, 1997.

Q. How does our fire department compare with other Oregon cities?

A. West Linn, with a population of 19,960, has one fire station staffed 24 hours a day, plus one rescue unit that is staffed 40 hours a week. This compares with 4 full-time fire stations in Lake Oswego (population 34,005), 2 full-time stations in Milwaukie (population 20,065), and 2 in Oregon City (population 20,410).

Q. What will the proposed fire levy pay for?

A. • It will allow the city to keep the 7 firefighters/emergency medical technicians funded by the current levy.  
• It will allow the city to add 7 firefighters/emergency medical technicians so the department can staff a second fire engine 24 hours a day.

Q. Why are more firefighters requested?

A. In 1991, West Linn's population was 17,610 and the fire department responded to 874 calls. In 1996, the population was 19,960 and there were 1,193 calls. In 1996, there were delays in responding to emergencies. To provide a timely response to emergency calls now and in the future, the city is proposing to staff a second fire engine 24 hours a day.

Q. How much will the proposed levy cost? How long is it? What will it cost me?

A. The levy is for five years, beginning July 1, 1997. It will collect \$5.9 million over the five-year period, or \$1,181,607 per year. Tax rates per \$1,000 assessed value are estimated to be 71 cents in the first year, declining to 48 cents in the fifth year.

This measure would authorize a tax levy outside the limits imposed by Measure 47.

### BALLOT TITLE

#### FIVE-YEAR OPERATING SERIAL LEVY FOR WEST LINN POLICE SERVICES.

**QUESTION:** Shall West Linn levy \$940,486 each year for five years outside the tax base for police operations beginning in 1997-98?

**SUMMARY:** Currently, seven police officer positions in West Linn are paid for through a three-year serial levy that will expire on June 30, 1997. The proposed serial levy allows the City to retain the seven police officers and increase staffing levels by hiring at least five more police officers over the next five years.

The levy will pay for the salaries and benefits of the officers. It will also pay for certain materials, services and equipment for the officers who provide police services for the City. If this measure is approved, West Linn will be authorized to levy a total amount of \$4,702,430 over a five year period.

This tax levy is subject to the limits of section 11b, Article XI of the Oregon Constitution and the revenues raised will be used for governmental purposes other than schools. Approval of this measure will cause property taxes on West Linn properties to exceed the limits of Article XI, sections 11g(1) and (2)(a) of the Oregon Constitution.

### EXPLANATORY STATEMENT

#### West Linn Police Levy Election Facts

Q. How many police officers does West Linn have?

A. The West Linn Police Department has 24 officers. The city's general fund pays for 17 officers; the other 7 are funded by a three-year levy that expires on June 30, 1997.

Q. How does our police department compare with other Oregon cities?

A. According to most recent figures (1994), among the 22 Oregon cities that are in West Linn's population group (10,000 to 33,000 people), West Linn has the fewest police officers per 1,000 population.

Q. What will the proposed police levy pay for?

A. It will allow the city to:  
• Keep the 7 officers funded by the current levy.  
• Add, on average, one officer per year for the next five years.  
• Provide some materials and services used by the officers.  
• Replace police vehicles (average 1.5 per year) after 100,000 miles.

Q. Why are more police officers proposed?

A. Between 1989 and 1995, West Linn added 4 police officers - a 22% increase. During the same years:  
• Arrests increased 115%.  
• Reported crimes increased 87%.  
• Calls for services increased 125%.  
• Population increased 36%.

Q. What police services are provided?

A. Police services include emergency response, traffic safety, neighborhood patrol, drug education, school liaison, and crime investigation. The levy would provide resources to maintain present levels of service as the population increases.

Q. How much will the proposed levy cost? How long is it? What will it cost me?

A. The levy is for five years, beginning July 1, 1997. It will collect \$4.7 million over the five-year period, or \$940,486 per year. Tax rates per \$1,000 assessed value are estimated to be 56 cents in the first year, declining to 38 cents in the fifth year.

This measure would authorize a tax levy outside the limits imposed by Measure 47.

# CITY OF WILSONVILLE

## Measure No. 3-90

### BALLOT TITLE

#### PERMITS WILSONVILLE TO IMPLEMENT ROAD UTILITY FEE FOR STREET MAINTENANCE

**QUESTION:** Shall the city of Wilsonville collect a road utility fee to replace property tax levies used for street maintenance?

**SUMMARY:** Road utility fee raises not more than \$500,000 annually (adjusted to Portland's CPI) for street maintenance and reconstruction. Replaces expiring serial levy of \$0.17/\$1,000 ACV outside the city's tax base.

**Estimated monthly fee:**

Apartment building:	\$1.70 per unit
Single-family home:	\$2.62
Business:	\$2.76-\$1,676

The fee shall be apportioned based use. Use determined by an engineering standards for trip generation and/or vehicle weight classification. Undeveloped properties, SMART, public schools and places of worship that generate traffic primarily on the weekend are exempt.

### EXPLANATORY STATEMENT

Wilsonville has historically funded street maintenance and reconstruction with property tax serial levies in the amount of approximately 50¢ per \$1,000 of assessed valuation, raising about \$300,000 annually. In 1993, voters defeated a levy request for street maintenance. As a result, all contracted street maintenance projects were canceled. In 1994, the City Council referred to the voters a levy request of 17¢ per \$1,000, and promised to identify a non-property tax source of funding for street maintenance. Voters approved that levy and the money was used for three emergency projects: Repair of the Wilsonville Road bridge at Boeckman Creek; repair and slurry seal of French Prairie Road; and an overlay of Wilsonville Road from Brown Road to the city limits. The levy, which expires this year, cost the owner of a \$180,000 home \$30.60 per year.

For nearly three years, the City Council has explored numerous alternatives for street maintenance funding. With input from the Budget Committee and a citizen task force, the Council has endorsed a road utility fee that would apportion street maintenance costs among Wilsonville residents and businesses based on the amount of traffic generated. In the case of commercial and industrial land uses, the number of employees and/or building square footage and/or vehicle (truck) weight classifications are factored into the fee formula. The road utility fee would raise not more than \$500,000 annually (adjusted to Portland's CPI) for preventive maintenance and repair. The most cost-effective program for maintaining a safe, functional street system is estimated to cost a minimum of \$436,000 annually, based on a street-by-street survey of pavement conditions.

About 70% of the fee revenue would come from business, since businesses generate most of the traffic in the city and virtually all of the truck traffic. Because most Wilsonville businesses are small, a majority would pay an estimated \$8.17/month or less. A business that generates a lot of traffic but which has few employees, such as a full-service restaurant, would pay an estimated monthly fee of \$209.08. Large employers such as Mentor Graphics or Tektronix would pay an estimated monthly fee of \$890.34. The city's largest traffic generator - the Incredible Universe - would pay the maximum monthly fee of \$1,676 (estimated). A home business would be billed only as a home, in order to avoid "double dipping." A single-family home would pay an estimated monthly fee of \$2.62, or \$31.44 per year.

Undeveloped properties would be exempt from the fee, since such properties generate no traffic. South Metro Area Rapid Transit and public schools would be exempt, since their bus systems have the net effect of reducing traffic on city streets. Places of worship that generate traffic primarily on weekends would be exempt, since the fee is based primarily on average weekday traffic generation estimates.

The fee would appear as a separate item on bi-monthly utility bills.

Arlene Loble, City Manager  
City of Wilsonville

### ARGUMENT AGAINST

The Wilsonville Chamber of Commerce opposes the Wilsonville Road Utility fee for the following reasons:

1. Replacing a voter approved tax levy with a "fee" eliminates future voter's rights to vote on road maintenance taxes.

Once this ballot measure becomes law the city no longer has to come to the voters and can raise the "fee" administratively at any time because it is no longer defined as a tax.

2. Disguising this tax by hiding it in the water bill as a "road utility fee" further removes voters and residents from having any direct knowledge of total road maintenance costs or associated city expenses without extensive accounting skill.

3. This is a confusing, poorly drafted law and how the "fee" is to be assessed was still being amended by the city staff as they placed this measure on the ballot.

4. This is a desperate measure by the city to find a loop hole and bypass voter scrutiny. The people have spoken and continue to demand spending accountability at the ballot box.

The Wilsonville Chamber of Commerce wants well maintained roads and protection of the citizen's investment with economical public accountability. The city council has refused to thoroughly examine other accountable funding mechanisms when holding public hearings on this matter.

Ask yourself before voting, do you benefit from less accountability with hidden "fees" and costs in government.

# CITY OF WILSONVILLE

## Measure No. 3-90

### ARGUMENT AGAINST

**Why is the tax being replaced with a "fee"?** This will minimize your ability to control future increases in the fee once it becomes law.

**How is the "fee" calculated?** A complicated fee structure has been created using a confusing combination of square footage, number of employees, the city's estimate at how many cars come to your home or business everyday, and, in some cases, the weight of certain trucks.

**Why are the city's own buses exempt from this tax?** The City, once again, would like to be exempt from their own laws. According to Clackamas County, heavy single axle vehicles like buses cause more damage to residential and secondary roads faster than any other source.

**How much does the city really spend on roads?** It has not been widely reported that the city currently receives \$450,000 in state funding to repair cracks, potholes, etc. This new tax is an additional \$436,000 and would not be used for those type of repairs nor the construction of new roads.

**Is this the best plan the City and it's Task Force could come up with?** No, it is the only plan. The Task Force was directed to create a NEW funding source that was not based on property values and not to address the budget or reallocate funds. The city has refused to fully explore other feasible options.

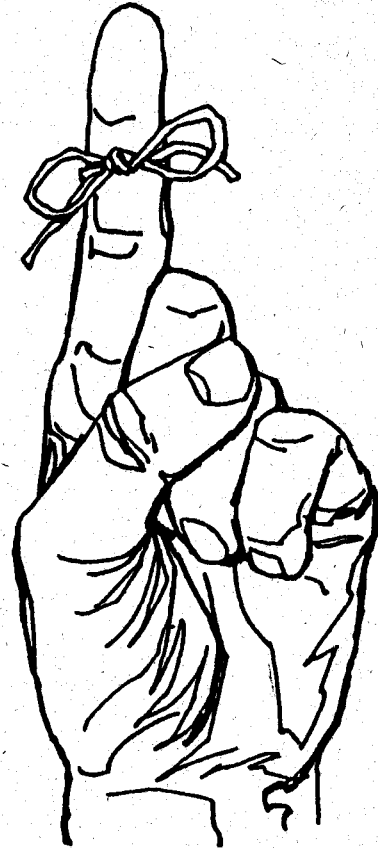

We believe the roads need maintenance, but new and higher taxes disguised as fees are not right. Tell the City to prioritize spending and stop coming up with new ways to tax its citizens.

