BACKGROUND: The Housing Authority of Clackamas County (HACC), a division of the Health, Housing and Human Services Department (H3S) of Clackamas County, requests approval to execute a contract with Northwest Family Services to provide emergency shelter services. The Supportive Housing Services (SHS) Program is focused on providing permanent supportive housing and other supportive services to vulnerable individuals in Clackamas County currently experiencing or at risk of experiencing homelessness, many of whom have a disability.

Northwest Family Services is a Clackamas County based organization with nearly 40 years of experience providing services to Clackamas County residents. Their extensive work in our community has given their staff an intimate knowledge of Clackamas County residents' challenges and needs. Funding through this contract will support their emergency shelter operations at Casa Esperanza, a culturally specific emergency shelter for female identifying Latina(x) survivors of domestic violence, sexual assault, and sex trafficking. Casa Esperanza is a site-based shelter with six units of emergency shelter. Casa Esperanza will also provide motel vouchers for up to 15 large families or households that face challenges and are better suited for a non-congregate shelter model. Overall, the program will provide emergency shelter to 55 households annually through this contract.

Households served through Casa Esperanza will also receive assistance moving into permanent housing. Once housed, they will receive ongoing supportive housing case management services through a collaboration with other Supportive Housing Services Providers and rental assistance through the County's Regional Long-term Rent Assistance Program.

This contract was procured by HACC with the intention of being managed by HACC staff. Following the procurement, Clackamas County elected to create a new housing division within its Department of Health, Housing, and Human Services, which will involve a reorganization of how housing services are delivered. Upon creation of the new housing division, HACC intends to assign the approved contract to Clackamas County for management. As a result, the proposed contract contains an Assignment Addendum to be executed by both the Housing Authority Board and the Clackamas County Board of County Commissioners (BCC) that enables the assignment to occur once the new division is created.

RECOMMENDATION: Staff respectfully recommends the Housing Authority Board of Clackamas County approve the execution of the contract between the Housing Authority of Clackamas County and Northwest Family Services to provide emergency shelter services at Casa Esperanza and to assign the contract to Clackamas County. Staff also recommends the Board authorize Commissioner Tootie Smith, Chair, to sign the contract on behalf of the Housing Authority Board.

Respectfully submitted,

Rodney A. Cook

Rodney A. Cook, Director Health, Housing & Human Services

NWFS will continue to operate and enhance services at Casa Esperanza. Casa Esperanza is a culturally specific emergency shelter for female-identifying Latina(x) survivors of domestic violence, sexual assault, and sex trafficking and their family members. The shelter is site-based, has 6 units. In addition, Casa Esperanza will provide motel vouchers for up to 15 large families or households that face challenges that are self-identified as better suited for a non-congregate model. Overall, the program will serve 55 households annually.

Referrals for this program will come from both Coordinated Housing Access CHA, street outreach programs, and Casa Esperanza's network of referral partners. Housing First Aid/diversion must be meaningfully attempted with each household requesting shelter, before enrolling in the shelter program. Shelter beds must be prioritized for the people with the highest safety and health vulnerabilities (and their household members). NWFS will work with the Clackamas County Housing Services Team (HST) to establish and/or approve prioritization policies.

This emergency housing program will be time-limited, working toward a goal of moving participants to safe, stable permanent housing resources within an average of 45 days from move-in. While 45 days is the goal, it is not a time limit, and there is a shared recognition of the specific needs of Latina(x) survivors sometimes exceeding a 45-day stay.

Children residing in shelter will receive assistance attending former or neighborhood school. Emergency shelter programs must provide a place to stay 24 hours/day, 365 days a year. Short closures of up to 14 days a year are allowed for deep cleaning, staff training and major repairs and maintenance.

All shelter programs will be connected with housing navigation and placement services, long-term supportive housing case management, and rental assistance to connect participants with and help maintain permanent housing. The HST will facilitate connections, as needed.

On-site amenities must include, but are not limited to:

- access to telephone, computer and internet
- toilets, showers and hygiene supplies
- laundry facilities
- Storage for belongings
- On-site enrichment classes for survivors and their families

Services offered must include, but are not limited to:

- Intake assessment
- Housing first aid/shelter diversion
- If not already completed, complete CHA assessment with each participant within 3 days of move-in
- Assist with or refer for DV-related tasks such as protective orders
- Establishing a safety plan with each participant
- Work with each participant to obtain appropriate documents to access housing, employment, and other needed services, considering the needs of immigrant populations
- DV and housing advocacy
- Individualized resource referral and connection, including mental and physical health, as needed
- Housing Navigation, including:
 - o Assessment of housing barriers, needs and preferences.
 - Support and flexible funds to address immediate housing barriers.
 - o Assistance responding to program requirements to secure long term rent assistance, when appropriate
 - Housing search assistance, including researching available units, contacting landlords, accompanying participants on apartment tours, etc.
 - o Landlord engagement, establishing relationships with landlords to facilitate participant placement.

