BACKGROUND:

In 2011, the County and the Oregon Department of Transportation (ODOT) entered into a memorandum of understanding which expressed a commitment to partnering on the

development and construction of the Sunrise Expressway, which was to be a state highway under the jurisdiction and control of the Oregon Transportation Commission. Funds appropriated under the Oregon Jobs and Transportation Act funded construction of the first phase of the larger Sunrise Corridor project. The first phase of the Sunrise Corridor project was intended to reduce congestion, increase safety, and improve economic development opportunities and freight mobility in the Oregon 212/224 corridor by constructing a new road from I-205 and the Milwaukie Expressway to 122nd Avenue, and some local roadway connections serving the Lawnfield Industrial District, including an extension of Minuteman Way from Mather Road to Lawnfield Road. The project also included improvements to the I-205 Multi-Use Path within the project area. Phase 1 of the Sunrise Expressway was substantially complete and open to the travelling public on July 1, 2016.

In order to facilitate the development and construction of Phase I of the Sunrise Expressway, the parties acknowledged the need and desire to contribute various real property interests towards completion of the project. Although Phase I of the Sunrise Expressway has been open and operational for over 6 years, the parties have yet to formalize the transfer of various properties currently utilized in the project. The attached intergovernmental agreement will facilitate the final transfer of these various real property interests.

The properties subject to transfer under the agreement are described and illustrated in Exhibits 1-6 of the agreement. A summary of the various transfers is set out in the table below:

All land conveyances described in the agreement are being performed at no cost to any party and will require subsequent documentation to finalize such transactions. ODOT has agreed that both the County and the Development Agency will receive full acknowledgement for the dollar value of the property conveyed to ODOT as part of their local match or local contribution towards the project and future phases of the Sunrise Corridor system of improvements.

Approval of the Board Order attached to this report would authorize the Chair, on behalf of the Development Agency Board, to execute the Property Agreement described herein. All conditions on the transfer of the real property interests subject to the agreement are described in the provisions of the Transfer Agreement. Therefore, staff is recommending that the Board delegate authority to the Chair to execute the final deeds and easements that will be drafted and that will implement and accomplish the purpose of the real property transfers described in the Property Agreement.

RECOMMENDATION:

Staff recommends the Board adopt the attached order, which authorizes the following:

- the Property Agreement by and between ODOT, Clackamas County, and the Clackamas County Development Agency, in the form attached to this staff report; and
- the Board Chair to execute those deeds and easements necessary to implement and accomplish the purpose of the real property transfers described in the Property Agreement, in the name of, and on behalf of, the Development Agency.

All transfers and conveyances of property interests or other rights pursuant to this Agreement will be by separate instrument or deed, duly recorded, and with notice to the Federal Highway Administration (FHWA).

NOW THEREFORE, the premises being in general as stated in the foregoing Recitals, it is agreed by and between the Parties hereto as follows:

The conveyance shall be further subject to the terms in Section 12. C. 3. c., and the following:

 3. County / CCDA shall be responsible for notification to DEQ a minimum of 10 days prior to conveyance (Exception 21 & 22).
5. If new title exceptions are added between the effective date of this Agreement and date of closing, CCDA agrees to clear any exceptions not satisfactory to ODOT within 30 days of written request by ODOT. The Parties understand that this Agreement covers only the Project Properties described in Exhibits 1-6 and does not authorize or convey any right to any Party to use any additional property outside of the Project Properties, without the other Party's prior written consent and approval. The terms and conditions of any Party's use or occupancy of any property apart from Project Properties will be addressed by separate agreement(s).
6. The Parties understand that the Project Properties must not be used for any purpose other than as stated in this Agreement. Breach of this provision through unauthorized use may result in the revocation of any applicable permission specified in the transfer documents entered into as a result of this Agreement and reversion of property interests conveyed under subsequent instruments.
7. The County and CCDA will receive full acknowledgement of the dollar value of all property interests conveyed to ODOT towards their local match or local contribution to the Project. The Parties acknowledge that the dollar value of the properties conveyed to ODOT by the County and the CCDA is \$17,880,673 as provided in Attachment A.
8. The Parties agree that the acknowledged value of property contributed by the County and the CCDA toward the Project exceeds what would be expected as the local match or local contribution percentages for the Project. Additionally, certain parcels of real property that

have been devoted to the current phase of the Project are also necessary for future phases of the Project. Specifically, in this agreement Parcel 4 of File 7436-051 (See Exhibit 1) and Parcels 1 and 2 of File 7436-051A (See Exhibit 2) are encumbered for both current and future phases of the Project. Accordingly, the Parties agree that to the extent possible, the County and CCDA will receive acknowledgement of these local contributions during funding applications for any future phases of the Sunrise Corridor system of improvements. Any real property values associated with future phases of the Project will be assessed at the time of actual construction of those phases. Parcel 4 of File 7436-051 (See Exhibit 1) and Parcels 1 and 2 of File 7436-051A (See Exhibit 2) will be valued at a minimum of \$4,154,081, which represents the current values of those parcels.