# NORTH CLACKAMAS SCHOOL

## Measure No. 3-89

### BALLOT TITLE

#### NORTH CLACKAMAS SCHOOL DISTRICT GENERAL OBLIGATION BOND AUTHORIZATION

**QUESTION:** Shall the District be authorized to contract a general obligation bonded indebtedness in an amount not to exceed \$81,946,338? If the bonds are approved they will be payable from taxes on property or property ownership that are not subject to the limitations of Section 11b, Article XI, of the Oregon Constitution.

**SUMMARY:** Approval will authorize the District to issue general obligation bonds. The proceeds of the bonds will be used as follows:

Construction	47.1%
Reconstruction	38.9%
Safety Mandated Improvements	4.6%
Federally Mandated Improvements	3.4%
Building Wiring Improvements	5.1%
Land Acquisition	0.9%

Cost of issuance will be paid from the bonds, which will mature over a period of not to exceed twenty (20) years. Bonds may be used only for capital construction and improvements. Operating expenses, such as teachers' salaries, can not be paid for from bond proceeds.

### EXPLANATORY STATEMENT

#### Equal educational opportunities for all students

North Clackamas Schools need voter approval of Measure 3-89 to achieve these goals:

- **Renovate aging schools to create comparable opportunities for all students** (47 percent of bond).
- **Respond to growth needs to prevent overcrowding at all schools** (48 percent).
- **Rewire schools to expand the capabilities for computers and other instructional technology in all classrooms** (5 percent).

#### Renovate Aging Schools

Fourteen schools were built before 1960; nine before 1940.

Bond projects will:

- Replace window systems in 4 schools to save energy costs.
- Replace inefficient heating systems at 5 schools.
- Prevent costly damage by replacing roofs at 5 schools.
- Improve fire warning and prevention devices at 4 schools.
- Install back-up lighting systems at 19 schools for safe exit in emergency.
- Improve sanitation through renovations of worn-out restroom facilities at 7 schools.

#### Reduce School Overcrowding

A steady growth of student population has increased class sizes and reduced our ability to provide equal educational opportunities for students throughout the District.

The bond will:

- Build a high school on 122nd Avenue.
- Build an elementary school on 129th Avenue.
- Purchase land for future school sites.
- Build additional gymnasiums at Milwaukie High and Putnam High.

- Build gymnasiums at 5 elementary schools: Bilquist, Lewelling, Whitcomb, Campbell and North Oak Grove.
- Build an auditorium at Putnam High.
- Create a "clean feeder system" with all students from an elementary school attending the same junior high school and high school.

Without additional classrooms, growth will be accommodated throughout the District by boundary changes, double shifts or year-round school.

#### Rewire Schools for Computer & Technology Access for All Students

The bond will expand learning opportunities for all students. Funds will:

- Install necessary wiring and electrical outlets in all schools to expand computer capabilities. Since Measure 47 disallows the purchase of computers with bond proceeds, building sales and community partnerships will fund computers for classrooms.
- Create a Technology Center for high school students at the current McLoughlin Junior High campus which would be a companion to the Sabin Skills Center.

#### Preserve the Value of Our Schools and Community

North Clackamas Schools began preparing this bond in 1993. It has been changed to meet concerns expressed in community meetings and at the polls. Hundreds of citizens helped make sure this proposal meets the needs of the community and students. A citizens committee will monitor progress and make sure all projects are completed.

To pay off the \$81.9 million in bonds over 20 years, a consistent rate of 93 cents per \$1,000 (about \$7.75 per month on a \$100,000 home) guarantees that new residents pay their fair share to solve problems created by new growth. *By law, bond proceeds cannot pay for school operating costs, such as employee salaries.*

**Your vote is important because law now requires that more than 50% of registered voters cast ballots. Please mail your ballot before March 11.**

If you have questions, or would like specific detail for projects for each school, please call 653-3650.

As senior citizens, we urge you to **vote yes on County.s** that the quality of our community depends on the quality of our schools and the quality of the education our students receive.

The students of the North Clackamas school district need **sound schools** to give them a **solid education**. Our community needs students who have received a solid education.

This bond proposal **will directly benefit every student** and every area of our community.

Measure 3-89 will:

- **Provide equal educational opportunity** for every student.
- **Extend technology and computer access** to every classroom.
- **Eliminate overcrowding** in all our schools.
- **Repair and maintain existing schools** that have served us well for generations.

*By law, Measure 3-89 cannot be used for the salaries of school employees nor for day to day operating expenses.*

Our community has a long-standing tradition of **supporting our schools** and **servng the needs of children**. In doing so, we help ourselves. Let's continue that tradition.

**Your vote counts**, now more than ever.

**North Clackamas County Chamber of Commerce  
 Board of Directors Vote To Support  
 North Clackamas School District Bond Measure**

The Board of Directors of the North Clackamas County Chamber of Commerce unanimously voted to support the **North Clackamas School District Bond Measure 3-89**. The Board believes that an investment in the infrastructure of education is a wise and necessary decision for the area. Budget cuts have delayed needed repairs and maintenance and the updating of the existing facilities. Construction of new facilities is an important step for the children of our community that must be taken now. The passage of the bond proposal will be a fundamental investment in the education of our children.

Funds from the bond proposal will be used in a number of ways:

- to construct new facilities to accommodate the population growth that the community is experiencing;
- to upgrade and renovate existing facilities such as with emergency back-up alarm systems and fire fighting equipment like hydrants, sprinkler and alarms; to replace leaking and damaged roofs, windows and doors;
- to replace inefficient heating and ventilation systems;
- to rewire the facilities for modern communication capabilities for the student population;
- and to allow more students to participate in advanced training programs such as at the Owen Sabin Occupational Skills Center, the district's nationally recognized skill training center.

The capital improvement programs that the bond proposal funds are key to the continuing excellence of the educational programs in the district. Upgrading facilities and constructing new ones is an essential part of the educational needs of our children.

## Measure No. 3-89

### ARGUMENT IN FAVOR

#### Homeowners Support School Bond Proposal

We urge you to **support Measure #3-89**, the bond proposal to renovate and build schools in our district.

We do not make this recommendation lightly. We have studied this bond proposal and we agree with the citizen school board and many others in our community that it's time to renovate and improve existing schools and to build a high school and an elementary school near 122nd Avenue.

As a community, we need to take reasonable, well-planned steps to continue to provide good and equal educational opportunities for students throughout the District. That's exactly what the projects funded by this bond proposal will do. We need to act now to minimize overcrowding in aging and – in some cases – inadequate school facilities.

Between now and March 11, please study this proposal carefully. And please request the project information by calling 653-3650. As you will see, this bond proposal does not include day-to-day operations expenses, such as salaries. It specifically renovates, upgrades and builds facilities to meet the continuing growth in the number of students throughout our community.

After you review the information as we have, we believe you will join us and **vote "Yes" on Measure #3-89**. Please mail your ballot well before March 11 – make sure your vote is counted!

#### MEASURE 3-89 AND SCHOOL SAFETY

As local fire district administrators, we appreciate the fact that Measure 3-89 includes necessary renovations for improving public safety features in aging school buildings in the North Clackamas School District – providing for a safe environment in our schools.

Safety measures proposed include:

- Upgrade of area school facilities to meet current fire and building code regulations, including emergency lighting systems.
- Earthquake reinforcement for facilities identified by a structural engineer as needed.
- Automatic fire protection sprinkler systems to be installed in several facilities.
- Upgrade of on-campus hydrants and fire fighting water supply lines.
- Fire detection and early warning systems and electrical system upgrades at several schools to help prevent potential power service overloads which can cause fires.

## Measure 26-53

## Measure No. 34-61

### BALLOT TITLE

#### DISCONTINUE LOCAL SCHOOL COMMITTEES

**QUESTION:** Shall the 3-member elected Local School Committees be discontinued in Centennial School District?

**SUMMARY:** Local school committees date back to the early 1900s, when rural schools were consolidated into larger school districts. The committees' limited responsibilities – determining what groups can use a school, recommending the hiring and firing of teachers, and reporting to the board once a year – are largely being accomplished in other ways as a result of state law and district policy. Centennial is one of only nine districts in the state that still has local school committees.

### EXPLANATORY STATEMENT

A majority of Local School Committee members agreed at meetings in 1995 and 1996 that their legal duties were no longer meaningful and the groups should be eliminated. State law requires that a majority vote is needed to officially discontinue local school committees.

The Centennial School Board favors replacing the Local School Committees with Principal's Advisory Committees in each school.

Principal's Advisory Committees would be locally controlled rather than controlled by state law. Also, they could open membership to more people and establish agendas based on parents' interests and school needs.

Among the reasons for discontinuing the local school committees:

• **Out of date:**

Local School Committees' legal responsibilities are very narrow in scope. Furthermore, all local school committee duties have been absorbed by other groups, as a result of state law and district policy.

For example: The committees are responsible for determining use of school property for civic purposes other than education. However, rules governing school use are defined in district policy. No major decisions need to be made other than scheduling. Scheduling decisions are more efficiently made by a principal or someone familiar with activities at the school.

A principal's advisory committee would not have state-imposed responsibilities. Because they would be locally controlled, the principal's advisory committees could establish agendas based on the parents' interests and the school's needs.

• **Few Candidates, limited membership:**

Vacancies on local school committees are difficult to fill because so few people are interested in running for a position that has so little meaning. Membership is limited to three. A principal's advisory committee would have a minimum of six parents representing different grade levels.

• **Costly Elections:**

The district must pay for a local school committee election every two years, even if no one chooses to run for the office. Eliminating Local School Committees would cut the cost of an election by at least a few thousand dollars. The exact savings varies, depending on how many items are on the ballot.

If this measure passes, the School Board would replace Local School Committees with principal's advisory committees. The advisory committees would be open to broader membership and would provide a less expensive and more meaningful way for parents to participate in schools.

### BALLOT TITLE

#### ELIMINATION OF LOCAL SCHOOL COMMITTEES

**QUESTION:** Shall the Tigard-Tualatin School District eliminate Local School Committees and the cost of electing them.

**SUMMARY:** Oregon law requires all schools to form Site Councils which include elected parent representatives. The legislature has given Site Councils broad responsibilities which supercede the advisory role once performed by Local School Committees. This measure would permit each school to replace its Local School Committee with an advisory committee made up of the elected parent representatives from the school Site Council.

### EXPLANATORY STATEMENT

This measure is on the ballot in response to a survey of parents who serve on Local School Committees. Overwhelmingly, they support the elimination of the Local School Committees.

Why? Because the 1995 Oregon Education Reform Act created site councils which include peer election of parent representatives. Because site councils have become the main decision-making body in the school, Local School Committee members are playing a lesser and, in some cases, a duplicate role.

Additionally, Local School Committees require formal elections. It is becoming increasingly difficult to find candidates to run for these offices. Consequently, some committees do not have a full slate of candidates and interest is waning due to the popularity and authority of site councils. And, the cost of elections for Local School Committees is now viewed as an unnecessary burden on the district's budget.

Because Local School Committees were part of the district's consolidation vote in 1969, Oregon law requires voter approval to eliminate these committees.

