

BUILD A BETTER COMMUNITY TOGETHER

Connect with your community planning organization!

Have a voice in shaping where you live!
Participate in your community planning organization –
it's a great way to be involved in what happens in your community.

BUILD A BETTER COMMUNITY TOGETHER

Connect with your community planning organization!

Have a voice in shaping where you live!
Participate in your community planning organization –
it's a great way to be involved in what happens in your community.

Community planning organizations work to build better communities – together.

Our community planning organization is a great way to have a voice in strengthening the livability of our community.

It's a great way to:

- Meet people in your community while discussing growth and development matters, as well as land-use projects proposed in our area.
- Participating in a community planning organization is an easy, no-pressure way to have a voice and connection with your county government.

Everyone who lives in the area is welcome to participate!
