### WHAT ACTION ARE YOU REQUESTING FROM THE BOARD?

Should staff bring an Intergovernmental Agreement (IGA) to a Business Meeting for Board approval to transfer the jurisdiction of a portion of Borland Road to the City of Tualatin?

### EXECUTIVE SUMMARY:

County Staff have been negotiating with the City of Tualatin staff to transfer an approximately 3/4 mile long section of Borland Road that lies within the boundary of the City of Tualatin. This section of Borland Road is of an urban nature, with travel lanes, bike lanes, and sidewalks with non-compliant ADA Ramps. Transferring jurisdiction of this portion of Borland road would eliminate confusion to the public and improve the efficiencies of maintenance and public service. This proposed IGA would formalize an agreement to transfer jurisdiction in return for a payment of \$366,500, which is equal to the cost of a 2" asphalt overlay, in addition to rebuilding or installing nineteen (19) curb ramps to meet ADA requirements, and upgrades to an ADA signal at SW 56<sup>th</sup> Avenue. Payment of these funds would be contingent upon the City and County finalizing the jurisdictional transfer process. Once jurisdiction is transferred, the City becomes the "Road Authority" responsible for all maintenance, permitting and road standard activities.

### FINANCIAL IMPLICATIONS (current year and ongoing):

Is this item in your current budget?  YES  NO

What is the cost? \$366,500 (one time)      What is the funding source? Road Fund

### STRATEGIC PLAN ALIGNMENT:

- This item aligns with The DTD Strategic Business Plan to provide survey, design, right of way, construction and project management services to the public so they can safely and efficiently connect with goods, services, employment and people.
- This item aligns with the County's performance goals to Build Public Trust through Good Government and in building a strong infrastructure.