Therefore, if this change is approved by voters, the three-member Local School Committees would be eliminated. Parent participation would, however, continue via site councils. And, in order to provide confidential advice and feedback to school administration, district policy would require regular, private meetings between site council parents and the principal.

**EDUCATIONAL BACKGROUND:** Bachelors Degree from Whittier College, Whittier, California.

**PRIOR GOVERNMENTAL EXPERIENCE:** Carus School District Budget Committee; Carus School Board (1989-1994); Canby High School Budget Committee; Canby School District Budget Committee; Canby High School Site Council (1994-1996); Carus Local School Committee (1994-present).

My name is Elizabeth Corley, although most people know me as Liz. My husband and I have lived in the area for 19 years. Our two children are both currently enrolled in the Canby School District. Over the past 10-12 years I have played an active part in the school system.

As well as my school board and budget committee experience, I have been involved in many committees and activities from the preschool level on up to high school. I have worked with parents, teachers and community members. As a member of the Carus School Board, I attended school board training sessions in school board membership, policy, and negotiations. During the unification process three years ago, I was part of the Unification Steering Committee, and chairperson of the Personnel & Facilities Task Force. The job of unifying four school districts was a big one. During this time I learned how important it is to listen to concerns and address tough issues. In the upcoming years there will be more issues to deal with and concerns expressed, about our children's education. While on the Canby High School Site Council I became aware of many educational issues we will be facing as we work toward graduating the first of the CIM (Certificate of Initial Mastery) students in 2001. At the same time we will be experiencing the budget dilemmas brought about by Measure 47.

I feel my background makes me a good candidate for a Canby School Board Position. More important though, is a good education for all of our children. The Canby School District has a history of providing quality education in their community, and I hope to help it continue in this tradition.

**OCCUPATIONAL BACKGROUND:** Lobbyist Oregon Education Association; Teacher - Wrestling - Football Coach - Lake Oswego.

**EDUCATIONAL BACKGROUND:** Portland State University - Portland, OR; Scappoose High School - Scappoose OR.

**PRIOR GOVERNMENTAL EXPERIENCE:** State of Oregon Juvenile Justice Advisory Committee.

I am proud to have been a part of the Canby Community since 1974. I have had four children attend Canby Schools and now have a grandson entering the Canby School system. Grandchildren can affect you profoundly. In my case I want to ensure my grandson receives a quality education.

The time has come for consensus building in our community. We can provide the highest quality of education for Canby youth by working together as a team. A team that is comprised of the community, the board, and all school personnel.

For the last 22 years I worked as a lobbyist for the Oregon Education Association. I brought the Legislature, teachers, and citizens of this state together working for Oregon's children. I have recently retired, but continue to operate a small business in Canby. As a former teacher I strongly believed in the importance of education and want to continue working for our most valuable resource, our children. I spend numerous hours as a volunteer grandparent at the Canby Cooperative preschool. I would like to continue contributing to our schools as a board member.

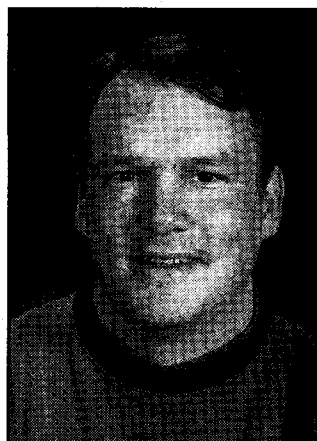

We must be a strong and united force that does not tolerate gang activity of any type in our schools and in our neighborhoods. We need to provide and support activities that build character and produce responsible citizens.

Tough financial decisions lie ahead. As a small business owner, every day I make decisions on whether to spend dollars on labor, equipment, or raw material. It's a tough balancing act. Together we can establish our financial priorities based upon the tax dollars available to us. Schools belong to the community and should reflect what the community wants.

If elected to the board I will work for cooperation, team work, and building bridges.

**OCCUPATION:** Supervisor at Precision Castparts. Working in the Titanium Plant. Primary accountability: Budgets, Major Projects and Process Related issues.

**OCCUPATIONAL BACKGROUND:** Though I have spent most of my working career in the Foundry business, I have also done the following: Self Employed - General Contractor, Remodeling, Additions.... Technical Sales - Computerized Process Monitoring Equipment, Secondary Waste Treatment Systems. Technical Manager - Plastic Injection Molding. Farm Labor, Motor Cycle Mechanic, etc....

**EDUCATIONAL BACKGROUND:** High School Graduate (Canby High); Community College Courses; Professional and Managerial Training and Seminars.

**PRIOR GOVERNMENTAL EXPERIENCE:** Canby Elementary School Board - Elected to 2 Terms, 2 years as Chair, 1 year as Vice-Chair; Community and School Committees: Budget, Building, Unification, etc....

I am asking you to elect me to this office. I feel that I am the best qualified because:

1. I have served on a School Board in Canby. I understand the job, what is needed and how to work with the parties involved to make the right things happen for the children and the community.
2. I grew up in Canby. My family moved here in the '60s. I attended Elementary and graduated from High School here. I worked for the area farmers and met my wife at Church here.
3. I stayed in Canby to raise my family. I was from Texas, my wife from Switzerland, but Canby was the place we wanted to stay. We have 6 children and now they all are attending school here. 2 in Elementary, 2 in Middle School and 2 in High School.
4. I have the skills that are needed. I have a strong managerial background, grounded in listening and understanding. I know how teamwork and partnerships depend on communication and integrity. I have a broad perspective and many life experiences to draw from.

I know the importance involvement and participation. Allow me to be a representative for you to the Canby School District.

**OCCUPATION:** Mechanic – Columbia Helicopters.

**OCCUPATIONAL BACKGROUND:** Retail Business Owner – Hollenbeck's Canby Sport Center.

**EDUCATIONAL BACKGROUND:** John Muir High School, Pasadena, CA; Pasadena City College (2 years), Pasadena, CA.

**PRIOR GOVERNMENTAL EXPERIENCE:** None.

Canby Schools enjoy a reputation for excellence in academic achievement, interscholastic sports and extra-curricular competitions such as FFA, DECA and Speech. Many of us moved to Canby because of the excellent schools. We support the efforts of our teachers, administrators, and especially our students to maintain and improve our performance.

The State of Oregon insists on higher standards for the 21st century. Our students need to prepare for careers over their lifetimes, not just for age 18 or 22. Many of those careers do not even exist yet. Our students face challenges from drugs and gang activity. We are very fortunate in having parents, a community, and a staff which take a proactive stance to help our kids overcome these challenges.

I offer you my skills as a listener, a businessman, a problem solver and as one who cares very deeply about our community. I will work to help our schools and our parents make the difficult choices which we face as a result of financial uncertainty. I will do my best to let the public know what our resources are and how the resources have been allocated in the past, so that the decisions may be open for all to participate.

If necessary, I will personally represent the citizens of Canby before the legislative committees, to insure that legislators make decisions which benefit small districts like Canby.

Our cost per student remains lower than the cost in the larger districts, and I believe that we can continue to provide excellent education at a reasonable cost. Please vote for JACK HOLLENBECK.

**OCCUPATION:** Senior Programmer/Analyst Clackamas County.

**OCCUPATIONAL BACKGROUND:** Mediator – Clark County Mobile Home Assn – ongoing; Programmer, Oregon Department of Fish and Wildlife.

**EDUCATIONAL BACKGROUND:** Clark College – AAS; Walla Walla College B.A.

**PRIOR GOVERNMENTAL EXPERIENCE:** Carus Local School Committee, 3 years; Canby Budget Committee, 2 years; Chairman, Carus Budget Committee; Canby School Boundary Committee; Canby Long Term Facilities Planning Committee.

The Canby School District is entering a critical time period. More is being expected of schools and teachers at the same time that funding is being reduced. On the School Board, we need strong leadership cultivating a cooperative relationship with teachers, administration, parents, students and the community in general. Together we must identify those strengths that have made our schools some of the best in the state. We will also need to identify areas we can improve, in order to meet budget challenges and enhance the quality of our education at the same time.

I bring the experience necessary to accomplish these goals, including three years experience on the Carus Local School Committee:

- 1) In my professional capacity as Senior Programmer/Analyst for Clackamas County, I continually seek more efficient and effective ways to manage programs and process data.
- 2) As a professional mediator with ten years experience, I have found solutions to solve major disagreements between the parties involved.
- 3) I served on the Canby School Boundary Committee. During that time, we faced severe overcrowding in some of our elementary schools and the need to balance boundary changes with parent/student needs. We worked hard to gather the facts to make the hard, necessary decisions. These changes have worked well for the last two years.
- 4) As a member of the Budget Committee, I have worked hard to maintain programs, even though revenues have been declining since implementing Measure 5.

As an elected member of the Canby School Board, and a concerned citizen of the Carus community, I will do all in my power to meet the challenges our schools are currently facing.

Our single most important responsibility is the education of our youth. They must be prepared to succeed in a world which is fast paced, competitive and increasingly complex. Their success depends on how well we provide them access to any reasonable curriculum available at any other school or institution, and protection of the learning environment. We must also strive to eliminate inefficiencies and waste, both time and money, whenever and wherever possible.

My pledge to you is to devote my time and hard work for our youth in their quest for educational excellence.

I have volunteered within the Estacada School District for the last six years, serving on various committees and councils. This has enabled me to form a vision for the future of our school children and young adults, a vision of higher expectations and scholastic achievement. Even in these times of smaller budgets and financial cutbacks this vision can be achieved.

First we must maintain small classroom size in grades kindergarten through 3rd grade. For most children this is a critical time when they become competent readers. If they miss this threshold period their chances of becoming successful students is diminished. Research and practice have made it clear that small class size has a dramatic effect on these young children's chance of success. Next we must actively search out and adopt successful programs, such as Saxon Math, which help our students learn more proficiently.

Our Schools can improve, but we must not be complacent. We must demand high standards of our teachers, administration, students, and especially ourselves as parents.

As the parent of two graduates and two children currently enrolled in the Gladstone District I have always believed that community citizen involvement is the major ingredient to a strong and healthy school system.

As we look forward, the issues we all must face continue to dominate the headlines. These include:

- lack of a permanent source of school funding
- shrinking budgets resulting from Measure 47

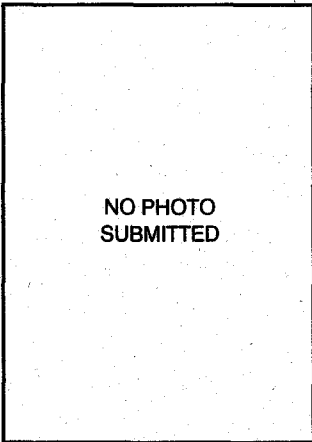

The formidable tasks for teachers and administrators are many, as they prepare our students to face the challenges ahead as we move into the 21st Century.

