# A. Complete a pre-application conference:

You must attend a pre-application conference with Planning and Zoning staff before filing this application. <u>Information about the pre-application conference</u> process and a request form are available from the Planning and Zoning website.

## B. Review applicable land use rules:

This application is subject to the provisions of <u>Section 1105</u>, <u>Subdivisions</u>, <u>Partitions</u>, <u>Replats</u>, <u>Condominium Plats</u>, <u>and Vacations of Recorded Plats</u> of the Clackamas County Zoning and Development Ordinance (ZDO).

It is also subject to the ZDO's definitions, procedures, and other general provisions, as well as to the specific rules of the subject property's zoning district and applicable development standards, as outlined in the ZDO.

## C. Turn in all of the following:

<b>Complete application form:</b> Respond to all the questions and requests in this application, and make sure all owners of the subject property sign the first page of this application. Applications without the signatures of <i>all</i> property owners are incomplete.
<b>Application fee:</b> The cost of this application is \$2,705 if for 4-10 lots or \$7,870 plus \$45/lot if for 11 or more lots. A \$150 notification surcharge also applies if an expanded notification area is required by ZDO Section 1307. If Hydrogeologic Review is required, there is an additional fee of \$4,030. Payment can be made by cash, by check payable to "Clackamas County", or by credit/debit card with an additional card processing fee using the <u>Credit Card Authorization Form</u> available from the Planning and Zoning website. Payment is due when the application is submitted. Refer to the FAQs at the end of this form and to the adopted <u>Fee Schedule</u> for refund policies.
<b>Preliminary plat:</b> The preliminary plat must be drawn to a scale of not less than one inch = $20$ feet and not more than one inch = $200$ feet. If the preliminary plat is larger than $11 \times 17$ inches, five reduced-sized, legible copies of the preliminary plat shall be submitted on $8.5 \times 14$ -inch or $11 \times 17$ -inch paper. The preliminary plat must include all of the following (when applicable):

- Source of domestic water and location of any existing and proposed wells;
- Method of wastewater disposal and location of any existing and proposed onsite wastewater treatment systems;
- Existing and proposed utility lines and facilities;
- Calculations demonstrating that the proposed density complies with the minimum and maximum density standards of ZDO <u>Section 1012</u>, <u>Lot Size and Density</u></u>, or for zoning districts not subject to Section 1012, demonstrating compliance with the minimum lot size in the applicable zoning district;
- Locations, dimensions, and area of each lot, parcel, and tract;
- The north-south dimension and front-lot-line orientation of each proposed lot or parcel, except for lots or parcels for which an exception from the solar design standard of ZDO <u>Subsection 1017.03</u> is requested pursuant to Subsection 1017.04. For the purpose of this submittal requirement, "north-south dimension" and "front lot line" are defined in Subsection 1017.02;
- Date the preliminary plat was prepared;
- North arrow:
- Identification of each lot or parcel by number;
- Locations and widths of all roads abutting the subject property, including road names, direction of drainage, approximate grades, and whether public or private;

- Locations and widths of all proposed roads, including proposed names, approximate grades, radii of curves, and whether public or private;
- Location and width of legal access to the subdivision, other than public or County roads, if applicable;
- Contour lines at two-foot intervals if 10 percent slope or less or five-foot intervals if exceeding 10 percent slope within an urban growth boundary (UGB); contour lines at 10-foot intervals outside a UGB; and the source of contour information;
- Locations of all seasonal and/or perennial drainage channels, including their names if known, and flow direction:
- Locations and widths of all existing and proposed easements, to whom they are conveyed and for what purpose;
- Locations and dimensions of all existing and proposed driveways and walkways;
- Locations and dimensions of existing structures to be retained and their setbacks from existing and proposed lot lines;
- Locations and dimensions of all areas to be offered for public use;

must illustrate all of the following (when applicable):

- Boundaries and type of restricted areas identified in ZDO Subsection 1012.05, as applicable; and
- Locations of all significant vegetative areas, including, but not limited to, wooded areas, specimen trees, and bearing trees.
- Service Feasibility Determinations: Request that the property's water provider, sanitary sewer provider, and surface water management authority, as applicable, each complete a <u>Preliminary Statement of Feasibility</u> and include those completed statements with your application. If the proposed development will be served by an onsite wastewater treatment system (e.g., a septic system), include an approved Site Evaluation or Authorization Notice from the <u>Septic & Onsite Wastewater Program</u> attesting to the feasibility of your proposal.
   For a property with designated Open Space: If the subject property to be subdivided includes land designated Open Space by the County's <u>Comprehensive Plan</u>, a *vicinity map* showing the location of the subject property in relation to adjacent properties, roads, bikeways, pedestrian access, utility access, and
  - Contour lines at two-foot intervals for slopes of 20 percent of less within a UGB; contour lines at five-foot intervals for slopes exceeding 20 percent within a UGB; contour lines at 10-foot intervals outside a UGB; and the source of contour information:

manmade or natural site features that cross the boundaries of the subject property. An *existing conditions map* of the subject property with the Open Space designation must also be provided. The existing conditions map

