BACKGROUND:

The Housing Authority of Clackamas County (HACC), a division of the Health, Housing and Human Services Department (H3S) of Clackamas County, requests approval of contract #10825 with Clackamas Service Center to provide mobile and site-based outreach and engagement services for Clackamas County residents experiencing homelessness and the assignment of the contract to Clackamas County. The Supportive Housing Services (SHS) Program is focused on providing permanent supportive housing and other supportive services to vulnerable individuals in Clackamas County currently experiencing or at risk of experiencing homelessness, many of whom have a disability. Clackamas Service Center, Inc. (CSC) is a nonprofit agency located at 8800 SE 80th Ave in Clackamas County. CSC provides an array of services, including meals, groceries, access to hot showers, mail/clothing room, connections to health providers, referrals to benefits and resources, and serves as an entry point for Coordinated Housing Access (CHA). They partner with several local agencies for resource connection and service coordination to and help people experiencing homelessness and who are imminently at risk.

CSC will provide supportive services through site-based outreach and engagement to people entering the SE 80th Ave location and using their essential need services. Their direct outreach methods will incorporate the ongoing provision of necessary supplies and goods, flex fund use, reduction of housing barriers, partnering with housing providers, and operation of severe weather shelters in the event of heat, cold, or smoke.

This contract was procured by HACC managed by HACC staff. Following the procurement, Clackamas County elected to create a new housing division within its Department of Health, Housing, and Human Services, which will involve reorganizing how housing services are delivered. Upon creation of the new housing division, HACC intends to assign the approved contract to Clackamas County for management. As a result, the proposed agreement contains an Assignment Addendum to be executed by the Housing Authority Board and the Clackamas County Board of County Commissioners (BCC) that enables the assignment to occur once the new division is created.

RECOMMENDATION:

Staff respectfully recommends the Housing Authority Board of Clackamas County approve contract #10825 between Clackamas Service Center and HACC to provide mobile and site-based outreach and engagement services for Clackamas County residents experiencing homelessness and the assignment of the contract to Clackamas County. Staff also recommends the Board authorize Commissioner Tootie Smith, Chair, to sign the agreement on behalf of the Housing Authority Board.

Respectfully submitted,

Denise Swanson

Guiding Principles and Expectations

I. Equity:

Clackamas County's Housing Services Team (HST) promotes racial and ethnic justice and seeks to end disparities in housing access. Clackamas County recognizes that culturally responsive and culturally specific services can eliminate structural barriers and provide a sense of safety and belonging, which will lead to better outcomes. Clackamas County recognizes that advancing equity also includes having cultural competencies to provide services to other historically marginalized communities such as LGBTQ2SIA+, youth, people with disabilities, and immigrants and refugees. To further equity goals, Contractor must develop/implement the following:

- A plan to ensure culturally responsive service delivery that is respectful of all participants.
- A plan assuring access to services for people who do not speak the primary language of the service provider.
- A process to work with the HST to continuously monitor the demographics of those accessing services using the HMIS (or an HMIS comparable database for domestic violence service providers).
- A quality improvement plan, informed by quantitative and qualitative data analysis, to address evidence of differential access, based on race, ethnicity, disability, gender identity, sexual orientation or other protected class status.
- Ensure that staff and volunteers have knowledge and experience to participate in the effort to increase equity and decrease housing disparities.
- Ensure that staff and volunteers have access to equity and inclusion training on an on-going basis.

Outcomes:

The SHS program is intended to end chronic homelessness in Clackamas County. In addition, HST aims to make homelessness rare, brief, and not reoccurring for all who live in Clackamas County. Programs must work in coordination to ensure housing options are safe, stable, and provide housing choice to meet the needs of each individual. The work of ending racial disparities in housing and ending homelessness is one and the same.

In addition to ending homelessness, Metro-wide outcome goals of the SHS program include:

- Advance housing equity by providing access to services and housing to Black, Indigenous and people of color at higher rates than their representation among those experiencing homelessness.
- House individuals and families, and support housing retention, at greater rates than that newly experiencing homelessness, to reduce the overall population of people experiencing homelessness.
- Reduce the average length of time anyone in Clackamas County experiences homelessness until people are offered housing options immediately upon becoming homeless.
- Strengthen housing retention so that, once stably housed, returns to the experience of homelessness are extremely rare.
- Housing programs promote long-term stability, measured by successful program "graduation" to permanent housing and/or housing retention.
- Increase culturally specific organization capacity with increased investments and expanded organizational reach for culturally specific organizations and programs.
- SHS-funded organizations increase equity by hiring a staff that is diverse by race, ethnicity, languages spoken, sexual orientation, gender identity, disability status, age, and lived experience.
- Increase safety, stability and healing for everyone who has experienced homelessness using person-centered, trauma-informed service approaches and connections with mental and physical healthcare.
- Other measures, as determined by Metro, Tri-County data team, and/or Clackamas County Housing Services Team, will be added.

