Methodology for OR-507 - Clackamas County CoC

Sheltered Population Total

1. What data source(s) was used to produce the total number of people included in the sheltered population (staying in an emergency shelter, Safe Haven, or transitional housing) on the night of the count? Please indicate the percentage of the PIT count derived from each of the sources. (If a source was not used, please enter zero).

HMIS Data	95%
Provider-level surveys	0%
Client-level surveys	5%
Observation	0%
Other	0%
Total	100%

2. Was the CoC able to collect information about the number of people being sheltered on the night of the count from all emergency shelters, Safe Havens, and transitional housing projects listed on the HIC or only some? listed on your HIC or only some?

- Complete census count

3. What information or method(s) was used to de-duplicate the count of the total number of people included in the sheltered population?

- Comparison of personally identifying information (PII), such as name, date of birth, and Social Security Number
- Comparison of unique client identifiers (not PII)

Sheltered Subpopulation

4. What data source(s) was used to produce the demographic and subpopulation data included in the sheltered population (staying in an emergency shelter, Safe Haven, or transitional housing) on the night of the count? (select all that were used)

- HMIS Data

5. Was the CoC able to collect information about the demographic and subpopulation characteristics of all sheltered people or only some?

Point In Time Methodology for OR-507 - Clackamas County CoC

- All sheltered people

6. Looking at the change in your sheltered count from last year's count, please choose up to three reasons that best explains these changes from the drop down list below.

- Change in participation of programs serving general homeless populations (e.g., singles, families)
- Change in emergency shelter capacity

Please provide a brief description of these specific factors (500 word limit):

Like many communities, COVID had an impact across Clackamas County's shelter system. Clackamas County has three congregate shelters that primarily serve households with children. The three shelters each took a different approach during COVID: one closed entirely and supported households through hotel/motel vouchers only; one closed halfway, social distancing those remaining in the shelter and supporting others with hotel/motel vouchers; one remained open at full capacity with intensive cleaning, distancing, and mask-wearing protocols. All three shelters more-or-less maintained their same capacity in the 2020 sheltered count vs the 2021 sheltered count, resulting in similar PIT county numbers.

Over the past several years, shelter for adult-only households was only available from September through March, contingent on extreme or particularly cold weather conditions, provided in a congregate setting, and on a night-by-night basis. These congregate winter warming shelters for adult-only households were not open on the 2020 PIT count night, so they are not reflected on the 2020 HIC or PIT. This change in the way shelter was delivered resulted in a change in participation of programs, due to COVID-19.

Unsheltered Population

7. What approach(es) was used to count the total number of people included in the unsheltered population during the PIT count. (select all that were used)

- HMIS

8. What information or method(s) was used to de-duplicate the total count of people in the unsheltered population? (Check all that apply)

- Comparison of personally identifying information (PII), such as name, date of birth, and Social Security Number
- Comparison of unique client identifiers (not PII)

Unsheltered Subpopulations

9. What approach(es) was used to collect demographic and subpopulation data about unsheltered people included in the unsheltered population during the PIT count?

10. Were all people who were encountered during canvassing on the night of the count or during post night of the count PIT activities asked to complete a survey/interview?

- All people encountered were surveyed

11. What information or method(s) was used to produce an unduplicated total count of homeless people across your sheltered and unsheltered populations?

- Comparison of personally identifying information (PII), such as name, date of birth, and Social Security Number
- Comparison of unique client identifiers (not PII)

12. Looking at the change in your unsheltered count from last year's count, please choose up to three reasons that best explains these changes from the drop down list below

- Change in PIT count methodology
- Change in rapid re-housing capacity
- Impact of coordinated entry

Please provide a brief description of these specific factors (500 word limit):

This year Clackamas County received a waiver to use Coordinated Entry (CE) data, for those waiting for services on the point in time date, in lieu of a traditional unsheltered count. Based on the data, the CE system is more successful at reaching and screening families with children experiencing homelessness than the traditional PIT unsheltered count effort. There were 34 more households and 121 more people from families with children in the 2021 PIT count, compared with the 2019 PIT count.

There was a decrease from 187 to 150 households without children from the 2019 to the 2021 PIT count. This decrease can be attributed to the implementation of a RRH program dedicated to moving Chronically Homeless (CH) households, who met the FEMA definition of COVID-vulnerable, directly into Permanent Housing. The majority of those experiencing CH in Clackamas County are in adult-only households, and the program focused on those with the longest time homeless.

Point In Time Methodology for OR-507 - Clackamas County CoC

- HMIS data from street outreach and/or other providers

Point-in-Time Notes for OR-507 - Clackamas County CoC

Date of PIT Count: 1/22/2021

Population: Sheltered and full unsheltered count

Notes

There were no parenting youth age 18-24 in emergency shelter.

While there were 7 people age 18-24 in emergency shelters, only 3 of those people were unaccompanied youth. The rest were part of households with people over age 24.
