FAQs

What is a middle housing land division?

A middle housing land division is a partition or subdivision of a lot of record that is developed, or proposed to be developed, with more than one middle housing dwelling unit and that results in each dwelling unit being on a separate lot of record (a “middle housing lot”). Qualifying middle housing includes duplexes, triplexes, quadplexes, townhouses, and cottage clusters that comply with the standards applicable to middle housing on or after July 1, 2022, and are located in: certain Urban low Density Residential zoning districts (R-5, R-7, R-8.5, R-10, R-15, R-20, or R-30 Districts); the Village Small Lot Residential (VR-4/5) District; or the Village Standard Lot Residential (VR-5/7) District. Middle housing does not include accessory dwelling units (ADUs).

Can a middle housing lot be further divided, or be developed with additional dwelling units?

No. Lots or parcels created through a middle housing land division cannot be further divided, and can have a maximum of one dwelling unit.

What is the permit application process?

Middle housing land division permits are subject to a “Type II-E” land use application process, as provided for in [Section 1307](#) of the ZDO. Type II-E decisions include notice to owners of nearby land, the Community Planning Organization (if active), service providers (sewer, water, fire, etc.), and affected government agencies. If the application is approved, the applicant must comply with any conditions of approval identified in the decision. The Planning Director’s decision can be appealed to the County Land Use Hearings Officer pursuant to ORS 197.375.

What is needed for the County to approve a land use permit?

Middle housing land divisions *may* be permitted after an evaluation by the County of applicable standards of the ZDO. The applicant is responsible for providing evidence that their proposal does or can meet those standards. In order to address the standards, the information requested in this application should be as thorough and complete as possible. A permit will only be approved or denied after a complete application is received and reviewed. The County approves an application only if it finds that the proposal meets the standards or can meet the standards with conditions.

How long will it take the County to make a decision about an application?

In most cases, state law requires that the County issue a decision on the application within 63 days of receiving a completed application.

If an application is submitted and then withdrawn, will a refund be given?

If a submitted Type II-E application is withdrawn before it is publicly noticed, 75% of the application fee paid will be refunded. If a submitted application is withdrawn after it is publicly noticed, but before a decision is issued, 50% of the application fee paid will be refunded. No refund will be given after a decision is issued.