• Assistance with housing application preparation, housing application appeals and reasonable accommodation requests necessary to obtain housing.

In addition to the above, Contractor agrees to accomplish the above work under the following terms:

- Shelters may not require shelter guests to be clean and sober or pass urinalysis or breath testing. However, shelters may have rules disallowing alcohol or drug possession or use on shelter premises. Additionally, shelters must incorporate harm reduction into their service delivery.
- Shelters may have rules to ensure a safe environment but these rules must be in plain language and as streamlined as possible. Shelter rules must align with Fair Housing law pertaining to emergency shelters.
- Contractor will document and certify eligibility of each adult household member as either Population A or Population B, in accordance with Exhibit F
- Open shelter beds must be accessible on weekends and holidays.
- Facility will be staffed with at least one staff member during business hours and overnight staff and/or security will be provided to ensure the safety of shelter guests.
- Shelters must comply with all relevant health, fire and life safety codes from the local fire marshal and the jurisdiction with permitting authority.
- All uses of flexible funds for client services must adhere to the Clackamas County Supportive Housing Services Flexible Funding Use Guidelines, attached hereto as Exhibit G and incorporated by this reference herein.
- Absent express written approval by HACC, se all Work performed under this Contract must be performed within the Metro jurisdictional boundaries.

EXHIBIT B GUIDING PRINCIPLES AND EXPECTATIONS

Equity:

The Clackamas County Housing Services Team (HST) promotes racial and ethnic justice and seeks to end disparities in housing access. Clackamas County and the HST recognizes that culturally responsive and culturally specific services can eliminate structural barriers and provide a sense of safety and belonging, which will lead to better outcomes. Clackamas County and the HST recognizes that advancing equity also includes having cultural competencies to provide services to other historically marginalized communities such as LGBTQ2SIA+, youth, people with disabilities, and immigrants and refugees. To further equity goals, Contractor must develop/implement the following:

- A plan to ensure culturally responsive service delivery that is respectful of all participants.
- A plan assuring access to services for people who do not speak the primary language of the service provider.
- A process to work with the HST to continuously monitor the demographics of those accessing services using the HMIS (or an HMIS comparable database for domestic violence service providers).
- A quality improvement plan, informed by quantitative and qualitative data analysis, to address evidence of differential access, based on race, ethnicity, disability, gender identity, sexual orientation or other protected class status.
- Ensure that staff and volunteers have knowledge and experience to participate in the effort to increase equity and decrease housing disparities.
- Ensure that staff and volunteers have access to equity and inclusion training on an on-going basis.

Outcomes:

The SHS program is intended to end chronic homelessness in Clackamas County. In addition, HST aims to make homelessness rare, brief, and not reoccurring for all who live in Clackamas County. Programs must work in coordination to ensure housing options are safe, stable, and provide housing choice to meet the needs of each individual. The work of ending racial disparities in housing and ending homelessness is one and the same.

In addition to ending homelessness, Metro-wide outcome goals of the SHS program include:

- Advance housing equity by providing access to services and housing to Black, Indigenous and people of color at higher rates than their representation among those experiencing homelessness.
- House individuals and families, and support housing retention, at greater rates than those newly experiencing homelessness, to reduce the overall population of people experiencing homelessness.
- Reduce the average length of time anyone in Clackamas County experiences homelessness until people are offered housing options immediately upon becoming homeless.
- Strengthen housing retention so that, once stably housed, returns to the experience of homelessness are extremely rare.
- Housing programs promote long-term stability, measured by successful program "graduation" to permanent housing and/or housing retention.
- Increase culturally specific organization capacity with increased investments and expanded organizational reach for culturally specific organizations and programs.
- SHS-funded organizations increase equity by hiring a staff that is diverse by race, ethnicity, languages spoken, sexual orientation, gender identity, disability status, age, and lived experience.
- Increase safety, stability and healing for everyone who has experienced homelessness using person-centered, trauma-informed service approaches and connections with mental and physical healthcare.
- Other measures, as determined by Metro, Tri-County data team, and/or Clackamas County Housing Services Team, will be added.

Coordination:

Partnership and coordination are key components to ending homelessness. A coordinated system makes finding resources easy for potential program participants and allows the entire system to work more smoothly. When done well, a holistic, coordinated approach improves outcomes system-wide.

