- **Proactively alerts** members of savings opportunities
- **Concierge service** makes it easy for members to switch to a more affordable prescription
- Optional program addition – shared savings fee of 25%

Introducing Rx Savings Solutions

A New Program That Helps Lower Pharmacy Costs for Members

Built on top of member prescription benefit and claims data, Rx Savings Solutions analyzes claims to find all possible clinical alternatives and costs, and proactively alerts members of savings opportunities via text, email, or direct mail.

Rx Savings Solutions Features & Benefits

A digital platform with a concierge service model that delivers personalized savings, price transparency, and supports the overall member experience.

Feature	Benefits
Proactive Member Savings Notifications	Members are notified when and how to pay less for prescription drugs
Drug Pricing Search Tool	Members can proactively search for prices (optional discount card integration), find drug and pharmacy alternatives, and see any coverage edits (PA, QL, etc.)
Medicine Cabinet	All prescriptions in one visual display – view medication purchase history, print information for provider appointments, and easily switch to home delivery/mail order
Adherence Reminders	Medication history and gaps in fills at a glance; members can also set reminders to take their medications
Concierge Support	Members directly connected to live pharmacists and pharmacy technicians for guidance on alternative therapies and prescription change requests – not a recording

- Promote this tool internally

Email sends to any member who has a savings opportunity and a valid email address on file as soon as we process a new claim. Multiple alerts roll into one notification. Members can receive no more than 4 of these per 30 days.

SMS sends to any member who has opted in

Letter sends to any member who has a savings opportunity higher than \$40 and does not have a valid email address on file. Member cannot receive more than one of these per 90 days.
