May, 2007

Dear Clackamas County Voter:

This Voters' Pamphlet contains information designed to assist you in voting: candidates' statements, ballot titles, explanatory statements and arguments pertaining to twelve local measures that appear on the May 15, 2007 Special Election ballot in Clackamas County. Please remember, in order to vote on a certain measure, you must be a resident of the city that has placed the measure on the ballot.

You will also find statements from the candidates whose names appear on the Official Ballot. However, since all candidates did not purchase space in the pamphlet, it is possible that candidates listed on the ballot do not appear in the Voters' Pamphlet.

A complete list of candidates vying for special district offices begins on page 65. You will not vote on everything that appears in this pamphlet, only those candidates or measures that appear on the Official Ballot contained in your vote-by-mail packet.

Your voted ballot must be received in the Elections Office, 825 Portland Avenue, Gladstone, OR 97027 by 8:00 p.m. on election night in order to be counted. The postmark does NOT count! If you prefer, instead of mailing your ballot, you may take it to one of the official ballot drop sites listed on page 71 of this pamphlet. Drop boxes will be available at these locations during regular business hours beginning April 28 and extending until 8:00 p.m. on Tuesday, May 15, 2007.

If a ballot was delivered to your residence for someone who should no longer be receiving ballots at your address, please write "RETURN" on the envelope and place it back in your mailbox. If a ballot was sent to someone who is deceased, please write "DECEASED" on the envelope and place it back in your mailbox.

If you need assistance voting or have any questions about this particular election or the election process, please call the Elections Division at 503.655.8510.

Sincerely,

A handwritten signature in cursive script that reads "Sherry Hall".

VOTING: IT'S AS EASY AS 1-2-3

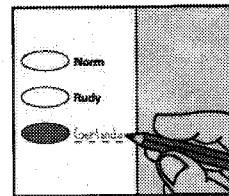

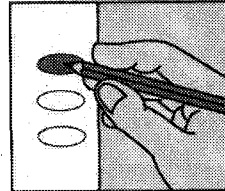

[Instructions for Completing Your Ballot]

1 Examine your Official Ballot

Locate the candidate or measure response (YES or NO) of your choice for each contest. To vote, you must completely darken the oval to the left of the response of your choice with pencil or black or blue ink pen.

To vote for a write-in candidate, one whose name does **not** appear on the Official Ballot, completely darken the oval to the **left** of the solid line provided for the office and write the full name of the candidate on that line.

Remember: If you vote for more than the number of candidates allowed for an office, or vote both YES and NO on a measure, it is called an overvote, and your vote for that office or measure will not be counted.

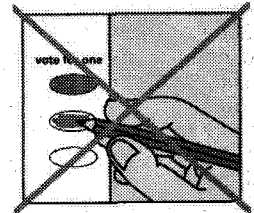

2 Review your Official Ballot

Ensure you have correctly marked your choice for each contest. Your Official Ballot **may** contain contests printed on both front and back.

Remember to vote both sides!

If you make an error on your ballot, spoil it in any way or lose it, contact the Clackamas County Elections Division at 503.655.8510 (or for TTY, 503.655.1685) to request a replacement.

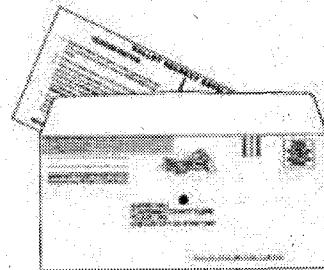

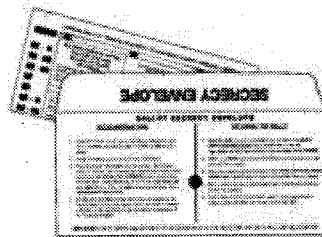

3 Return your Official Ballot

Place **ONLY YOUR** voted Official Ballot in the ballot secrecy envelope and seal the envelope.

Place the sealed secrecy envelope in the return identification envelope and seal it.

Remember: Read and sign the Voter's Statement on the return identification envelope. Your ballot will not be counted if the return identification envelope is not signed.

By mail:

- Attach sufficient first-class postage to the **signed** and sealed return identification envelope. Mail it as soon as possible to arrive at the Clackamas County Elections Division no later than 8:00 p.m. on Tuesday, May 15, 2007.

Remember: the postmark does not count!

In person:

- Deliver the **signed** and sealed return identification envelope to any official drop site (see list on Page 71) no later than 8:00 p.m. on Tuesday, May 15, 2007.

Postage is NOT required if delivered to an official ballot drop site!

