Experience or educational background

I hold a BA in Political Science, and a Certificate in Urban Studies and Planning from Portland State University and a masters in Public Policy. I also sit on the Happy Valley Planning Commission which reviews and approves land use plans for the city that frequently include traffic and safety studies.

Reasons for interest

As a previous candidate for Happy Valley City Council, I frequently heard concerns about traffic and safety from neighbors. As one of Oregon's fastest-growing cities, these issues are paramount. Residents worry about the impact of growth on traffic. With Happy Valley poised to grow by 1,000 residents a year, congestion and safety is something I want to be a part of solving in our plan for the future.

Specific experience area

N/A

Community interests (committees, organizations, activities)

I am part of the Leadership Cohort for the Sunrise Corridor Development Project, a transformative initiative aimed at alleviating traffic congestion and fostering economic and community development along the HWY 212 corridor in Clackamas. Happy Valley borders five cities all with diverse needs. Each faces unique challenges, I am interested in joining an advisory boards that strive to find solutions benefiting all the cities in the county.

Other county boards or commissions:

Chair - Happy Valley Planning Commission Board Member Happy Valley Parks and Recreation Foundation
