**Number of Questionnaires
Analyzed for Report:** 4

This report contains information from parents about their children's trip to and from school. The report also reflects parents' perceptions regarding whether walking and bicycling to school is appropriate for their child. The data used in this report were collected using the Survey about Walking and Biking to School for Parents form from the National Center for Safe Routes to School.

**Because less than 30 questionnaires are included in this report, each graph and table display counts rather than percentage information.

1549459	The intersection at 6th and Broadway and 6th and Wade are biggest concerns. Not just traffic, but sun in the am at that time also. People/drivers do not pay enough attention. Maybe make it a 4-way stop?
1549460	Child walks/bikes with other friends only. I would let him walk alone if these issues were not present: sidewalks and pathways, safety of intersections and crossings, violence or crime.
1549461	Child walks/bikes with other friends only. I would let him walk alone if these issues were not present: sidewalks and pathways, safety of intersections and crossings, violence or crime. 1-The paths in Ranger Woods + the neighboring overgrown fields are frequently used by transients and both areas are very secluded from any street which creates a safety issue. Ranger Woods in not lit at all in the early mornings. 2- Cars speeding down Cemetery Road too fast make it dangerous for kids to safely cross in the sidewalk at Hill Way. 3- Kids walk through the high school parking lot since sidewalk is not finished on 6th Avenue close to Cemetery Rd.
1549462	I'd like to allow my daughter to walk to her grandma's house after school when she's in 7th grade next year. Concerned about traffic, lack of sidewalks, crossing points + crime.