Coordination:

Partnership and coordination are key components to ending homelessness. A coordinated system makes finding resources easy for potential program participants and allows the entire system to work more smoothly. When done well, a holistic, coordinated approach improves outcomes system-wide.

The following are effective coordination principles and practices that must be followed. When followed, they ensure system-wide coordination:

- Coordinated Housing Access (CHA) must be utilized to effectively coordinate all housing services. It must be easily accessible and allow participants to complete a single assessment to access all services in the housing continuum.
- Demonstrated partnerships, at all levels of programming, between programs and organizations. Partnerships can be demonstrated through formal contracts, MOUs, system-wide planning participation, and providing infrastructure programming in a coordinated way (including outreach, immediate housing, housing navigation, CHA, and Housing First Aid/diversion).
- Build connections and coordinate with multiple systems of care (i.e., housing, workforce, education, foster care, DHS, domestic violence, community justice, health, mental health, and addictions) to build a community of resources, easily accessible to all.
- Strengthen system capacity by supporting CHA, Housing First Aid/diversion, outreach and navigation.
- Participate in coordinated system development and implementation, including identifying, addressing, and following-up on unmet needs, gaps in services, and system barriers.

Services:

All services focus on building relationships and service engagement through person-centered, culturally responsive, trauma-informed, strengths-based practices. Services should align with the Housing First model (see Addendum – Definitions). The purpose of these relationships is to support each household to achieve housing stability through individualized planning and connections with community resources.

To further these services goals, Contractor must follow the following proven practices:

- All services are low barrier, not requiring pre-requisites to become eligible for services or housing.
- Housing First Aid/Diversion is attempted at every program "door," including Street outreach, all immediate housing programs, and permanent housing programs, when appropriate.
- Households experiencing or at risk of homelessness must be able to move directly into supportive housing and/or permanent housing without first accessing immediate housing programs. Households must also be presented with available immediate housing options.
- Families will be provided with the option to sleep/stay together; Families will not be separated unless they choose to sleep/stay separately.
- Vulnerable populations are prioritized.
 - Vulnerable populations include those with long homeless histories, incomes below 30% AMI, and one or more disabilities.
 - Due to a long history of systemic racism, oppression, and everyday micro and macro-aggressions, Black, Indigenous, and People of Color are also more vulnerable to the experience of homelessness.
- Services are voluntary, non-intrusive, and provide minimal disruption to meet the expressed needs and desires of the participant.
- Services are highly flexible and tailored to meet the needs of each household.

Participant Voice:

Each individual is the expert in their own life. To build the best system, people with lived experience of homelessness must help to shape the services designed to end homelessness.

Contractor must incorporate the following guidelines into all programs:

- Participants lead development of their own individual service plans.
- Ensure that all services are voluntary and that no participant is required to participate in a particular activity in order to receive services.
- Integrate participant (or those who choose not to participate) in decision-making at every level, including program/service development, delivery, and evaluation.

- People with lived experience, who participate in decision-making and program development, are paid for their time.
- Have written procedures and policies, as well as an accessible and transparent grievance process, that ensure staff and volunteers provide respectful and effective services.
- Board of directors must include at least one person with lived experience of homelessness.

System-wide Service Delivery Expectations (in addition to any items above): Contractor shall perform the following:

- Participate in the HMIS or, for domestic violence service providers, an HMIS comparable database.
- Provide services free of charge to participants or utilizing a pre-approved sliding scale fee.
- Include sustainable, environmentally friendly practices in business operations and the delivery of services (for example, providing onsite recycling, and encouraging reduction of waste through electronic records whenever possible).
- Confidential information must be protected in compliance with applicable federal, state, and local privacy rules.
- Maintain an effective working relationship. HST will have formal relationships with service providers through contracts and will also expect contractors to maintain ongoing communication with the HST about programs and performance, and to engage in community planning and training opportunities.
- All services must be delivered in a wholly secular manner, and programs may not require participation in religious activities for program eligibility purposes.
- Have a written termination and/or exclusion policy that appropriately protects the interests of participants by: (1) applying a trauma and equity lens to evaluating rule violations; (2) avoiding termination whenever reasonably possible; (3) informing the participant in clear terms of the reason for their termination and/or exclusion from the program; and (4) outlines the process for grieving the decision. Except in the most extreme situations, termination and exclusion policies should allow for re-entry into the program under appropriate conditions.
- Ensure that staff and volunteers have access to continuing education opportunities.
- Attend training and community/system networking meetings as reasonably required by HST