The following are effective coordination principles and practices that must be followed. When followed, they ensure system-wide coordination:

- Coordinated Housing Access (CHA) must be utilized to effectively coordinate all housing services. It must be easily accessible and allow participants to complete a single assessment to access all services in the housing continuum.
- Demonstrated partnerships, at all levels of programming, between programs and organizations. Partnerships can be demonstrated through formal contracts, MOUs, system-wide planning participation, and providing infrastructure programming in a coordinated way (including outreach, immediate housing, housing navigation, CHA, and Housing First Aid/diversion).
- Build connections and coordinate with multiple systems of care (i.e. housing, workforce, education, foster care, DHS, domestic violence, community justice, health, mental health and addictions) to build a community of resources, easily accessible to all.
- Strengthen system capacity by supporting CHA, Housing First Aid/diversion, outreach and navigation.
- Participate in coordinated system development and implementation, including identifying, addressing, and following-up on unmet needs, gaps in services, and system barriers.

Services:

All services focus on building relationships and service engagement through person-centered, culturally-responsive, trauma-informed, strengths-based practices. Services should align with the Housing First model (see Addendum – Definitions). The purpose of these relationships is to support each household to achieve housing stability through individualized planning and connections with community resources.

To further these services goals, Contractor must follow the following proven practices:

- All services are low-barrier, not requiring pre-requisites to become eligible for services or housing.
- Housing First Aid/Diversion is attempted at every program "door," including Street outreach, all immediate housing programs, and permanent housing programs, when appropriate.
- Households experiencing or at risk of homelessness must be able to move directly into supportive housing and/or permanent housing without first accessing immediate housing programs. Households must also be presented with available immediate housing options.
- Families will be provided with the option to sleep/stay together; Families will not be separated unless they choose to sleep/stay separately.
- Vulnerable populations are prioritized.
- Vulnerable populations include those with long homeless histories, incomes below 30% AMI, and one or more disabilities.
- Due to a long history of systemic racism, oppression, and everyday micro and macro-aggressions, Black, Indigenous, and People of Color are also more vulnerable to the experience of homelessness.
- Services are voluntary, non-intrusive, and provide minimal disruption to meet the expressed needs and desires of the participant.
- Services are highly flexible and tailored to meet the needs of each household.

Participant Voice:

Each individual is the expert in their own life. To build the best system, people with lived experience of homelessness must help to shape the services designed to end homelessness.

Contractor must incorporate the following guidelines into all programs:

- Participants lead development of their own individual service plans.
- Ensure that all services are voluntary and that no participant is required to participate in a particular activity in order to receive services.
- Integrate participant (or those who choose not to participate) in decision-making at every level, including program/service development, delivery, and evaluation.
- People with lived experience, who participate in decision-making and program development, are paid for their time.
- Have written procedures and policies, as well as an accessible and transparent grievance process, that ensure staff and volunteers provide respectful and effective services.

• Board of directors must include at least one person with lived experience of homelessness.

System-wide Service Delivery Expectations (in addition to any items above):

Contractor shall perform the following:

- Participate in the HMIS or, for domestic violence service providers, an HMIS comparable database.
- Provide services free of charge to participants or utilizing a pre-approved sliding scale fee.
- Include sustainable, environmentally friendly practices in business operations and the delivery of services (for example, providing onsite recycling, and encouraging reduction of waste through electronic records whenever possible).
- Confidential information must be protected in compliance with applicable federal, state, and local privacy rules.
- Maintain an effective working relationship. HST will have formal relationships with service providers through contracts, and will also expect contractors to maintain ongoing communication with the HST about programs and performance, and to engage in community planning and training opportunities.
- All services must be delivered in a wholly secular manner, and programs may not require participation in religious activities for program eligibility purposes.
- Have a written termination and/or exclusion policy that appropriately protects the interests of participants by: (1) applying a trauma and equity lens to evaluating rule violations; (2) avoiding termination whenever reasonably possible; (3) informing the participant in clear terms of the reason for their termination and/or exclusion from the program; and (4) outlines the process for grieving the decision. Except in the most extreme situations, termination and exclusion policies should allow for re-entry into the program under appropriate conditions.
- Ensure that staff and volunteers have access to continuing education opportunities.
- Attend training and community/system networking meetings as reasonably required by HST

Note on Area Median Income (AMI): The Department of Housing and Urban Development (HUD) sets AMI limits every year. This form needs to be updated on an annual basis to reflect these changes (usually the new income limits come out in April). HUD develops AMI based on Median Family Income estimates and Fair Market Rent Area Definitions for each metropolitan area. Clackamas County is part of the Portland-Vancouver-Hillsboro, OR-WA MSA metropolitan area. This includes Clackamas, Clark, Columbia, Multnomah, Skamania, Washington & Yamhill Counties.

ADDENDUM: DEFITIONS

Culturally Responsive and Culturally Specific Services

HACC is using definitions of Culturally Responsive and Culturally Specific services developed through a collaborative Metro-wide work group.

