RE: Property Damages and Financial Burden caused by Homeless Camp located on Clackamas Road owned by Clackamas County

Our facility is on 7-acres and all the property lines are fenced with multiple gates.

Issue 1:

Used drug needles and syringes are being thrown over our fence. We purchased a mechanical grabber to pick up this drug paraphernalia that ends up on our property every day to protect our employees, service providers and vendors. This has been ongoing for over a year is completely untenable.

Issue 2:

The mountains of garbage they are creating is toxic and a severe bio-hazard. We put in a new gate that we can't use, because the Homeless have mountains of garbage piled against it. The smell is very bad on some days. We will have to pay a service provider to sterilize it before allowing any employee, vendor or service provider to touch it (photo attached reflects some of the garbage removed as of 7-23-24).

Issue 3:

The Homeless are defecating behind our buildings. It has become a horrible bio-hazard for our employees and our landscaping maintenance company will not service these parts of the property.

Issue 4:

Homeless individuals and mentally challenged individuals using drugs will go on loud rants and some really become seriously enraged for no reason. Our employees sometimes wonder if their lives are at risk, as many homeless carry weapons of some sort and will run at our employees if they are outside.

Issue 5:

Our company has spent over \$28,000 dollars with Pacific Fence & Wire Company just in the last 4 months fixing and replacing many sections of fencing that the homeless cut out of our chain link fences. Plus, another \$4,000 dollars in replacing privacy fence slats.

Recently, they have started to set our cedar wood privacy fence slats on fire and or pulling out these wood privacy slats. There is 40 feet of chain link fencing now missing cedar wood privacy fence slats that were either partially burned, fully burned or pulled out (see photos 1 through 11 provided). The Fire Department has been to Clackamas Road countless times and as recent as the week of July 9, 2024. Fires during these hot

summer months when everything is so dry, pose a serious threat to businesses and communities.

Issue 6:

Service providers we hire for landscaping maintenance are literally afraid to service those two fence lines of our property that the Homeless use for living and defecating on.

Issue 7:

Vendors will not drive down Clackamas Road to deliver machinery to the back of our building. We have had to put in a separate 30' foot gate to accommodate these types of deliveries.

In summary, as a taxpayer of Clackamas County we have had to spend funds that we wanted to put into our operations, but had to spend these funds to deal with the complications created by the Homeless.

