MEMORANDUM

TO: Clackamas County Board of County Commissioners (BCC)
FROM: Vahid Brown, Deputy Director, Housing & Community Development Division
RE: 2023 Point-in-Time Count
DATE: May 2, 2023

REQUEST: The Housing & Community Development Division of Health, Housing & Human Services is seeking to provide the Board with an update on the 2023 Point-in-Time Count of people experiencing homelessness in Clackamas County. This is an informational update only.

BACKGROUND: The Point-in-Time (PIT) Count is a count of sheltered and unsheltered people experiencing homelessness on a single night. (Sheltered means staying in a safety off the streets program and unsheltered means living in a place not meant for human habitation.) The U.S. Department of Housing & Urban Development (HUD) requires that Continuums of Care (CoC) plan, coordinate, and carry out these counts no less than bi-annually and report on the data and findings. As the local Continuum of Care Lead Agency, Clackamas County's count is carried out by the Housing & Community Development Division. In addition to providing valuable information about the prevalence of homelessness in our community (in-flow vs. out-flow), HUD uses the PIT Count to measure the performance of the CoC's efforts to respond to homelessness.

Beginning in 2022, Clackamas County has joined Multnomah and Washington Counties in conducting annual, coordinated, regional PIT Counts. For this year's Count, carried out in January, the three counties contracted with Portland State University and Focus Strategies to support the regional count and conduct data analyses of regional data. Performing a regional count presents a number of system improvement opportunities, including furthering regionalization efforts consistent with the implantation of the Supportive Housing Services Measure and improving the consistency and quality of the data collected across the three counties. A regional report on the outcomes of the 2023 PIT Count will be provided in coming weeks, and a local Clackamas County PIT report will be produced by staff by June.

This update is to provide the Board with high level outcomes of this year's PIT Count and its relation to the previous regional count conducted in January 2022. Raw data was finalized last week for submission to HUD by Friday, April 28th (see Attachment 2 for the 2023 HUD submission).

The 2023 PIT Count does show significant reductions in the numbers of people experiencing homelessness counted this year over last year, in both the unsheltered and sheltered populations. The 2022 PIT Count identified 597 people experiencing homelessness, 327 unsheltered and 270 sheltered individuals (see Attachment 1 for the 2022 HUD submission). The 2023 PIT Count found 410 people experiencing homelessness in Clackamas County, a decrease of 31.3% from last year. This includes 178 counted as unsheltered, a decrease of 45.3%, and 232 counted as sheltered, a decrease of 14%.

This year's data, as with every Point-in-Time Count, should be considered an undercount of people experiencing homelessness. Because of Federal rules, the Count does not include thousands of people who did not have a home of their own on the night of January 25th, but were "doubled up," staying with friends or family. Culturally specific providers tell us that people of color are more likely to experience homelessness this way, and are underrepresented in the Count as a result. It's also not possible to definitively find, survey, and count every person experiencing homelessness during one week in January. However, the PIT Count assists the county in identifying trends, and, for the second count in a row, Clackamas County saw significant reductions in the numbers of people counted. This is indicative of the success of the county's efforts to respond to the housing crisis in our community, to implement new programs and services with Supportive Housing Services Measure funding, and in furtherance of Clackamas County's goal to make homelessness rare, brief, and non-recurring.

Respectfully Submitted,

Vahid Brown, Deputy Director, Housing & Community Development

Methodology for OR-507 - Clackamas County CoC

Sheltered Population Total

1. What data source(s) was used to produce the total number of people included in the sheltered population (staying in an emergency shelter, Safe Haven, or transitional housing) on the night of the count? Please indicate the percentage of the PIT count derived from each of the sources. (If a source was not used, please enter zero).

HMIS Data	**100%**
Provider-level surveys	**0%**
Client-level surveys	**0%**
Observation	**0%**
Other	**0%**
Total	**100%**

2. Was the CoC able to collect information about the number of people being sheltered on the night of the count from all emergency shelters, Safe Havens, and transitional housing projects listed on the HIC or only some? listed on your HIC or only some?

- Complete census count

3. What information or method(s) was used to de-duplicate the count of the total number of people included in the sheltered population?

- Comparison of personally identifying information (PII), such as name, date of birth, and Social Security Number
- Comparison of unique client identifiers (not PII)

Sheltered Subpopulation

4. What data source(s) was used to produce the demographic and subpopulation data included in the sheltered population (staying in an emergency shelter, Safe Haven, or transitional housing) on the night of the count? (select all that were used)

- HMIS Data

5. Was the CoC able to collect information about the demographic and subpopulation characteristics of all sheltered people or only some?

Point In Time Methodology for OR-507 - Clackamas County CoC

    - All sheltered people

6. Looking at the change in your sheltered count from last year's count, please choose up to three reasons that best explains these changes from the drop down list below.

    - Change in emergency shelter capacity

    - Change in transitional housing capacity

Please provide a brief description of these specific factors (500 word limit):

The 2022 PIT Count shows an increase in adult-only emergency shelter. This increase is due to the way FEMA and ESG-CV funding was used to help protect our most vulnerable unhoused neighbors. FEMA guidelines and a local by-name list effort prioritized the most vulnerable and those with the longest homeless histories. Because our community has not had year-round shelter for adult-only households in the past, this additional shelter capacity was geared toward this group. While families with children were permitted in the program, most families with children self-selected family-focused shelter options. As a result, the prevalence of Chronic Homelessness among adult-only households in emergency shelter increased significantly. All households in non-congregate hotel/motel shelters have been prioritized for new, locally-funded PSH.

A new TH program for adult-only households was added to the HIC, using local funds.

Unsheltered Population

7. What approach(es) was used to count the total number of people included in the unsheltered population during the PIT count. (select all that were used)

8. What information or method(s) was used to de-duplicate the total count of people in the unsheltered population? (Check all that apply)

Unsheltered Subpopulations

9. What approach(es) was used to collect demographic and subpopulation data about unsheltered people included in the unsheltered population during the PIT count?

10. Were all people who were encountered during canvassing on the night of the count or during post night of the count PIT activities asked to complete a survey/interview?

    - All people encountered were surveyed

11. What information or method(s) was used to produce an unduplicated total count of homeless people across your sheltered and unsheltered populations?