My commitment to the residents of Gladstone is to work hard to balance the educational needs of the children with the available resources. Gladstone has long had an excellent reputation for its schools, and I will commit to keep and build on that reputation.

DIXON**

**OCCUPATION:** Barber; Realestate investor.  
**OCCUPATIONAL BACKGROUND:** None.  
**EDUCATIONAL BACKGROUND:** 12th grade, graduated.  
**PRIOR GOVERNMENTAL EXPERIENCE:** None.

Being the Father of three children who are currently enroled in the Gresham/Barlow School district is more than enough to motivate me to want to serve on the Gresham/Barlow board of directors.

With the passage of Measure 47, money for education will be in shorter supply. That is why the first goal of the district must be to get the most and best education possible per dollar we have to work with. School board members from all over the state must work with the Oregon legislature to make sure education has proper funding.

Maintaining and raising the standard of academic excellence must always be the boards goal. Too often ciriculums have been dumbed down and made less chalenging.

It has become more and more difficult for high school graduates to find good paying jobs. Ever greater numbers of graduates will be going on to some form of higher education in hopes of improving their job opportunities. We must keep that opportunity open by concentrating on providing good basics.

An educated, literate populas is essential to the preservation of our republic. Our public-paid-for education system is the most succesfull mechanism to produce that learning environment.

Fifty three years of living and thirty five years at being selfemployed in small business has given me experience that should be valuable to a public board such as Gresham/Barlow school board.

Thank you for your consideration.

**OCCUPATION:** Dentist.  
**OCCUPATIONAL BACKGROUND:** Albertson's.  
**EDUCATIONAL BACKGROUND:** University of Oregon Dental School, DMD, 1973; Portland State University, B.S., 1969.  
**PRIOR GOVERNMENTAL EXPERIENCE:** Chair, Citizens For Schools ( a political action committee in support of Gresham area schools), 1984-present; Past President, Persimmon Homeowners' Assn; Student Body President, University of Oregon Dental School; President, Rancho Hondo Rivera Homeowners' Assn., 1980-90.

My priorities as a school board member will be to ensure our staff and students have a safe and secure teaching and learning environment, and that our students learn to their full potential. I see no reason why students in the Gresham-Barlow District shouldn't score well above average on state-mandated tests and other valid learning indicators.

I believe the current Board and administration have been doing a good job pursuing these two goals. Regarding the safe, secure environment, I take some degree of personal satisfaction in knowing I may have contributed to the successful passage of September's bond measure through my role with Citizens For Schools.

I think we can do considerably better with increased student performance. The District has an excellent staff, and the make-up of our community compares favorably with other locales. Why, then, are some indicators of student success not more positive? If elected, I will provide leadership in examining our instructional practices so that our staff and students will have every opportunity for success.

To ensure this likelihood, your board will need to find ways to provide more textbooks, software and other supplies critical to learning, as well as do everything within its power to maintain reasonable class sizes, in spite of the projected revenue shortfall.

To summarize, I believe my track record speaks for itself. For nearly a decade, I have provided leadership in generating this community's support. Now, I ask that you allow me that same leadership as a member of the Board of Directors so that the Gresham-Barlow School District will become one of the best in Oregon.

**EDUCATIONAL BACKGROUND:** University of Texas at Arlington, B.S. in Mathematics, minors in Computer Science, Physics and Geology.

**PRIOR GOVERNMENTAL EXPERIENCE:** None.

As a mother of three children, education is extremely important to me. Only after careful consideration of home-schooling, private or public schools, did I comfortably commit my children's future to the Gresham-Barlow School District. As a parent volunteer, I have been warmly welcomed into the schools, committees, and district offices. My ideas have been implemented and my concerns, addressed. I have met many caring and dedicated professionals who have made their goal the excellence of our children's education. I would like to take on a larger role within this community by becoming a member of the School Board.

I have and will continue to work hard to improve our schools. Many people have said that I work more as a volunteer than most people do in a full-time job. While that may be true, the work that I do is energizing and exciting. What better work can one do than to improve the life of a child?

Given the effects of Measure 47, the financial path ahead cannot be an easy one. Yet I am encouraged by the support the community has shown towards the schools especially with the passage of the bond measure last fall. Challenges often lead to innovations. I am brimming with ideas on how schools can meet with their goals while becoming a more active member of our community.

Money spent on education is never wasted. I commend the efforts of the current school board, the district personnel, the volunteers and the community supporters who have helped make the Gresham-Barlow School District the excellent school system it is today.

I appreciate your consideration.

Isn't it time for a change and a fresh approach to the direction of the District?

My opponent has been on the Board for 16 years.

The current board and administration have become separated from the day-to-day needs of the District.

Why are so many children within the District attending private schools?

Having attended district meetings, board meetings and budget meetings for several years, I am very interested in serving on the Gresham-Barlow School Board. In these times of reduced funding it is imperative that fiscal responsibility be the number one priority to properly manage the resources that are available. We can no longer allow our facilities to deteriorate and then expect the taxpayers to bail the District out of what should have been ongoing maintenance.

It is imperative that we provide the appropriate environment, equipment, and qualified instructors to teach our children. We need community based schools that involve the community at the individual school level.

Has the District become too large and out of touch with the day-to-day mission and goals? The business of the District must be open and inclusive of its customers. They must produce a marketable product.

I am self-employed, a homeowner and a parent in this School District. I would bring years of fiscal control, management expertise and results-oriented experience to the board. I would appreciate the opportunity to serve you in this position.

We don't have a crisis in education - We have an opportunity - Now together lets make that opportunity a success.

## LAKE OSWEGO SCHOOL

### Position 2

**DIANNE  
CASSIDY**

**OCCUPATION:** Substitute Teacher; School Volunteer.

**OCCUPATIONAL BACKGROUND:** Secondary Art Teacher, Beaverton and Portland Public Schools; Designer/Estimator, Hallberg Remodeling.

**EDUCATIONAL BACKGROUND:** Wilson High School, Portland, Oregon; B.S. University of Oregon; M.A.T. Lewis and Clark College; Continuing education, Portland area colleges.

**PRIOR GOVERNMENTAL EXPERIENCE:** Lake Oswego School District; Lakeridge High and Waluga Jr. High, School Advisory Committees; Waluga Site Council; Co-Chair TAG Advisory Committee; Athletic Policy Committee.

I have been involved in education for over 23 years as a teacher, parent and volunteer. My experience has allowed me a unique perspective on the challenges facing public education, particularly in Lake Oswego. While restructuring continues to be a focus of the board, it is imperative that the community also be involved in the process of defining the nature and limits of school district offerings and be assured of a quality education for all students.

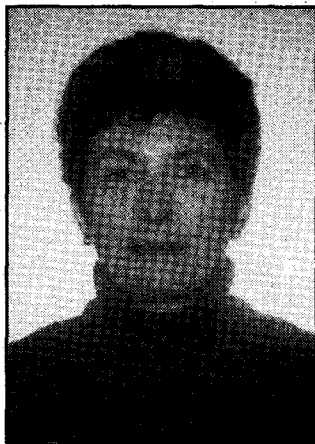

#### Goals:

- **Curriculum** - To provide an academic program well-grounded in basic skills with a solid knowledge base at all levels. The primary emphasis of the school district should be to provide a superior academic curriculum, enriched by elective programs, athletics and extracurricular activities as components of a well-rounded education.
- **Instruction** - To support teaching methods and materials that have been tested and are proven to be effective. Innovative educational trends must have a proven track record before being adopted by our district.
- **Finance** - To require a thorough cost/benefit analysis of all programs and practices adopted by the district. Fiscal responsibility assures the community that their tax dollars and the students' time are being used wisely.
- **Communication** - To establish two-way communication between the school board and the community, survey patrons, and provide opportunities for input on educational affairs so that the schools can better reflect community needs and values.
- **Environment** - To provide a safe school environment for every student. The district must continually work to eliminate drugs, alcohol, and disruptive behavior that endangers children and detracts from the primary focus - a quality education.

## LAKE OSWEGO SCHOOL

## Position 2

**MARCIA H.  
DONNELLY**

**OCCUPATION:** Lake Oswego school board member since 1992; Legal Budget Chair; Philanthropy Chair, Lake Oswego Jr. Women's Club.

**OCCUPATIONAL BACKGROUND:** Lake Oswego School Board Chair, 1995-96; Administrative Assistant.

**EDUCATIONAL BACKGROUND:** BA; anthropology, College of William and Mary.

**PRIOR GOVERNMENTAL EXPERIENCE:** Rivergrove Advisory Committee; President, Waluga Booster Board; Co-founder, Lake Oswego Coordinating Council; Co-chair, TAG Advisory Committee; Enrollment Committee; Lake Oswego Leadership.

Although the state has assumed much control over our local schools, the role of the school board member is vital. The school board is a locally elected body whose actions have an immediate impact on the community. It is critical to the success of our students and our school district that members of the board be thoughtful problem solvers, able to see many perspectives and have the interest of the entire district at heart.

I have been an active participant in our district since my oldest child entered kindergarten 14 years ago. I have served on many boards and committees and chaired several of them. These experiences gave me an understanding of the district and its constituents and leadership experience.

For the past five years I have served on the school board and been part of our successful response to the constrictions of Measure 5. As a board member, I have worked with the city of Lake Oswego to develop a partnership, a Community School program providing services and opportunities such as day care and sports programs. This infrastructure will allow us to maintain our superior core academic curriculum despite reduced resources.

We must continue to protect and improve our core academic program while providing a range of opportunities to allow students to grow and develop their individuality. We must manage the affairs of our school district with financial responsibility, and be sensitive to the needs and perspectives of all members of our community.

Reelect Marcia Donnelly to the Lake Oswego School Board.

## Position 3

**LORETTA  
MULERT**

**OCCUPATION:** Mother of three boys; school volunteer.

**OCCUPATIONAL BACKGROUND:** Administrative Services: Standard Oil, Dean Witter, International Contronics, City of Palo Alto.

**EDUCATIONAL BACKGROUND:** BA, History, Brigham Young University; post baccalaureate training, Early Childhood Education, West Valley College.

**PRIOR GOVERNMENTAL EXPERIENCE:** Elected SITE Council member and PTA officer, Saratoga, CA.

For seventeen years I have continuously participated in public service. I have

- Served as a member, officer and volunteer worker in school support organizations – PTA, SITE Council, Parent Connection, Merit Awards, Parent Pacer Club
- Worked in schools as a library volunteer coordinator, classroom math and reading assistant, speech team judge, fund raiser and academic (High 5) team coach
- Received School Volunteer of the Year Award in prior district
- Co-founded ACE, an education consumer organization which sponsors a newsletter, speakers and discussions on current educational issues
- Tutored in adult literacy program
- Served as Boy Scout leader and counselor.

My main concerns are **curriculum, communication** and **funding**.

I believe that the current **curriculum**, should be revised to emphasize basic skills and content (grammar, spelling, math facts) over process (self-evaluation, self-direction, teacher facilitation, cooperative learning and self-esteem building).

