BACKGROUND:

Clackamas County Public Health Division (CCHPD) of the Health, Housing & Human Services Department requests the approval of an Amendment to Intergovernmental Agreement (IGA) with Tualatin Valley Fire and Rescue to provide a community paramedic to the Project Hope Program.

This work is part of the Grant Subaward for Combating Opioid Overdose through Community-Level Intervention Initiative (COOCLI).

The Community Paramedic role will continue to provide crucial follow-up visits to opioid overdose survivors in the home after the emergency medical phase of the call ends. After an assessment is completed, Community Paramedics will provide care coordination between patients and providers, and community resource navigation with a focus on treatment and recovery services (detox, inpatient, outpatient, and community-based services). Community Paramedics will work with patients to establish a longer-term plan to prevent future substance use and potential overdose.
