

Hoodland Park District Director

Dannelle Wolfe

Occupation: Self Employed

Occupational Background: NA

Educational Background: Sandy High School, General, Diploma; Eastern Oregon University, Liberal Arts

Prior Governmental Experience: NA

I grew up in this amazing community and have returned to raise my family here. This community is important to me as it is to so many of you. We have been granted a unique and exciting opportunity with the Parks District proposal. I recognize that this position will be paramount in laying the groundwork for the foundation of a successful Parks Department.

Community service and compassion for our neighbors is so important to me. Being the current president of the Iwakt Community Garden, the former secretary for the Mt. Hood Learning Center, and a current contributing member of the Hoodland Christmas Baskets board; I will put my experience to work for you.

Keeping within budget is important to taxpayers and is important to me. I am also interested in expanding the garden on the site of the proposed park to include more people, when Hoodland Park District becomes reality. By doubling the size and space of the community garden, we can assist over 100 families in bridging the gap of availability and affordability of fresh produce. I am very willing to listen and learn from members of our community, to get what we all want out of this Parks Department. I know together, we can create a beautiful space for ours and future generations to enjoy.

I believe that my years of community service demonstrate my enduring commitment to this community and that I can work with the other elected members of the board, and community, to bring this Parks Department to fruition.