I believe students and parents as the primary consumers of education, should be the driving force in choosing curriculum, budgeting and evaluating programs. To facilitate **communication**, the school board should routinely solicit and, in a timely manner, acknowledge and deliberate input from parents, students, teachers, and other community members as well as input from the administration.

I believe that the school board must invest whatever time necessary to establish long-term stable **funding** priorities while maintaining excellence in the face of budget pressures.

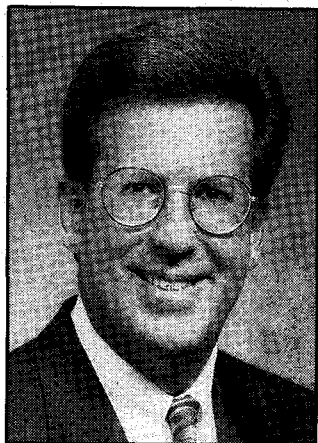

In the past year-and-a-half I have regularly attended Lake Oswego school board meetings and work sessions. I have a thorough understanding of district issues. With my experience in another district facing similar challenges, I bring a fresh perspective and commitment to making a good school district even better.

## Position 3

**JIM  
ZUPANCIC**

**OCCUPATION:** Corporate Attorney; Businessman.

**OCCUPATIONAL BACKGROUND:** President, Genesis Electronics Corporation.

**EDUCATIONAL BACKGROUND:** B.S. Business (Finance), Brigham Young University; J.D., University of the Pacific.

**PRIOR GOVERNMENTAL EXPERIENCE:** V.P. School District Foundation; School District Legal Budget Committee; Lakeridge High School Site Council; General Counsel, California Ways and Means Minority Committee; Oregonian 12 years; Lake Oswego Resident 7 Years; 5 Children, 2 Graduated, 3 Children in Lake Oswego Public Schools.

The most crucial issue facing the Lake Oswego School District today is HOW TO USE LIMITED FINANCIAL RESOURCES TO SUSTAIN EXCELLENCE. The excellence that distinguishes our District is built upon strong academics, outstanding music, arts and athletics programs which provide breadth and valuable social experience. We must find ways to preserve excellence and protect quality programs.

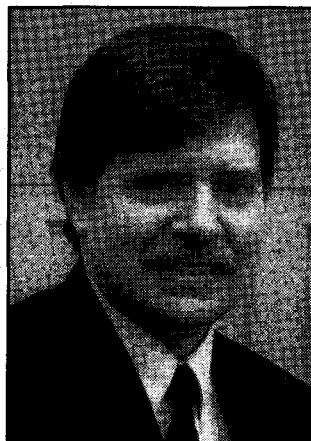

We must also prepare students for a fast changing world by helping them LEARN HOW TO LEARN. In addition, incorporating TECHNOLOGY IN THE CLASSROOM will help students learn how to use important tools for future education and careers. In support of families, we should also emphasize students' development of PERSONAL AND SOCIAL RESPONSIBILITY.

The School Board is the designated leader for public education. Board members should listen carefully, understand and then act decisively to lead our District toward excellence. That leadership will require experience, commitment and vision. As a member of the DISTRICT LEGAL BUDGET COMMITTEE, LAKERIDGE SITE COUNCIL AND THE DISTRICT FOUNDATION BOARD, I have the requisite experience. I have proven my commitment to the community by years of service to young people. My vision is for this District to be the best public school district in the nation. With the help of many, it can be.

If elected, I pledge my very best efforts to listen to opposing views, understand and then always make decisions in the best interests of the students. I seek this position because I care deeply about young people and quality public education. Your vote for me is an expression of support for maintaining quality education in Lake Oswego.

## Position 4

**CALEB  
BURNS**

**OCCUPATION:** Licensed Psychologist.

**OCCUPATIONAL BACKGROUND:** Licensed psychologist in Portland/Gresham area since 1987.

**EDUCATIONAL BACKGROUND:** Ph.D. Clinical Psychology, M.A. in Developmental Psychology: University of Hawaii; B.A., Claremont-McKenna.

**PRIOR GOVERNMENTAL EXPERIENCE:** Bryant Elementary School SAC Committee.

A major priority (in addition to helping establish dependable funding for Lake Oswego Schools) is that of restoring strong academic curricula and getting rid of some of the destructive educational fads forced on our teachers and students by LO school administrators and our school board.

A few of these harmful fads are: trying to get rid of phonics; treating math facts (e.g., multiplication tables) as unimportant compared to "conceptual" approaches; invented spelling (our own form of "Ebonics"); telling teachers not to correct students' grammar as it may bruise self-esteem; implementing the CIM/CAM and Portfolio approaches; etc.

But if our two children (my wife, Jane, and I have a third-grader and high school student in LO schools) are mistaught by unproven, untested approaches, who will restore their precious learning years? We test drugs, vaccines, planes, etc., before people use them. Isn't it abusive to implement of our children's curricula before they are proven effective? or at least, not harmful?

It is all too clear that in LO a focus on academic excellence has taken backseat to other, more nebulous goals.

In terms of funding, we are entering a period – perhaps permanently – in which we may need, among other things, new structures to raise the revenue necessary to maintain our tradition of excellent schools. But clearly, this task will be made far easier by effective, widely-accepted curricula.

Therefore, in addition to strong financial support for LO Schools, I will emphasize effective, proven curricula, these supported by rigorous standardized testing and high expectations. We must return to academic excellence and we must free our excellent teachers to use instructional practices that work.

For questions, comments, more specifics, and dialoging, please see my Internet site at [www.teleport.com/~calebb/school.html](http://www.teleport.com/~calebb/school.html)

Please support my candidacy!

**OCCUPATIONAL BACKGROUND:** Housewife and business partner with husband in Molalla Machine Shop, Inc; Clackamas County Juvenile Crime Prevention Committee; Christmas tree grower with family; Volunteer at Molalla High, College & Career Awareness Program; Volunteer St. James church Sunday school; Volunteer with Molalla Football Action Committee.

**EDUCATIONAL BACKGROUND:** Attended Molalla Public schools, graduated Molalla High; Two years of community college at Mt. Hood & Clackamas Community College; Real estate training (vocational school).

**PRIOR GOVERNMENTAL EXPERIENCE:** Board member – Molalla Elementary Dist. (1985-92); Board member – Molalla Union High School (1992-93); Board member – Molalla River School Dist. (1993 to present).

The Molalla River School District is responsible for educating over 2700 students, with trends indicating a continued growth in enrollment. I have worked diligently as a school board member to increase the availability of computers and technology for students. I have also pushed for more accountability in our academic standards for the "basics" – reading, writing, math, science and history. Maintaining programs for the arts, music, athletics, and extra curricular activities has been a challenge for school districts, and at Molalla River we have combined limited taxpayer dollars with fund raising efforts by students and parents to keep these offerings.

I believe that our schools are made stronger by the involvement of parents and community. I have always been willing to talk to parents or students with questions or concerns about our schools. I try to recognize the efforts of teachers and staff who work daily with our children, meeting the ordinary and sometimes extra-ordinary needs of young people. I would urge all voters to try to find time to visit your schools, see what's going on and help to improve the future for our children.

If you share my commitment to children, and a conviction that money wisely spent on their education is the best investment we can be making, then I ask that you vote for Carol Maloy.

# NORTH CLACKAMAS SCHOOL

## Position 4

**BILL  
SLEASMAN**

**OCCUPATION:** Certified Public Accountant.

**OCCUPATIONAL BACKGROUND:** William J. Sleasman, P.C., an accounting firm providing financial statements, management advisory, tax planning and tax compliance services.

**EDUCATIONAL BACKGROUND:** University of Oregon, Bachelor of Science.

**PRIOR GOVERNMENTAL EXPERIENCE:** North Clackamas School District #12: Director; Position #4; July 1, 1993 to present; Budget Committee; Budget Advisory Task Force, Chairman.

### Who I Am

1. A Christian
2. A family man
3. A Certified Public Accountant

### How I See It

1. Our children are our future. They must be prepared for a world of rapid change and to make the choices to lead hearty, productive lives. The alternative of spending our hard earned tax dollars on more police, jails and social welfare programs is an unacceptable bandage approach.
2. Our society has become self-centered and is turning its back on children. Look to Measure 5, Measure 47 and our district's last two bond election failures.

### Where I Stand

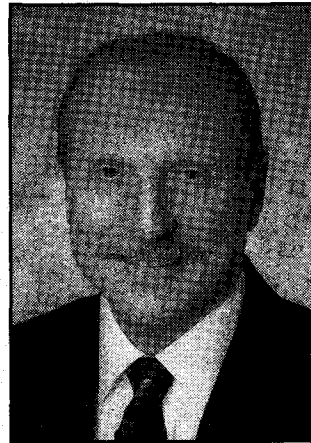

1. We need to continue to improve our education system. I support establishing clear, rigorous expectations for students and employees. I support our work to raise standards and our School-To-Careers program to make education more relevant.
2. Schools should promote community values as in our Character Education program. But, the schools' role in these matters is secondary to that of parents. Respect for the differences among people should include the values taught at home.
3. We have schools with deferred maintenance and in need of major updating. We need new schools for growth. We need technology for our children. I support our bond.

### My Experience

- Incumbent, North Clackamas School Board
- The District's Budget Committee
- The District's Business Advisory Task Force
- Sunrise Junior High School Advisory Committee
- Chamber of Commerce Board of Directors
- Clackamas Rotary Club and Foundation
- Valley View Evangelical Church Council and Finance Committee

**PRIOR GOVERNMENTAL EXPERIENCE:** NC #12 School Board – Appointed – unpaid; Metro Advisory – North/South Light Rail – Appointed – unpaid; Clackamas County Surface Water Committee – Appointed – unpaid; NC #12 Budget Committee – Appointed – unpaid.

I believe public education and the North Clackamas School District is a vital cornerstone of our community. I want to continue to serve as a Board member to insure the district offers quality school programs, the district is properly managed, we have adequate facilities for our children, and we have the best educated students possible.

## Position 6

**CAROL  
STORMENT**

**OCCUPATION:** Retiree.

**OCCUPATIONAL BACKGROUND:** Teacher, North Clackamas School District #12.

**EDUCATIONAL BACKGROUND:** Milwaukie High School, 1950; Marylhurst College, B.A., 1974; Linfield College, M.Ed., 1981.

**PRIOR GOVERNMENTAL EXPERIENCE:** Director, North Clackamas School District, 1988-present, (Chair - 90-91 and 96-97); Clackamas County Education Service District Budget Committee, 1990-1996; Center/Community Advisory Board (Milwaukie Center), Position #14, 1994-present - North Clackamas Parks District.

Enormous changes lie ahead for residents of our community:

- The impact of Measures 5 and 47 on our schools will continue, requiring new ways of meeting community needs.
- School reform continues to place pressures and demands for change on local districts.
- Area population growth and student enrollment will continue to climb.

