**EXECUTIVE SUMMARY:**

In December 2024, the Board approved Policy # FIN-1.100. The policy allows the Board to set rates annually, including adjustments in accordance with the Consumer Price Index (CPI) West Region Size A.

In an April 1, 2025, Policy Session, the Board approved the following modifications to the Department of Transportation and Development’s (DTD’s) *Building Codes Division* and *Plumbing* fee schedules:

- **Increasing the minimum permit fee and hourly rate from \$85 to \$120.** Clackamas County has not increased permit fees since 2010, and the one-time adjustment to the minimum fee and hourly rate will offset inflationary increases in program costs over this 15-year window. In reviewing comparable jurisdictions in the Portland metro area, the minimum permit fee and hourly rates range from \$117 (City of Gresham) to \$195 (Washington County), keeping the County’s minimum permit fee and hourly rate consistent or below other comparable jurisdictions, while providing adequate revenue to maintain service levels for our customers.
- **Applying the annual CPI Adjustment policy to the DTD – Building Codes Division and DTD – Plumbing fee schedules beginning July 1, 2026.** DTD will round the adjusted fees down to the nearest \$0.25 or \$1.00, to reduce administrative requirements and cash handling complexities.

For Filing Use Only

- **Adoption of the \$75 minor label inspection fee, mandated by the State's minor label program in accordance with OAR 918-100-0060(2)(a).**
- **Housekeeping changes as noted in the provided fee schedule.**

**Building Codes Process:**

Under ORS 455.148 and OAR chapter 918, division 20, the State Building Codes Division holds the authority to delegate building code programs to local municipalities. With this delegation, building code programs must follow additional rules and requirements when seeking to modify fees and fines.

In accordance with ORS 455.210 and OAR 918-020-0220, DTD staff notified the State Building Codes Division at least 45 calendar days before the adoptive date of the modifications and published a notice of this Public Hearing. Today's Public Hearing meets the requirement that the public be afforded an opportunity to comment on fee modifications.

Following today's Public Hearing, staff are seeking approval to include these fee modifications in the master fee schedule adopted as part of the annual budget process, to be effective July 1, 2025.

**RECOMMENDATION:**

Staff respectfully recommends that the Board direct staff to include the approved *DTD – Building Codes Division* and *DTD – Plumbing* fee modifications in the master fee schedule to be adopted as part of the annual budget process.

Respectfully submitted,

*Dan Johnson*

Dan Johnson, Director  
Department of Transportation and Development
