

REQUEST FOR PROPOSALS
FOR ENVIRONMENTAL ENGINEERING SERVICES

Addendum #1

Issue Date: January 22, 2018

It is the sole responsibility of the respondent to note the contents of this Addendum.

Questions from a Potential Responder:

1. Does HACC have a particular environmental consulting firm you have worked with in the past and are considering for this work? No.

2. Can you please confirm that you're only looking for one consultant to work with? Ideally, we will be contracting with one environmental consultant to provide the range of services requested in this RFQ. However, depending on the proposals submitted, we could conceive of a scenario where we decide to contract with a couple smaller firms providing distinct scopes of work/expertise.