Since 1988 I have been part of a Board team working to anticipate these changes - setting solid goals and giving clear direction to meet the future head-on. Two new schools were built without a request for additional taxes. Voters approved a bond levy to build a third and provided needed repair or additions to others. Our Character Education program was implemented. The Board made difficult decisions involving boundary changes and reductions in administrative, personnel and program areas - all with high levels of community participation. We brought to North Clackamas an exceptionally gifted new Superintendent.

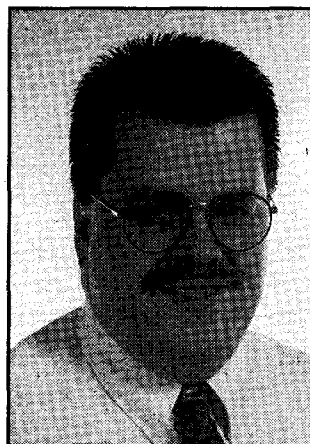

But more remains to be done. Schools cannot do it alone.

- We must continue to manage within imposed limits - delivering maximum value for each tax dollar - and still maintain standards of classroom excellence.
- We must continue to strengthen vocational/technical education at Sabin and expand working partnerships with businesses.
- We must encourage even greater community ownership of the investment we share in our children - among parents, patrons, businesses, seniors, churches and service organizations alike.

I am committed to providing education which empowers our children to be responsible members of society - both today and tomorrow. I remain ready to listen and to hear what you care about. I am prepared to join in making the hard decisions that lie ahead.

**EDUCATIONAL BACKGROUND:** Clackamas High School, Graduate; Spokane Community College, AAS Degree - Fluid Power Technology.

**PRIOR GOVERNMENTAL EXPERIENCE:** None.

The situation in our schools today is critical. Decisions made in handling the challenges of severe budget cuts, funding and staff shortages and curriculum selection will lay the foundation for our children's future.

Our goal should be to provide a better education for our children than we received ourselves. In addition to proven solid business, budget and personnel management experience, I bring to the board a lifetime of experience and involvement in this community. Clackamas High School provided my quality education and now I'm a Seth Lewelling Grade School parent.

In my preparation for a Board position I have attended most of the School Board meetings during the past year, and am familiar with the people and the issues. If elected I am prepared to work with the Board members, Parents, Citizens, Teachers, Staff and Students with the goal of improving education - in spite of measure 47.

My goal is to provide for our students the education to qualify them for good jobs and good future colleges and trade schools. We cannot afford to lower our standards

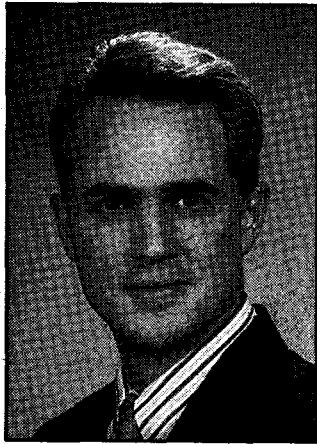

I ask for your vote, your support and your involvement.

**OCCUPATIONAL BACKGROUND:** Boyd, Hug & associates – Co-Owner, custom software & training; Evans Products Company – Computer Specialist Manager; Hewlett Packard – Marketing.

**EDUCATIONAL BACKGROUND:** Graduate – Rex Putnum High School; Mt Hood Community College – (music scholarship); Northwest Nazarene College; Oregon State University; Portland Community College – “Dr. Deming Management” business courses, Dale Carnegie courses.

**PRIOR GOVERNMENTAL EXPERIENCE:** Budget Committee Chairman for Oregon City Schools – 96/97; Board member for Oregon City Together; Planning Commissioner for Oregon City; Participant on the Boundary Task Force; Appointed on the North/South Light Rail Citizens advisory committee.

**ADDITIONAL COMMUNITY SERVICE:**

Active in local community projects, member of the Oregon City Church of the Nazarene and volunteer youth teacher; assist with music and drama.

**PERSONAL:**

**Mark Boyd** is 38, and has three children attending three different Oregon City Schools. His wife of 17 years, Carolyn, works for North Clackamas School District, and previously taught music classes as a volunteer at John McLoughlin Elementary School.

**Mark Boyd** has proven his leadership skills by helping build Chrome Data Corporation, (a national computer software company located in Oregon City) from just an idea, to a true success story. Chrome Data has been listed as “One of the Top 100 Companies to Work For in Oregon,” two years running.

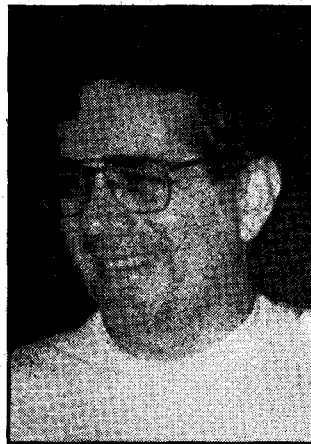

**Mark Boyd** will not just talk, he will:

- bring proven leadership and fiscal responsibility to the School Board.
- work with parents, teachers, and administrators to find new and creative ways to solve the budget challenges presented by measure 47.
- be accessible and listen to parents concerns. Moreover, he is inquisitive and can be counted on to fully explore complex and difficult issues.
- bring to the School Board an in-depth understanding of technology. This is an extremely important issue for the future of our kids.

**DAVE  
PRIDEAUX**

**OCCUPATION:** Customer Service Representative, City of Portland (total City, 16 years; Water Bureau, 12 years).

**OCCUPATIONAL BACKGROUND:** Teacher; Railroad signalman assistant, Union Pacific Railroad; Health care worker, hospital.

**EDUCATIONAL BACKGROUND:** Master's degree, University of Oregon (Eugene), political science; Bachelor's degree, Oberlin College, Ohio; Graduate, Stayton (Oregon) High School, student body president.

**PRIOR GOVERNMENTAL EXPERIENCE:** Oregon City Schools, Budget Committee, 1997, appointment 1/13/97; Oregon City Schools, Facilities Task Force, 1996; Oregon City Schools, Boundary Task Force, active participant, 1995; Elected precinct committeeman, ten years.

**CANDIDATE'S STATEMENT:**

I propose a new District / citizen “partnership.” The District should listen, and trust the voters; citizens and parents must help the schools. I want us to work together in common sense ways. Tough budget cuts have sliced school programs. But we survived. We have civic pride and good schools. But we must move forward. We need both old AND new ideas.

**ABOUT THE CANDIDATE:**

Dave is Fair.

When tough decisions have to be made, Dave listens to all sides. He values open, honest discussion. He stands for a moderate agenda, not extreme views.

Dave is Knowledgeable.

Dave knows our schools and concerns. His family moved to Oregon City in 1983. Recently, Dave spent many, many hours in Facilities Task Force meetings. Dave has, himself, taught.

Dave is a Watchdog.

Financial experts say “if school leaders want money to make a difference, they need to look closer at how they spend it.” (1/5/97 *Oregonian*) Dave promises to look at every budget item to see if it meets public expectations.

Dave is Friendly.

He's easy to get along with, and approachable.

Dave has Roots.

He is a third generation native Oregonian. His father and grandfather both worked in Oregon City.

Dave's children Holly and Jane attend OCHS and McLoughlin Elementary. Dave's wife, Alice is a teaching assistant (Clackamas Community College). Their home is in Canemah, one of Oregon City's historic neighborhoods.

**EDUCATIONAL BACKGROUND:** Western Evangelical Seminary, Master of Divinity, 1990; George Fox College, Bachelor of Science, Math Ed., 1975; Oregon State University, 1971-1972; Oregon City High School Class of 1971.

**PRIOR GOVERNMENTAL EXPERIENCE:** Adolescent Health Center Advisory Board; 1988-Present; Oregon City School District Board of Directors; May 1993-present.

The Oregon City area is growing! For each resident it means that our communities are changing around us. For some it is welcome change, for others it is resisted. Whatever our response, growth forces evaluation of all components of our community, including our schools.

During this time of growth I want to help make good decisions for today and the future. Right now the District is considering how to prepare for the students that will enter our District through this growth. Many of our buildings are crowded now so a timely response is critical. Education of young people impacts all residents regardless of age or life circumstances. I want to help our community work together to provide a safe and quality educational environment for students today and tomorrow.

Technological changes are upon us and more are coming. Already the world is being opened up to students and staff through technology. We need to prepare our students to face this "world at their fingertips" for educational growth and preparation for the workplace. O.C. students need the necessary computer hardware in order to compete successfully in a world dependent upon technology. With the learning tools I want to help in developing the ethical underpinnings that will guide our students to use technology in good and healthy ways.

Thank you for the privilege to serve you. I encourage you to become a part of the answer - get involved in your local school.

**OCCUPATION:** Garvey, Schubert & Barer - Attorney.

**OCCUPATIONAL BACKGROUND:** Deloitte & Touche, LLP - Tax Accountant.

**EDUCATIONAL BACKGROUND:** B.A., Political Science, University of Oregon, 1985; Willamette University College of Law, 1986; J.D., Northwestern School of Law, Lewis & Clark College, 1990.

**PRIOR GOVERNMENTAL EXPERIENCE:** None.

Portland Community College plays an essential role in our community: it offers technical education and training, provides transfer education to students who may need to stay home for the first two years of a four-year college education, makes available vital developmental education including GED certificates and basic job skills training and provides a meeting place for everything from town hall meetings to volleyball tournaments. Its campuses serve a geographically and economically diverse population base and there are few in the Portland metropolitan area who are not effected by its presence.

I have a long-standing interest in education and believe that quality education must be available to all of a community's members. I have a number of skills which would allow me to work with the Board of Directors and administration to ensure that PCC continues its role in the community. I have served on the board of directors of a community development corporation and have worked extensively with developers of safe, decent, affordable housing. I also have experience in teaching students seeking professional credentials. Finally, as an attorney and accountant, I understand the urgency of directly addressing the challenge of maintaining affordable and accessible community education with a growing enrollment and shrinking fiscal resources.

Portland Community College was formed by the residents of the community through the initiative process. As a community based organization, it is crucial that PCC's locally-elected board keep in touch with the needs of the people they serve and to assure development of programs to meet those needs. I would look forward to maintaining this role.

The Sandy Union High School District has come a long way in its unification process but not without a lot of controversy. Change is always stressful and often difficult but can be a positive move for educational excellence. The Board must face not only the issues specific to the unification process but must also deal with the uncertain financial position mandated by Measure 47.

The Board must set as a primary goal to sustain a system which promotes quality education for all students within the District. The Board must also find ways to maintain quality teachers, employees and facilities. This will not be an easy task, but I welcome the challenge.

**EDUCATIONAL BACKGROUND:** Brigham Young University – BS – Business Management.

**PRIOR GOVERNMENTAL EXPERIENCE:** U.S. Army – paid; Sandy Elementary School Board – 8 years – unpaid; Sandy Elementary School Budget Committee – 4 years – unpaid.