- Slope analyses designating portions of the site according to the following slope ranges and identifying the total land area in each category: zero to 20 percent; greater than 20 percent to 35 percent; greater than 35 percent to 50 percent; and greater than 50 percent;
- Drainage;
- Potential hazards to safety, including areas identified as mass movement, flood, soil, or fire hazards pursuant to ZDO <u>Section 1003</u>, <u>Hazards to Safety</u>;
- Marsh or wetland areas, underground springs, wildlife habitat areas, and surface features such as earth mounds and large rock outcroppings;
- Location of wooded areas, significant clumps or groves of trees, and specimen conifers, oaks, and other large deciduous trees. Where the subject property is heavily wooded, an aerial photography, at a scale of not more than one inch = 400 feet, may be submitted and only those trees that will be affected by the proposed development need be sited accurately;
- Location of any overlay zoning districts regulated by ZDO Section 700, Special Districts;
- Noise sources;
- Sun and wind exposure;

Existing structures, impervious surfaces, utilities, landscaping, and easements.
 For a property that is already a platted lot or parcel: If the subject property is already a platted lot or parcel, include a full copy of the latest partition or subdivision plat and a density calculation made pursuant to ZDO Subsections 1105.04(B)(2) and (3).
 For phased subdivisions: If the subdivision will be platted in phases, include a phasing plan and schedule.
 For Historic Landmark sites, and sites located in a Historic District or Historic Corridor: Submit a narrative and/or plans demonstrating compliance with ZDO Subsection 707.06(C)(6), as applicable.
 Any additional information or documents advised of during the pre-application conference

Significant views; and

# D. Answer the following questions:

Accurately answer the following questions in the spaces provided. Attach additional pages, if necessary.

1.	Is the subject property already a platted lot or parcel?
	□ NO, it is not platted.
	YES, and I understand this subdivision is subject to the additional criteria for a replat. The property to be subdivided is currently identified as follows:
	Plat name/number:
	Current lot/parcel number for subject property:
2.	In an Urban Low Density Residential District, the subdivision may be designated as a zero-lot-line development. In a zero-lot-line development, there are no minimum rear and side setbacks for single-family dwellings, manufactured homes, and structures accessory to single-family dwellings and manufactured homes, except from rear and side lot lines on the perimeter of the final plat.
	Are you requesting this subdivision be designated as a zero-lot-line development?
	□ NO □ YES
3.	Do you propose to have final plat review, pursuant to ZDO Subsection 1105.07, occur in two or more phases pursuant to Subsection 1105.03(C)?
	☐ NO, final plat review is requested to occur in <b>only one phase</b> . (Skip to Question 4)
	YES, final plat review is requested to occur in multiple phases, and an attached phasing plan and schedule addresses the following:
	<ul> <li>How such factors as the size of the proposed subdivision, complexity of development issues, required improvements, and other factors are relevant; and</li> </ul>
	<ul> <li>How the total number of lots in all recorded phases of the subdivision will not exceed the maximum density allowed Pursuant to ZDO Section 1012, for the</li> </ul>

gross site area included in all such phases.

a.	open space, private roads, access drives, parking areas, and recreational uses, and snow removal and storage in Government Camp?
	□ NO (skip to Question 5)
	☐ YES (answer Questions 4.b and 4.c beginning below)
b.	Identify all the proposed common areas and facilities:
C.	Who will own, improve, operate, and maintain the common areas and facilities?
	☐ A nonprofit, incorporated homeowners association that:
	<ol> <li>Will continue in perpetuity unless the requirement is modified pursuant to either ZDO <u>Section 1309</u>, <u>Modification</u>, or the approval of a new land use permit application;</li> </ol>
	<ol><li>Mandates membership in the homeowners association for each lot or parcel owner; and</li></ol>
	3. Is incorporated prior to recording of the final plat.
	□ A government entity named:
	☐ A nonprofit conservation organization named:
	☐ An alternative entity named and described in the box below:

Is the s Plan?	ubject property in a future urban area, as defined by Chapter 4 of the Comprehensive
	NO
	YES, and the location of proposed easements, road dedications, structures, wells, and onsite wastewater treatment systems is consistent with the orderly future development of the subject property at urban densities for the following reasons:

5.