Note on Area Median Income (AMI): The Department of Housing and Urban Development (HUD) sets AMI limits every year. This form needs to be updated on an annual basis to reflect these changes (usually the new income limits come out in April). HUD develops AMI based on Median Family Income estimates and Fair Market Rent Area Definitions for each metropolitan area. Clackamas County is part of the Portland-Vancouver-Hillsboro, OR-WA MSA metropolitan area. This includes Clackamas, Clark, Columbia, Multnomah, Skamania, Washington & Yamhill Counties.

EXHIBIT H: ON CALL/EMERGENCY SERVICES

In the event of an emergency, HACC may request, and Contractor may agree to perform, Emergency Work in addition to the Work described in the Contract. In past emergencies, such as ice storms, fire and smoke, Emergency Work consisted primarily of outreach and engagement, navigation/placement, and emergency housing/safety-off-the-streets staffing and services. Coordination is key during emergencies, and staff will need to participate in emergency-related coordination meetings.

Since the precise scope, extent, and duration of Emergency Work needed in an emergency are not predictable ahead of any exigent circumstances requiring these services, upon mutual agreement to activate this clause Contractor will prepare a proposed budget for the Emergency Work. HACC must review and approve the budget prior to Contractor performing the Emergency Work. Compensation for Emergency Work shall not exceed twenty thousand dollars (\$20,000.00).

Emergency Work is on an "on-call" or "as-needed basis."

When HACC wishes Contractor to perform the Emergency Work, HACC will submit an official County Task Order form (found at: https://www.clackamas.us/finance/terms.html) detailing the scope of the Emergency Work, the proposed budget, and the total compensation agreed to between the parties. Contractor may not perform Emergency Work until the County Task Order form has been executed by the parties. All Emergency Work is and shall remain subject to all terms and conditions of the Contract. In the event a project authorized under the County Task Order extends beyond the expiration of this Contract, the County Task Order shall remain in effect under the terms of the Contract until the completion or expiration of the authorized task.

No task order shall modify or amend the terms and conditions of this Contract.

In requesting Contractor to perform Emergency Work, HACC may require Contractor to agree to additional terms and conditions as may be required by federal funding sources including, but not limited to, the Federal Emergency Management Agency. These additional terms and conditions may include those required under 2 CFR Pt. 200, App. II. HACC will include any additional terms and conditions as part of any Task Order.

Unless otherwise specified in a Task Order, Contractor will be required to participate in the HMIS or, for domestic violence service providers, an HMIS comparable database, as part of performing the Emergency Work. Such participation includes the following:

- a. Collect participant demographics and enter data electronically into HMIS into appropriate HMIS providers, which will be determined by HACC
- b. comply with current HMIS Policy and Procedures and adhere to all HMIS reporting requirements
- c. Ensure that data entry into HMIS occurs in an accurate and timely manner within three (3) business days of program entry date.
- d. Correct data quality, missing information, and null data errors as specified by SHS Data team within 15 days of request
- e. Collect, at minimum, universal data elements which include demographic information on all clients at entry
- f. Comply with all confidentiality policies and procedures regarding HMIS and the use of participant data
- g. Ensure only authorized Contractor staff, trained by County, shall access the HMIS software
- h. Maintain sign-in sheets and consent to participate forms for all program participants

Emergency Work may include the following personals services:

1. Outreach and Engagement:

Outreach to people experiencing homelessness who have been impacted by an emergency, with a focus on building relationships and service engagement through person-centered, culturally-responsive, trauma-informed, strengths-based practices. Services should align with the Housing First model (see Addendum – Definitions).

Services may include but are not limited to:

- connecting people with resources to meet their basic needs
- completing Coordinated Housing Access (CHA) assessments
- connections to supportive services
- outreach to adults with severe and persistent mental illness
- culturally specific outreach services
- If possible, Multi-disciplinary outreach teams, including mental and physical healthcare professionals

Staff to participant ratio is expected to be approximately 1:50

2. Navigation/Placement

Establishing a housing navigation and placement program, if needed, in the event of an emergency. This program type assists households in moving from an unhoused, or otherwise deemed unsuitable living situation into permanent rental housing within the Metro jurisdictional boundaries. Housing navigators will provide a warm hand-off to the supportive housing case manager assigned to each household.