I have lived in the Sandy area for 18 years and for the last 8 years I have served on the Sandy Elementary School Board. My wife and I have had four of our five children complete their K-12 education in the Sandy School system. Our fifth child is now attending Sandy Union High School.

As a result of the lack of state support for our schools, we have seen a continuing decline in educational programs to the point that we can say that the education of our last child is well below the standard that our other children enjoyed. Advanced classes are no longer offered, class size is up significantly and support services are lacking.

I am running for the Board as a result of a continued commitment to our schools and their mission. If we are ever to restore our educational system to a level to meet the needs of the 21st Century, our effort must start now.

As a Sandy Union High School Board member, I will listen, gather the facts, and keep the best interest of our children's education as my first priority.

**JANIS M.  
SCRIBNER**

**OCCUPATION:** Homemaker; Volunteer School Aid and Instructional Leader (unpaid) – Sandy Elementary School District.

**OCCUPATIONAL BACKGROUND:** Medical Secretary.

**EDUCATIONAL BACKGROUND:** Portland State University; Mt. Hood Community College; Centennial High School.

**PRIOR GOVERNMENTAL EXPERIENCE:** Boundary Steering Committee-Sandy Elementary District 1991-1994; District Wide Assessment Study Group-Sandy Elementary District 1992-1993; Policy & Governance, Curriculum, and Support Services Task Forces-Oregon Trail School District 1992-1995; Budget Committee-Sandy Elementary District 1992-1994; Board of Directors-Sandy Elementary District 1994-Present (Vice Chairman 1994-Present); Boring Middle School Site Council 1996-Present; Budget Committee-Sandy Union High School 1996-Present.

As a parent, I am dedicated to our public education system. Implementing the 21st Century Schools improvement plan and operating within current state school funding constraints are changing the composition of public schools. This is a crucial time for wise decision making for the future success of our district.

With state mandated merger approaching, we must insure a smooth transition for our students into the Oregon Trail School District. Regular attendance at steering committee and task force meetings has given me the background and insight as to the direction of our new district.

Leading student enrichment programs, fund raising, and volunteering throughout our district have provided the opportunity for me to be involved in the daily operation of our schools. I see firsthand the accomplishments and needs of our district by being in our buildings every day. I know of the constantly increasing demands on our staff, teachers, classified staff, and administration, while experiencing reductions in personnel.

As a member of Sandy Elementary District Board of Directors and by serving on advisory and budget committees throughout our merging districts, I understand current board policies, district procedures, and fiscal management. My election to the Sandy Union High School Board of Directors will enable me to continue my commitment to provide the best public educational opportunity for all our community's students, as we merge into the Oregon Trail School District.

Thank you for your support.

**OCCUPATION:** Portland Freightliner, Inc., Sales Representative 1984 to present.

**OCCUPATIONAL BACKGROUND:** Blaine Calhoun C.L.U. and Associates; Orepac Building Products, Inc.

**EDUCATIONAL BACKGROUND:** Churchill High School; Wilson High School; Mount Hood Community College; Oregon State University; Bachelor of Science degree in Business.

**PRIOR GOVERNMENTAL EXPERIENCE:** 1996/1997 Sherwood School District 88J Budget Committee member; 1996/1997 Tigard-Sherwood Basketball Association Vice-President; 1994/1996 Sherwood Youth Association Basketball Director.

My wife Pat and I, and our four children, Stephanie 13, David 11, Tyson 9, and Danielle 5, moved to Sherwood nearly four years ago. I became involved with our children coaching baseball, soccer, and basketball. I am currently the vice-president of the Tigard-Sherwood Basketball Association and am serving on the district's Budget Committee. What was evident four years ago and still is today is a strong sense of community.

I believe it is extremely important for a school board member to have children attending schools within the district. Staying in touch with our district patrons and students is vital in today's changing environment.

The foundational building blocks for the success of our district's students are based on a balance between family, school and community. Parents have the responsibility to instill values, responsibility, and accountability in their children. The schools and community should work in partnership with our district's families to reinforce high standards and develop our children into productive, well-educated young adults.

The areas I feel we need to focus on as a district include:

- 1) Accountability of administration and staff for the increase of academic proficiency of students in all areas.
- 2) Ensure that budgeted district dollars are spent in the most efficient manner to achieve academic and social excellence.
- 3) Evaluating and taking action to keep student to teacher ratios low.

I look forward to meeting the challenges we will face as a district, and the opportunity to partner with our community as a member of the Sherwood School Board.

**EDUCATIONAL BACKGROUND:** Bachelor of Science - Oregon State University in Exercise and Sports Science.

**PRIOR GOVERNMENTAL EXPERIENCE:** Chairman - Budget Committee, Sherwood School District, 1995-96; Budget Committee, Sherwood School District, 1996-97.

I have a passion for excellence in education.

I believe in our public education system and want to provide direction in its continual improvement. While my daughter attends Archer Glen Elementary school my enthusiasm extends to all the schools within our district. All children deserve the very best education.

The education of our children is an extremely important responsibility. A higher level of educational excellence can only be achieved through the combined efforts of the community and the school district personnel. The school board, has the unique opportunity to provide leadership and guidance for this purpose. They have the opportunity to make the best business decisions for the school district that will allow our children to gain the most education for the dollars we have to spend. I also believe the school board is an avenue for the views of the community to be heard.

I want to support the high quality educational standards for which this district stands. Our children deserve the best teachers and small class sizes. They deserve a positive school climate that will enhance their learning environment.

Our children deserve an excellent education. I am dedicated to that end.

**EDUCATIONAL BACKGROUND:** Graduated Clackamas High; attended Portland State; graduated Computer Career Institute.

**PRIOR GOVERNMENTAL EXPERIENCE:** President Sherwood Computer Education Advocates (S.C.E.A. charter member); Sherwood School District Budget Committee.

### **Gary Johansen - A Change We Can Afford**

Our schools face greater challenges than ever before. We must provide a BETTER education while meeting increased mandates, declining resources: In order to meet these challenges, changes must be considered in how to optimize the resources available to us. They are:

- **Technology** currently available can be used to provide a greater depth to our educational programs and a wider range of opportunities necessary for our students to remain competitive academically. By utilizing computers, the internet and other technology we can deliver these services more cost effectively while allowing more of our teachers' valuable time and expertise to enhance our students' educational experiences. My extensive technological background will assist the district in obtaining top value for your tax dollar.
- **Teachers and staff** are the greatest resources available to our school district. We must create a climate where they are actively encouraged and involved in making meaningful changes and decisions. Their insight into creatively coping with the demands we face and improving the effectiveness of our schools is a resource we can't afford to ignore.
- **Public participation** and increased access to the process of operating our school district are critical. A spirit of cooperation, openness and shared leadership is needed to continue the commitment to the improvement of our schools.

**OCCUPATION:** Attorney in private practice.

**OCCUPATIONAL BACKGROUND:** Hearing Officer; Adjunct Professor, Portland State University; Labor relations manager. Volunteer activities: Citizens for Oregon School (past president); West Linn-Wilsonville Coalition for Excellent Schools; Serango Heights Neighborhood Association (past president).

**EDUCATIONAL BACKGROUND:** University of Illinois (Jurisdoctor, Masters in Labor Relations, Bachelors in Economics).

**PRIOR GOVERNMENTAL EXPERIENCE:** West Linn-Wilsonville School District: Board member (since July 1996); Budget committee; Budget reduction advisory committee. City of West Linn: City manager interviewing committee. Hearing officer for Oregon Employment Relations Board, Oregon State Mortuary and Cemetery Board, Multnomah County Merit Systems Council, Oregon Energy Facility Siting Council.

As a school board member, my goals are -

- to promote high quality education in our district,
- to make our district responsive to the needs and concerns of the entire community,
- to ensure effective use of our taxes, and
- to advocate for school funding.

I can achieve these goals, using my professional experience in public law and my practical experience advocating for schools with statewide and local citizens' organizations.

**Quality of Education**

I will work to maintain our schools' excellence and look for areas where improvements can be made.

**Communications and Responsiveness**

I will work to facilitate communications with administrators and teachers and to make the district responsive to the needs of the entire community. I recognize that our community includes not only schoolchildren, parents, teachers and administrators, but also taxpayers without school-aged children, home schoolers, and parents of children in private schools.

**Wise Use of Funds**

As a steward of your taxes, I will ensure that they are spent wisely and effectively. Careful stewardship of tax money becomes increasingly critical as our resources fail to keep pace with growth in our student body.

**Advocacy**

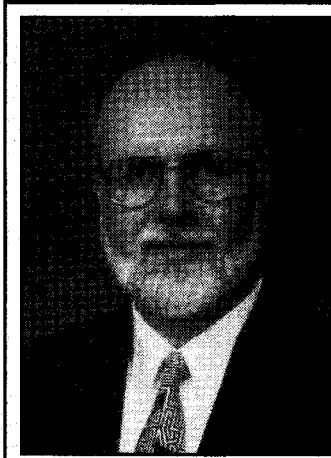

Schools are now controlled more than ever by the State. As a result, I will continue to be an active advocate for public schools and work to promote adequate funding of public schools with Legislators and citizens, regardless of political affiliation.

**PRIOR GOVERNMENTAL EXPERIENCE:** West Linn/Wilsonville School Board Member 1994 to present; Current Board Chairman.

I am offering my continued service on the West Linn/Wilsonville School Board for another term because I believe:

- that giving back to the community that has been so good to my family is the right thing to do,
- that the investment of our time and resources in young people pays highest dividends,
- that sound decision-making on our school boards is imperative during these times of challenge in public education, and
- that I have the leadership and decision-making skills to continue making a contribution to our district and community.

I will work to continue our school board emphasis:

- on promoting high academic achievement for all students,
- on developing students with strong character,
- on increased district communication with all constituents,
- on achieving optimum use of our limited financial resources to deliver quality services and facilities,
- on finding stable, state-wide, long-term education funding, and
- on maintaining a high level of integrity on our school board.

Thank you for your continued willingness to work together to give our children the very best education opportunity possible. And, thank you for your confidence in letting me serve.

Respectfully,

Gary Mittelstaedt

**PRIOR GOVERNMENTAL EXPERIENCE:** Troutdale Planning Commission, 1½ terms; West Linn Planning Commission, 1½ terms.

During the past year, concerned parents have spoken to me regarding the departure from the teaching of "basic skills" in the West Linn/Wilsonville School District. The common thread through all these conversations is that every one of their children's standardized test scores had declined significantly and these parents voiced a real concern about the long term effects on their children's future.

Having a child at each level in elementary, middle school and high school, I have seen a myriad of changes across the K through 12 grade range. While change can be good, the dramatic shifts in curricula, teaching techniques, and scheduling that is occurring in our schools is alarming. These changes are resulting in less than satisfactory student achievement in many academic areas. A team of parents and myself held meetings over the summer and fall with the District Administration and School Board to work toward solutions to these problems.

