ISSUE & BACKGROUND

Over the past few months, the Economic Development Commission has focused its efforts on the following four areas in order to provide the BCC a list of recommendations from the business perspective:

- Clackamas Industrial Area
- Government Camp
- McLoughlin Corridor
- Clackamas County Agriculture Investment Strategy

Based on the characteristics of the area, a list of recommendations was developed that includes topics ranging from transportation, infrastructure, workforce, community amenities, and many others. The recommendations represent issues that the EDC believes need to be addressed in order to support economic development in the key focus areas.

The purpose of this study session is to present the final versions of the committee reports for consideration by the Board of County Commissioners.
