I will construct and maintain Water Environment Services (WES) Erosion Prevention and Sediment Control (EPSC) measures to ensure the containment of pollutants on the construction site. I agree to comply with WES EPSC Rules, Regulations and Standards. I further agree that I am responsible for the daily monitoring and, if necessary, adjustment of EPSC measures to comply with these requirements. I acknowledge that failure to adhere to these requirements will result in enforcement actions to bring the site into compliance. I authorize WES representatives to enter the property during the project for the purpose of making inspections.