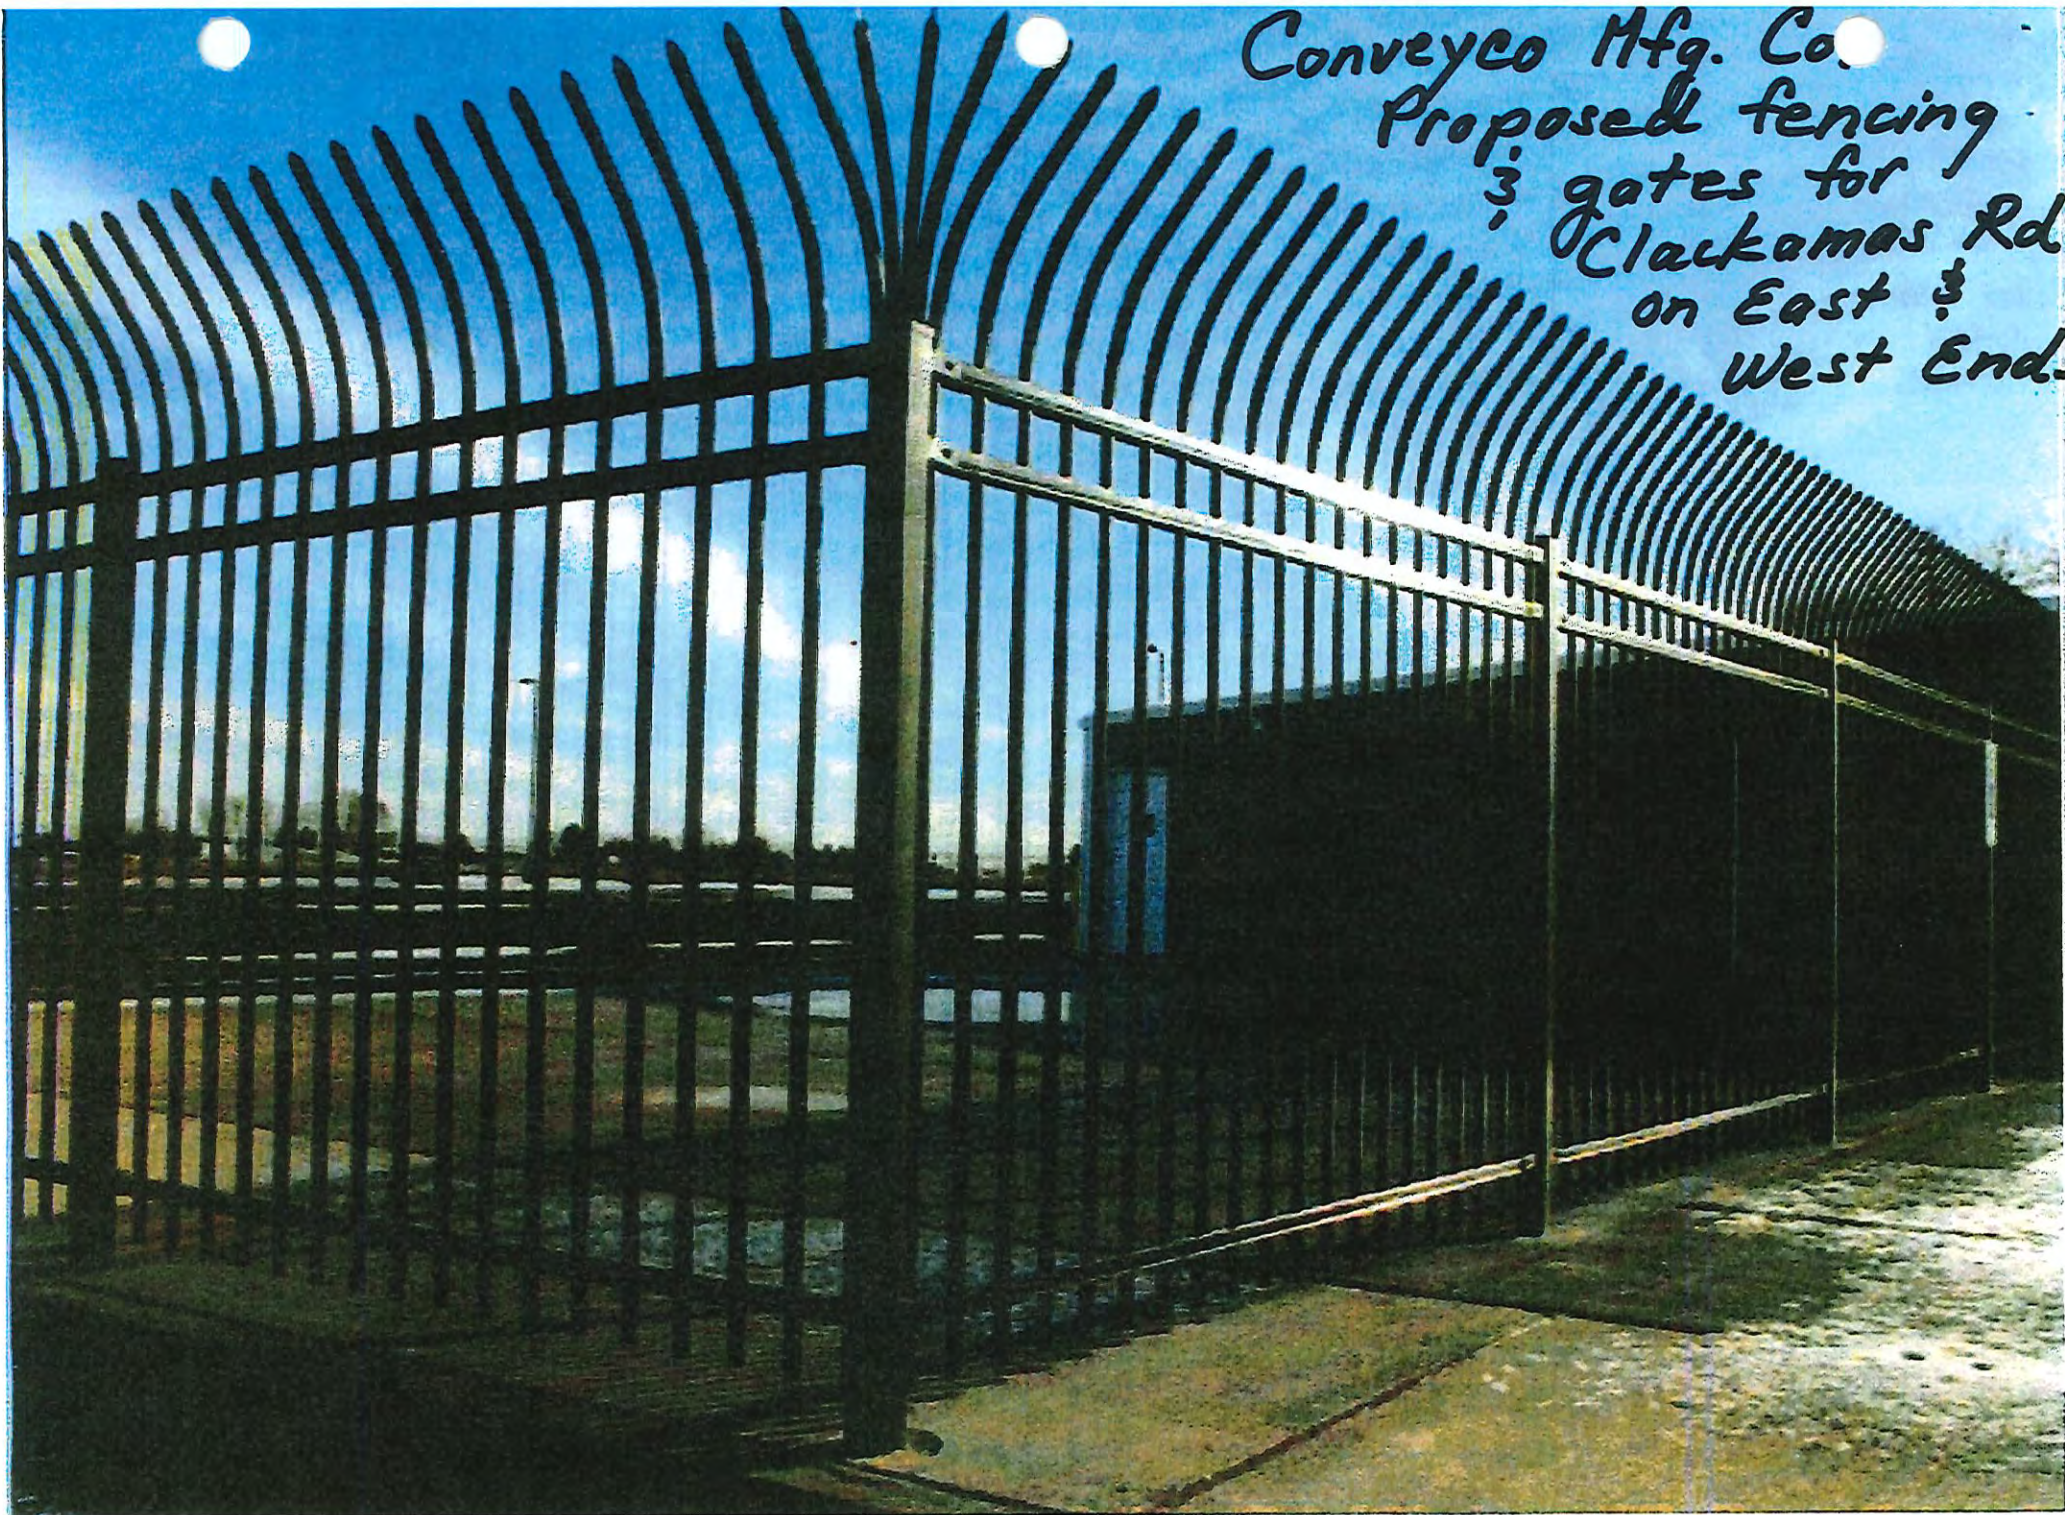

As of 7-23-24, we have spent \$39,437 dollars in repairs caused by the Homeless. This does not include the \$50,214 dollars (see gate proposal in packet) we have committed to for the Clackamas Road fencing and gates or the money it will cost to repair the additional damage (estimate of \$7,700 dollars) the Homeless have done to our fencing. Once these commitments are paid, we will have paid almost \$100,000 dollars. This is a significant amount of money that we wanted to use for employee raises and capital improvements.

This entire scenario is unsustainable, that is why we are offering to pay for the entire fence/gate system on Clackamas Road to make our employees, service providers and vendors feel safe once again.

We would greatly appreciate the Board's approval for east and west fencing /gates on Clackamas Road, while we continue the process of vacating Clackamas Road.