# E. If the property is already platted:

Subdividing a property that is already platted involves a "replat". The number of lots or parcels in a replatted area cannot exceed the number previously approved for the area, unless: the gross site area of the affected plat is increased, or is of sufficient size to allow additional lots or parcels, or; the zoning on the subject property has been changed since the existing plat was approved, permitting a greater density on all, or part, of the original platted area.

If the subject property is already a *platted* lot or parcel, identify the circumstances that allow for the number of lots or parcels in the replatted area to exceed the number previously approved for the area (attach additional pages, if necessary):

The gross site area of the affected plat will be increased from acres to acres.
The gross site area of the affected plat will remain acres, which is a sufficient size to allow additional lots or parcels.
The zoning of the subject property has been changed since the existing plat was approved, permitting a greater density on all, or part, of the original platted area, as explained in the box below:

#### **FAQs**

#### What is a subdivision?

A subdivision is a division of property creating four or more lots in the same calendar year. There are two types of subdivisions: a minor subdivision creates four to 10 lots, while a major subdivision creates 11 or more lots. Both types require approval of a Subdivision permit application.

#### What is the permit application process?

Minor Subdivision permits are subject to a "Type II" land use application process, as provided for in <u>Section 1307</u> of the ZDO. Type II decisions include notice to owners of nearby land, the Community Planning Organization (if active), service providers (sewer, water, fire, etc.), and affected government agencies. If the application is approved, the applicant must comply with any conditions of approval identified in the decision. The Planning Director's decision on a Type II application can be appealed to the County Land Use Hearings Officer.

Major Subdivision permits are subject to a "Type III" land use application process, as also provided for in <u>Section 1307</u> of the ZDO. Type III decisions include notice to owners of nearby land, the Community Planning Organization (if active), service providers (sewer, water, fire, etc.), and affected government agencies, and are reviewed at a public hearing before the County Land Use Hearings Officer. If the application is approved, the applicant must comply with any conditions of approval identified in the decision. The Hearings Officer's decision on a Type III application can be appealed to the Oregon Land Use Board of Appeals (LUBA).

### What is needed for the County to approve a land use permit?

Subdivisions *may* be permitted after an evaluation by the County of applicable standards of the ZDO. The applicant is responsible for providing evidence that their proposal does or can meet those standards. In order to address the standards, the information requested in this application should be as thorough and complete as possible. A permit will only be approved or denied after a complete application is received and reviewed. The County approves an application only if it finds that the proposal meets the standards or can meet the standards with conditions.

## How long will it take the County to make a decision about an application?

The County makes every effort to issue a decision on a Type II land use application within 45 days, and for a Type III application within 12 weeks (84 days), of when we deem the application to be complete. State law generally requires a final County decision on a land use permit application in an urban area within 120 days of the application being deemed complete, and within 150 days for a land use permit in a rural area, although there are some exceptions.

Clackamas County Updated 7/1/2022

#### **FAQs** continued

#### If an application is submitted and then withdrawn, will a refund be given?

If a submitted Type II application is withdrawn before it is publicly noticed, 75% of the application fee paid, or the fee paid minus \$250, whichever is less, will be refunded. If a submitted application is withdrawn after it is publicly noticed, but before a decision is issued, 50% of the application fee paid, or the fee paid minus \$500, whichever is less, will be refunded. No refund will be given after a decision is issued.

The fee for this application includes a \$3,830 fee for review by the Hearings Officer, which will be fully refunded if the application is withdrawn before the hearing occurs. If the submitted Type III application is withdrawn before it is publicly noticed, 75% of the portion of the application fee paid that is not the Hearings Officer review fee (i.e., the remainder), or the remainder minus \$250, whichever is less, will be refunded. If a submitted application is withdrawn after it is publicly noticed, but before a staff report is issued, 50% of the remainder, or \$500, whichever is less, will be refunded. No refund on the remainder will be given after a staff report is issued.

The additional Hydrogeologic Review fee, if applicable, can be refunded in full, provided the application is withdrawn before any work has been done by the hydrogeologist; after any work has been done by the hydrogeologist, no portion of the Hydrogeologic Review fee will be refunded.

#### Who can help answer additional questions?

For questions about the County's land use permit requirements and this application form, contact Planning and Zoning at 503-742-4500 or <a href="mailto:zoninginfo@clackamas.us">zoninginfo@clackamas.us</a>. You can also find information online at the Planning and Zoning website: <a href="mailto:www.clackamas.us/planning">www.clackamas.us/planning</a>.

Clackamas County is committed to providing meaningful access and will make reasonable accommodations, modifications, or provide translation, interpretation or other services upon request. Please contact us at 503-742-4545 or drenhard@clackamas.us.