9. The Parties hereto agree that if any term or provision of this Agreement is declared by a court of competent jurisdiction to be invalid, unenforceable, illegal or in conflict with any law, the validity of the remaining terms and provisions shall not be affected and the rights and obligations of the Parties shall be construed and enforced as if the Agreement did not contain the particular term or provision held to be invalid.
10. The Parties agree that if the CCDA is terminated or ceases to exist, any reversionary interests in property subject to this Agreement shall be transferred to, and become the property of, the County, and the County shall assume the rights and responsibilities of CCDA hereunder.
11. Any indemnification of any party by ODOT, the County or CCDA in this agreement or any of the resulting agreements, deeds, easements, or grants, shall be limited as required by Article XI sections 7 and 10 of the Oregon Constitution and the Oregon Tort Claims Act.
12. The Parties agree that the property transactions will take place under the following terms and through subsequent documents, as applicable:

Grantor reserves the right to cross beneath the highway structure, but not onto the highway, at approximate station "SR1" 542+10 on the parcel herein conveyed, to serve remaining property on both sides of the highway so long as the remaining land on both sides of the highway remains in common ownership, of Clackamas County, Clackamas County Development Agency or other public agency. Grantor shall be liable for any damage to the highway structure incurred as a result of the exercise of this crossing right.
 - b. The rights to cross shall be limited to transit use of access road, streetcar test track, overhead electrical wires, storm water facilities and permission to affix overhead electrical wires to ODOT structure (subject to ODOT engineering review and approval) and specifically prohibit parking, storage, or any other use of the property by the grantor. Except that parking of vehicles during a period of loading or unloading shall be permitted; provided that vehicles are manned at all times; and provided further that no cargo of explosives, inflammables, or products giving off noxious fumes, odors, or vapors shall be permitted on, under, or across the highway right of way.

2. CCDA shall grant ODOT a permanent easement for retaining wall purposes (1,324 sf more or less), 5 feet in front of retaining wall along Tenant's test track, shown as Parcel 5 of File 7436-051 (see Exhibit 1).

Construction was completed July 1, 2016.
 - a. All work in this area shall be consistent with covenants, servitudes, or other obligations to the Oregon Department of Environmental Quality (DEQ) or the U.S. Environmental Protection Agency (EPA) as set out in the documents described and duly recorded with the transfer of this property to ODOT: (1) Memorandum of Lien Waiver & Easement and Equitable Servitude; (2) Soil Cap Management and Maintenance Plan; (3) Waste Management Plan; and (4) Health and Safety Restrictions for the Northwest Pipe & Casing Site.
 - b. ODOT's duty to indemnify CCDA and the County specifically includes, but is not limited to, any damage caused by hydraulic oil, fuel, oversized rock, construction debris or garbage. ODOT shall keep the parcel and work area fenced at all times it is in use for the Project so as to maintain separation from the Oregon Iron Works site. Upon completion of construction ODOT shall coordinate with the County to determine appropriate remediation of the work area. All construction work is complete and remediation of work area, if any, has been coordinated with County and completed.
5. County shall transfer to ODOT by quit claim deed all property interests for road or right of way purposes to a portion of Mather Road (0.44 acres more or less) shown as Parcel 3 of File 7436-104 (see Exhibit 3), together with all abutter's rights of access, if any, between the Sunrise Expressway and Grantor's remaining property.

ODOT's conveyance to the County must include a reversionary interest in ODOT in the event that the property is ever used for other than public road purposes because highway trust funds were utilized for the purchase. "Public road purposes" includes necessary drainage and wetland buffers for roads required by regulatory agencies. Alternatively, County can reimburse ODOT for the value of the property no longer used for public road purposes.

Such determination will be made by the Clackamas County Board of Commissioners, the Oregon Transportation Commission, and the Metro Council no earlier than 10 years and no later than 20 years from the date of substantial completion of the Project, July 1, 2016.
 - b. Total area of parcels 3 and 4 is 22.22 acres more or less. The County and the CCDA shall retain all rights to the development density associated with parcels 3 and 4.