The passage of ballot measure 47 and the subsequent decrease in state funding of our schools makes it imperative that our schools become efficient in academic instruction. Many of the needs voiced by parents would make our public schools more effective. These include the need for:

Basic skills at all levels including phonics, spelling, grammar and math computation.

Curriculum continuity across the district.

More emphasis on direct instruction.

A class schedule that gives the student more instructional time.

Improved communication between the school district and the community.

We must ensure our children receive the key skills they need to be successful in school and the workplace. The responsibility of our children's future belongs to all of us.

<p style="text-align: center;"><i><b>These candidates did not purchase space for a picture and statement.</b></i></p>	<p>Dear Hoodland Community,</p> <p>I am a Captain/Paramedic and Hazardous Materials Technician for Salem Fire Department. I was a volunteer with Hoodland for most of the time between 1986 and 1993 when I was elected to the Board. I have been serving on the Hoodland Fire District Board of Directors for the past 4 years and serving as the Chairperson for the past 2 years. In that time we have made tremendous strides in improving the communities fire and emergency medical protection. A few additional personnel has increased assured paramedic coverage to 12 hours every day. This has helped to fill in the time that volunteers are going to and returning from work and are therefore not available to the community. Our training incentive program has helped train volunteers to be paramedics for our community. Programs and reserve funds have been initiated to ensure the continued viability of the department to continue to provide quality service. I believe many people did not really appreciate the effects measure 47 would have on you local services, but Hoodland RFD faces some very trying times ahead. I feel I must tell you all that due to some personal matters I have had to move out of the community (I live in Keizer at the moment). I don't know when I will be able to return. I still own property however and am eligible to serve on the Board. I still have strong ties to our community and plan to return. I would like the opportunity to continue to serve the community by helping to ensure the quality of its fire and emergency medical protection through the difficult times ahead. Your support is greatly appreciated.</p> <p style="text-align: right;">Sincerely, Steven Berkson</p> <p style="text-align: center;"><i>(This information furnished by Steven Berkson)</i></p>

**EDUCATIONAL BACKGROUND:** Sam Barlow H.S., Graduated 1976; Mt. Hood Comm. College – Associates Degree in Food Science – 1978.

**PRIOR GOVERNMENTAL EXPERIENCE:** None.

Fellow Hoodland Residents,

Hello, my name is Cliff Fortune and I would like to represent you on the Hoodland Fire Department Board of Directors.

As an eleven year resident of Welches, and a former Hoodland Volunteer Firefighter/EMT, I realize the importance of effective and well trained fire and rescue staff. The Hoodland area is fortunate to have such a dedicated team of individuals when emergencies arise. The Department needs firm support from knowledgeable board members who possess good communication skills and sound leadership qualities.

Our District will encounter many challenges in the near future. Population growth and changes in funding represent two of the many issues that the Board will be facing. I feel confident in my ability to help guide and resolve the many issues that the Hoodland Fire Department Board of Directors will encounter.

I enjoy being part of the mountain community and feel that my participation on the Board of Directors would allow me the opportunity to give something back to the residents of the area.

I look forward to this challenge and appreciate your support.

Sincerely,

Cliff Fortune

**PRIOR GOVERNMENTAL EXPERIENCE:** Director – Oak Lodge Fire District #51; Director – Oregon Fire District Directors Assn.; Member – Special Districts Assn. of Oregon.

I have been a board member for 12 years and would like to continue serving the Fire District in providing the highest level of Fire Suppression; Fire Prevention; and Emergency Medical Services at the lowest possible cost to the taxpayer.

The communities of Oak Grove and Jennings Lodge have experienced a tremendous amount of growth and the Fire District has strived to meet the needs of its citizens.

**OCCUPATION:** City of Gresham – Professional Firefighter.

**OCCUPATIONAL BACKGROUND:** City of LaGrande – Professional Firefighter; Happy Valley Fire District #65 – Student Firefighter; Carpenter.

**EDUCATIONAL BACKGROUND:** Graduated Franklin High School, 1979; Portland Community College; Mt. Hood Community College.

**PRIOR GOVERNMENTAL EXPERIENCE:** None.

The Citizens that are served by the Oak Lodge Fire Department enjoy cost efficient Fire and Emergency Medical Services.

As a result of measure 47 and other legislative actions, the future of our Fire District may be dramatically impacted. Because of mandated budgetary reductions, our Fire District may be forced to look at joint operations with surrounding departments. At some point in time, cost driven needs may eventually lead to a full regionalism of fire services in Clackamas County.

My goal will be to insure that we continue to receive the outstanding Fire and Paramedic services for the citizens of Oak Lodge at a reasonable cost.

My years of experience in the fire service with other fire departments that have faced similar situations is an asset I will bring if elected to this board.

**PRIOR GOVERNMENTAL EXPERIENCE:** 15 years as a Volunteer Fire Fighter Sandy Dist. 72; Past president of the Volunteers, and Past Fire Fighter of the Year; now life member.

It is time for a change in the Board of Directors of the Sandy Fire District. There will be a new fire chief coming in June. There is uncertainty of what Measure 47 holds in store. There is low morale in the department. There is a Board that will not take heed of its own paid survey. It is, therefore, time to have someone who will listen to both sides of issues and vote in a manner that will benefit the tax payers of Sandy Fire District 72.

I have the endorsement of most of the volunteer firefighters and paid staff. I have worked closely with all of them and have listened to their concerns. With a change in the makeup of the Board of Directors, the Sandy Fire District can become one of the best rural fire districts in America once again.

I am seeking this position for a variety of reasons. As a life long resident I know the area served by Tualatin Valley Fire & Rescue. As a Professional Firefighter and former small business owner, I have the luxury of knowing both the Fire Service and Business. This is an asset that would allow me to effectively serve on the Board of Tualatin Valley Fire & Rescue.

I would work diligently to ensure that Tualatin Valley Fire & Rescue:

- Operates In A Financially Prudent And Responsible Manner
- District Taxpayers Get The Most For Their Tax Dollars
- Looks To Alternatives To Traditional Fire Service Approaches
- Updates the Master Plan to ensure that we are continuing to meet the communities needs
- Regionalizes Services To Provide Cost Effective Operations
- Provides Citizens With Safety Education And Emergency Medical Training
- Looks At The Future With An Eye To Reducing the demands on our Ratepayers
- Utilizes Volunteer Citizen Disaster Teams For Emergencies Created by Manmade and Natural Disasters, such as Floods, Windstorms, and Earthquake.
- Assists The Fire Service To Be More User Friendly
- Continues To Provide Efficient And Effective Emergency Services

The knowledge, skills and abilities I bring to the position are vital, if we are to successfully meet the future challenges of doing more with less.

I look forward to these challenges and will appreciate the opportunity to serve you.

- District resident 23 years
- Married to Mary Ann 35 years

There are many challenges facing the District today.

In the southern portion of the District existing system replacement needs, costs and poor financial planning of 20 years ago, continue to drive up rates in this area.

There are no easy answers and the South-area of the District must dig itself out this hole. We have been successfully playing catch up since the late 1980's, this has been demonstrated by no water shortages or major water related problems. Remember there is high expense necessary to serve rural area compared to urban area.

Clackamas River Water District is financially strong and well managed today. However we must have citizen involvement in our financial and water system planning and decision making process. Rate stability and related issues will be high priority.

Clackamas River Water District is non-profit, it is owned by the people of the District.

As in my past service to the people of the District it is my continued commitment to work for more efficiencies within management and operations so that the District can be the most responsible water provider for the greater Clackamas and Oregon City area. I will take a bold decisive leadership and a bottom-line perspective. I will work closely for watershed protection and management to assure good raw water quality. I will seek consensus to resolve issues. I will keep updated on Federal and Sate Water Regulations and environmental hazards that could affect the quality of our water.

If you have any questions please call me at 655-5067.

## Position 2

**ED  
GRONKE**

**OCCUPATION:** Recently retired – working occasionally as independent business consultant.

**OCCUPATIONAL BACKGROUND:** 37 years in various management and executive positions with small businesses, national and international corporations; Veteran, U.S. Army.

**EDUCATIONAL BACKGROUND:** B.A. Liberal Arts, University of Chicago.

**PRIOR GOVERNMENTAL EXPERIENCE:** Councilor, District 5, Metro – April, 1992-January, 1993 (appointed); Clackamas County Jobs Plus Implementation Council – 2/94-present (appointed); Clackamas County Business Round Table – 6/94-present (appointed); In Lisle, Illinois: Mayor (elected); Councilman (elected); President, Police Pension Fund (appointed); Chairman, Human Relations Commission (appointed); Planning Commissioner (appointed); Zoning Commissioner (appointed).

### **Integrity – Devotion**

I thank our Board for their years of working together to assure the levels of service which I have appreciated since 1977 (when we moved here).

### **Is that enough?**

In 1988 the voters of Oak Lodge Water District passed a bond measure to build a water treatment plant on the Clackamas River. Since 1988, we have been struggling to get the project off the ground. Now, finally in 1997, construction is beginning. In the meantime, Clackamas River Water District (our source of water) has been offering to sell us water for less than it will cost us to build and operate our own plant.

### **The problem...**

Because of inflation and interest payments on the debt, the funds from the 1988 bond issue have been eroded to where the project is unlikely to proceed without additional funding from somewhere (most likely, us!).

### **The question...**

Now, in 1997, the question is – “With increasing competition to furnish Oak Lodge with reliable, low-cost, high-quality water, is it logical to continue with the treatment plant project? How much in higher water rates is our own plant worth to us?” These and other questions need to be asked now.

### **Do we need a fresh outlook?**

Let's start asking some questions and be sure the answers lead to the best deal for the customers (that's us).

**Ed Gronke** – pledges to work with the Board and raise the questions we all want answered.

**PRIOR GOVERNMENTAL EXPERIENCE:** 1 term Commissioner Rivergrove Water District, Elect – unpaid; Natural Resources Advisory Board; City of Lake Oswego, app – unpaid; Committee for Citizen Involvement, Clackamas County, app – unpaid.

Safe drinking water is one of the most basic needs of any community. My goal for the past four years has been to provide patrons of the Rivergrove Water District with safe drinking water at a reasonable cost.

That goal has been met by careful attention to rigorous state and federal drinking water standards, and by close attention to financial budgets. Rivergrove Water District provides patrons with drinking water that exceeds purity standards set by state and federal regulators. I am working with the District to develop standards that protect your water supply from contamination and loss of quality. This will insure that in coming years you and your families can have the same pure water you now drink.

Rivergrove Water District has limited financial resources, so it is important that we continue to exercise restraint in spending and use your money wisely. I have served as Vice-Chair of the Budget Committee for the past three years. We have established and met budget goals all three years. The District is in good financial condition.

I want the opportunity to continue meeting the needs and goals of the Rivergrove Water District and ask for your vote this election.