Culturally Responsive

Culturally responsive services are general services that have been adapted to honor and align with the beliefs, practices, culture and linguistic needs of diverse consumer / client populations and communities whose members identify as having particular cultural or linguistic affiliations by virtue of their place of birth, ancestry or ethnic origin, religion, preferred language or language spoken at home. Culturally responsive services also refer to services provided in a way that is culturally responsive to the varied and intersecting "biological, social and cultural categories such as gender identity, class, ability, sexual orientation, religion, caste, and other axes of identity." Culturally responsive organizations typically refer to organizations that possess the knowledge and capacity to respond to the issues of diverse, multicultural communities at multiple intervention points. Culturally responsive organizations affirmatively adopt and integrate the cultural and social norms and practices of the communities they serve. These agencies seek to comprehensively address internal power and privilege dynamics throughout their service delivery, personnel practices and leadership structure.

A culturally responsive organization is one that reflects the following characteristics:

• Prioritizes responsivity to the interests of communities experiencing inequities/racism and provides culturally grounded interventions [that] have been designed and developed starting from the values, behaviors, norms, and worldviews of the populations they are intended to serve, and therefore most closely connected to the lived experiences and core cultural constructs of the targeted populations and communities;

• Affirmatively adopts and integrates the cultural and social norms and practices of the communities they serve;

• Addresses power relationships comprehensively throughout its own organization, through both the types of services provided and its human resources practices. A key way of doing this is engaging in critical analysis of the organization's cultural norms, relationships, and structures, and promoting those that support democratic engagement, healing relationships and environments;

• Values and prioritizes relationships with people and communities experiencing inequities universally, paying particular attention to communities experiencing racism and discrimination;

• Commits to continuous quality improvement by tracking and regularly reporting progress, and being deeply responsive to community needs; and

• Strives to eliminate barriers and enhance what is working. Culturally responsive organizations seek to build change through these major domains:

- Organizational commitment, leadership, and governance;
- · Racial equity policies and implementation practice;

- Organizational climate, culture, and communications;
- Service-based equity and relevance;
- Workforce composition and quality;
- Community collaboration;
- · Resource allocation and contracting practices; and
- Data metrics and continuous quality improvement.

Culturally Specific

Culturally specific services are services provided for specific populations based on their particular needs, where the majority of members/clients are reflective of that community, and use language, structures and settings familiar to the culture of the target population to create an environment of belonging and safety in which services are delivered. Culturally specific organizations typically refer to organizations with a majority of members/clients from a particular community. Culturally specific organizations also have a culturally focused organizational identity and environment, a positive track record of successful community engagement, and recognition from the community served as advancing the best interests of that community. Organizations providing Culturally Specific Services reflect the following characteristics:

• Programs are designed and continually shaped by community input to exist without structural, cultural, and linguistic barriers encountered by the community in dominant culture services or organizations AND designed to include structural, cultural and linguistic elements specific to the community's culture which create an environment of accessibility, belonging and safety in which individuals can thrive.

• Organizational leaders, decision-makers and staff have the knowledge, skills, and abilities to work with the community, including but not limited to expertise in language, core cultural constructs and institutions; impact of structural racism, individual racism and intergenerational trauma on the community and individuals; formal and informal relationships with community leaders; expertise in the culture's explicit and implicit social mores. Organizational leaders and decision-makers are engaged in improving overall community well-being, and addressing root causes.

• Intimate knowledge of lived experience of the community, including but not limited to the impact of structural or individual racism or discrimination on the community; knowledge of specific disparities documented in the community and how that influences the structure of their program or service; ability to describe the community's cultural practices, health and safety beliefs/practices, positive cultural identity/pride/resilience, immigration dynamics, religious beliefs, etc., and how their services have been adapted to those cultural norms.

• Provide multiple formal and informal channels for meaningful community engagement, participation and feedback at all levels of the organization (from service complaints to community participation at the leadership and board level). Those channels are constructed within the cultural norms, practices, and beliefs of the community, and affirm the positive cultural identity/pride/resilience of the community. Community participation can and does result in desired change.

• Commitment to a highly skilled and experienced workforce by employing robust recruitment, hiring and leadership development practices including but not limited to valuing and caring for community and/or lived experience; requirements for professional and personal references within the community; training standards professional development opportunities and performance monitoring.

• Commitment to safety and belonging through advocacy; design of services from the norms and worldviews of the community; reflect cultural constructs of the culturally specific community; understand and incorporate shared history; create rich support networks; engage all aspects of community; and address power relationships.

Housing First Principles:

- Few to no programmatic prerequisites to permanent housing entry
- Low barrier admission policies
- Rapid and streamlined entry into housing
- Supportive services are voluntary, but can and should be used to persistently engage tenants to ensure housing stability
- Tenants have full rights, responsibilities, and legal protections
- Practices and policies to prevent lease violations and evictions
- Evictions from housing do not result in termination from the program