Housing navigation and placement consists of flexible services and funding to assist households in accessing and securing <u>rental housing</u>. Housing navigation and placement is tailored to meet each household's specific needs so they can move into rental housing as quickly as possible.

The expected navigator to participant ratio is 1:10. Housing navigation would likely include the following:

- Check-ins at least weekly with all participating households.
- Assessment of <u>housing</u> barriers, needs and preferences.
- Support and flexible funds to address immediate <u>housing</u> barriers.
- Assistance attending RLRA briefing(s) and responding to program requirements to secure long term rent assistance.
- Housing search assistance, including researching available units, contacting landlords, accompanying participants on apartment tours, etc.
- Landlord engagement, establishing relationships with landlords to facilitate participant placement.
- Assistance with housing application preparation, housing application appeals and reasonable accommodation requests necessary to obtain housing.

Housing placement would likely include the following:

• Support with moving assistance, securing furniture, application fees, and other non-rent move-in costs.

3. Emergency housing/safety-off-the-streets staffing and services (EH/SOS)

Time-limited and emergency housing designed to provide households experiencing homelessness during an emergency with interim stability and support. Emergency housing/safety-off-the-streets may include:

- Congregate
- non-congregate
- facility-based
- alternative shelter models

Services should align with the Housing First model (see Addendum – Definitions) and the Equal Access Rule. Providers must have a plan to ensure all participants, where appropriate, receive diversion services before accessing immediate housing and a CHA screening within 3 days of entering an EH/SOS program.

Services procured in this portion of the contract will be matched with sites, as they are identified, depending on the nature and location of the emergency. Staffing hours for EH/SOS will also depend on the nature and level of need associated with the emergency. HACC may request up to 24/7 coverage.

Additional services may be needed, depending on the nature of the emergency. Some or all of the following components may be included:

- Recruit, train, schedule and retain volunteers
- Perform Criminal Background checks for all staff and volunteers who will be performing direct services under this contract. Specific screening criteria must be in place, and policies must disqualify any persons who have committed violent crimes, crimes against children, or other crimes that are incompatible with this project
- Coordinate communication with staff, volunteers, host sites, 211, and other agencies and individuals involved
- Coordinate the facilitation of EH/SOS programs by assuring they are set up, staffed up, and stocked with necessary basic provisions (i.e. mats, blankets, hot beverages, etc.)
- Facilitate Day Center activities
- Provide fire watch and safety checks, when required
- Provide water/coffee/tea and sleeping mats or cots to every guest

Overnight EH/SOS sites typically open by 6 PM and stay open through at least 8 AM. Day shelters, specifically used for relief from the heat, are typically open by 1pm and stay open through at least 8pm. Where shelters are needed 24/7, day shelters should be open by the time the overnight shelter closes, and remain open until at least 6pm.

Staffing will include a minimum of two staff or volunteers during all hours of operation. If more than 40 guests are on site, one additional volunteer or staff is required in order to ensure safety for all guests, staff and volunteers. Staff and volunteers will document shift times to show the minimum requirement was met on Sign-in Sheets.

If such services are required, Contractor may not require guests to be clean and sober or pass urinalysis or breath testing prior to service access and provision. However, sites may have rules disallowing alcohol or drug possession or use on premises. Contractor may have rules to ensure a safe environment, and those rules must follow a harm-reduction model. These rules must be in plain language, as streamlined as possible, minimally interfere with participant's daily activities, and align with Fair Housing law.

Contractor will be required to have a written policy that addresses under what circumstances and for what conduct people may be excluded from services and for what period of time.

ADDENDUM: DEFINITIONS

Culturally Responsive and Culturally Specific Services

HACC is using definitions of Culturally Responsive and Culturally Specific services developed through a collaborative Metro-wide work group.

Culturally Responsive

Culturally responsive services are general services that have been adapted to honor and align with the beliefs, practices, culture and linguistic needs of diverse consumer / client populations and communities whose members identify as having particular cultural or linguistic affiliations by virtue of their place of birth, ancestry or ethnic origin, religion, preferred language or language spoken at home. Culturally responsive services also refer to services provided in a way that is culturally responsive to the varied and intersecting "biological, social and cultural categories such as gender identity, class, ability, sexual orientation, religion, caste, and other axes of identity." Culturally responsive organizations typically refer to organizations that possess the knowledge and capacity to respond to the issues of diverse, multicultural communities at multiple intervention points. Culturally responsive organizations affirmatively adopt and integrate the cultural and social norms and practices of the communities they serve. These agencies seek to comprehensively address internal power and privilege dynamics throughout their service delivery, personnel practices and leadership structure.

