BACKGROUND:

Each fiscal year it is necessary to reduce or allocate additional sources of revenue and appropriate additional expenditures to more accurately meet the changing requirements of Water Environment Services ("WES"). The attached resolution reflects such changes requested by WES in keeping with a legally accurate budget. These changes are in compliance with Oregon Local Budget Law ORS 294.338, ORS 294.433 - ORS 294.481, and ORS 294.900 - ORS 294.930, which allows for governing body approval of budget changes under qualified circumstances. The required notice was published in the Oregonian on June 11, 2021.

On February 24, 2021, WES issued Series 2021 Sewer Revenue Obligations in the amount of \$40,000,000 with a true interest cost of 0.84%. The timing of this issuance enabled WES to take advantage of historically low interest rates and avoid an estimated \$8 million in interest expenses previously included in the long-term financial plan. The total proceeds received were \$48,687,948, including a premium of \$8,801,286 ("Premium") and after deductions of a portion of the issuance costs.

The first debt service payment of \$434,884 for the obligations was due June 1, 2021 and the Premium needs to be transferred to the debt service fund where it will act as a reserve to pay future debt service on the obligations in order to realize the true effective interest rate.

As the issuance was not contemplated in the original budget for FY 2020-21, neither the debt service payment nor the transfer of the reserve for future debt service were appropriated. While under ORS 294.338, Oregon Budget Law provides an exclusion for revenue bonds sold in the current year, it is best practice to request supplemental budget approval.

The effect of this resolution is an increase in revenues of \$48,687,948 and an increase in appropriations of \$9,236,170.
