RE: Affordable Housing & Homelessness Policy Task Force

Dear Members:

On behalf of the Board of County Commissioners, thank you for your willingness to serve on the County's Affordable Housing & Homelessness Policy Task Force. On Tuesday, the Board of County Commissioners appointed the task force members and approved the charter. The County is fortunate to have such a diverse and accomplished group of people willing to work on behalf of their fellow residents.

The County has contracted with Enviroissues to help facilitate the task force process and meetings. Kirsten Greene will be their lead staff person. Kirstin is a talented facilitator with substantial experience in housing issues and a long history working with Clackamas County. You will soon be receiving a doodle poll email to try and help come up with dates and times for task force meetings.

We have attached a copy of the approved charter, and list of the task force members and contact information.

Thank you again, and we look forward to working with you.

Sincerely,

A handwritten signature in black ink, appearing to read "Jim Bernard".

Jim Bernard, Chair

Clackamas County Board of Commissioners