A culturally responsive organization is one that reflects the following characteristics:

• Prioritizes responsivity to the interests of communities experiencing inequities/racism and provides culturally grounded interventions [that] have been designed and developed starting from the values, behaviors, norms, and worldviews of the populations they are intended to serve, and therefore most closely connected to the lived experiences and core cultural constructs of the targeted populations and communities;

• Affirmatively adopts and integrates the cultural and social norms and practices of the communities they serve;

• Addresses power relationships comprehensively throughout its own organization, through both the types of services provided and its human resources practices. A key way of doing this is engaging in critical analysis of the organization's cultural norms, relationships, and structures, and promoting those that support democratic engagement, healing relationships and environments;

• Values and prioritizes relationships with people and communities experiencing inequities universally, paying particular attention to communities experiencing racism and discrimination;

• Commits to continuous quality improvement by tracking and regularly reporting progress, and being deeply responsive to community needs; and

• Strives to eliminate barriers and enhance what is working. Culturally responsive organizations seek to build change through these major domains:

- Organizational commitment, leadership, and governance;
- Racial equity policies and implementation practice;
- Organizational climate, culture, and communications;

- Service-based equity and relevance;
- Workforce composition and quality;
- Community collaboration;
- Resource allocation and contracting practices; and
- Data metrics and continuous quality improvement.

Culturally Specific

Culturally specific services are services provided for specific populations based on their particular needs, where the majority of members/clients are reflective of that community, and use language, structures and settings familiar to the culture of the target population to create an environment of belonging and safety in which services are delivered. Culturally specific organizations typically refer to organizations with a majority of members/clients from a particular community. Culturally specific organizations also have a culturally focused organizational identity and environment, a positive track record of successful community engagement, and recognition from the community served as advancing the best interests of that community.

Organizations providing Culturally Specific Services reflect the following characteristics:

• Programs are designed and continually shaped by community input to exist without structural, cultural, and linguistic barriers encountered by the community in dominant culture services or organizations AND designed to include structural, cultural and linguistic elements specific to the community's culture which create an environment of accessibility, belonging and safety in which individuals can thrive.

• Organizational leaders, decision-makers and staff have the knowledge, skills, and abilities to work with the community, including but not limited to expertise in language, core cultural constructs and institutions; impact of structural racism, individual racism and intergenerational trauma on the community and individuals; formal and informal relationships with community leaders; expertise in the culture's explicit and implicit social mores. Organizational leaders and decision-makers are engaged in improving overall community well-being, and addressing root causes.

• Intimate knowledge of lived experience of the community, including but not limited to the impact of structural or individual racism or discrimination on the community; knowledge of specific disparities documented in the community and how that influences the structure of their program or service; ability to describe the community's cultural practices, health and safety beliefs/practices, positive cultural identity/pride/resilience, immigration dynamics, religious beliefs, etc., and how their services have been adapted to those cultural norms.

• Provide multiple formal and informal channels for meaningful community engagement, participation and feedback at all levels of the organization (from service complaints to community participation at the leadership and board level). Those channels are constructed within the cultural norms, practices, and beliefs of the community, and affirm the positive cultural identity/pride/resilience of the community. HUD Chronically Homeless Definition

24 CFR 578.3 "Chronically homeless"

Chronically Homeless means:

(1) A "homeless individual with a disability," as defined in section 401(9) of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11360(9)), who:

(i) Lives in a place not meant for human habitation, a safe haven, or in an emergency shelter; and

Stays in institutional care facilities for fewer than 90 days will not constitute as a break in homelessness, but rather such stays are included in the 12-month total, as long as the individual was living or residing in a place not meant for human habitation, a safe haven, or an emergency shelter immediately before entering the institutional care facility;

(2) An individual who has been residing in an institutional care facility, including a jail, substance abuse or mental health treatment facility, hospital, or other similar facility, for fewer than 90 days and met all of the criteria in paragraph (1) of this definition, before entering that facility; or

(3) A family with an adult head of household (or if there is no adult in the family, a minor head of household) who meets all of the criteria in paragraph (1) or (2) of this definition, including a family whose composition has fluctuated while the head of household has been homeless.