City of Canby

Measure 3-261**Ballot Title****MEASURE APPROVING ANNEXATION OF 32.62 ACRES INTO CITY OF CANBY**

QUESTION: Shall 32.62 acres located at 23849 S Mulino Road, north of Township Road, be annexed into Canby?

SUMMARY: Annexation is the legal process to bring property into the City limits. The Parsons Family Trust has filed an application as the owners of a 32.62 acre parcel, asking the City to bring it into the Canby City limits. The legal description of the property is Tax Lots 2400 and 3100 of Tax Map 3-1E-34. The parcel is located at 23849 S. Mulino Road, north of Township Road, in Southeast Canby. This application has previously been approved by the City Council following a public hearing on February 7, 2007. The property currently contains a residence and several outbuildings. It is currently zoned Exclusive Farm Use (EFU) by Clackamas County. The City's Zoning Map designates the property for Light Industrial (M-1) zoning upon annexation. Any future development requires City review and must comply with land use laws.

EXPLANATORY STATEMENT

This measure would approve the annexation of 32.62 acres into the city limits of the City of Canby. The property which would be included within the City boundaries is known as Tax Lots 2400 and 3100 of Tax Map 3-1E-34 and is located at 23849 S. Mulino Road, north of Township Road, in the southeast part of the City. Tax Lots 2400 and 3100 are currently zoned Exclusive Farm Use (EFU) under County zoning. If annexation into the City is approved by the voters, the parcels would be rezoned to M-1, Light Industrial, as required under the City's Comprehensive Land Use Plan (Comp Plan) and Zoning Map.

Tax Lots 2400 and 3100 are owned by the Parsons Family Trust. The Trust has filed an application for annexation into the City of Canby. The City, following its Charter, has put this matter before the voters for approval.

The parcel is located at 23849 S. Mulino Road, north of Township Road, in Southeast Canby. The property currently contains one single family residence and several outbuildings. Adjacent properties to the north and a portion of the properties to the west are within current city limits. Adjacent properties to the south and a portion of the properties to the west are located outside the current city limits. Properties to the east are located outside the City's Urban Growth Boundary. Properties to the north and west are zoned for Light Industrial development. Property to the south is outside the city limits, but is within Canby's Urban Growth Boundary and would be zoned Light Industrial upon annexation. The applicant proposes to market the property as Light Industrial as part of the Pioneer Industrial Park designation. Annexation alone does not set the future uses to be built on the property. Any further development would have to comply with state and local land use laws and would be subject to public review.

The Canby Comp Plan also designates properties for annexation as Priority "A", "B" or "C". Priority "A" properties shall generally be annexed prior to those areas shown as Priority "B" which, in turn, shall generally be annexed prior to those areas shown as Priority "C". The property is priority "C". The Canby Planning Commission unanimously voted to approve the application and the Canby City Council also unanimously voted to approve the application and refer it to a vote of the Canby electorate.

Measure 3-262**Ballot Title****MEASURE APPROVING ANNEXATION OF 1.95 ACRES INTO CITY OF CANBY**

QUESTION: Shall 1.95 acres located at 1401 S Fir Street be annexed into Canby?

SUMMARY: Annexation is the legal process to bring property into the City limits. Nick and Jamie Netter have filed an application on behalf of Todd and Theresa Snelson, the owners of a 1.95 acre parcel, asking the City to bring it into the Canby City limits. The legal description of the property is Tax Lot 1301 of Tax Map 4-1E-4CA. The parcel is located at 1401 S Fir Street in Canby. This application has previously been approved by the City Council following a public hearing on February 7, 2007. The property currently contains one single family residence and three outbuildings. It is currently zoned Exclusive Farm Use (EFU) by Clackamas County. The City's Zoning Map designates the property for Medium Density Residential (R-1.5) zoning upon annexation. Any future development requires City review and must comply with land use laws.

EXPLANATORY STATEMENT

This measure would approve the annexation of 1.95 acres into the city limits of the City of Canby. The property which would be included within the City boundaries is known as Tax Lot 1301 of Tax Map 4-1E-4CA and is located generally in the southwest part of the City. Tax Lot 1301 is currently zoned Exclusive Farm Use (EFU) under County zoning. If annexation into the City is approved by the voters, the parcel would be rezoned to R-1.5, Medium Density Residential, as required under the City's Comprehensive Land Use Plan (Comp Plan) and Zoning Map.

Tax Lot 1301 is owned by Todd and Theresa Snelson. Nick and Jamie Netter have filed an application, on behalf of the Snelsons, for annexation into the City of Canby. The City, following its Charter, has put this matter before the voters for approval.

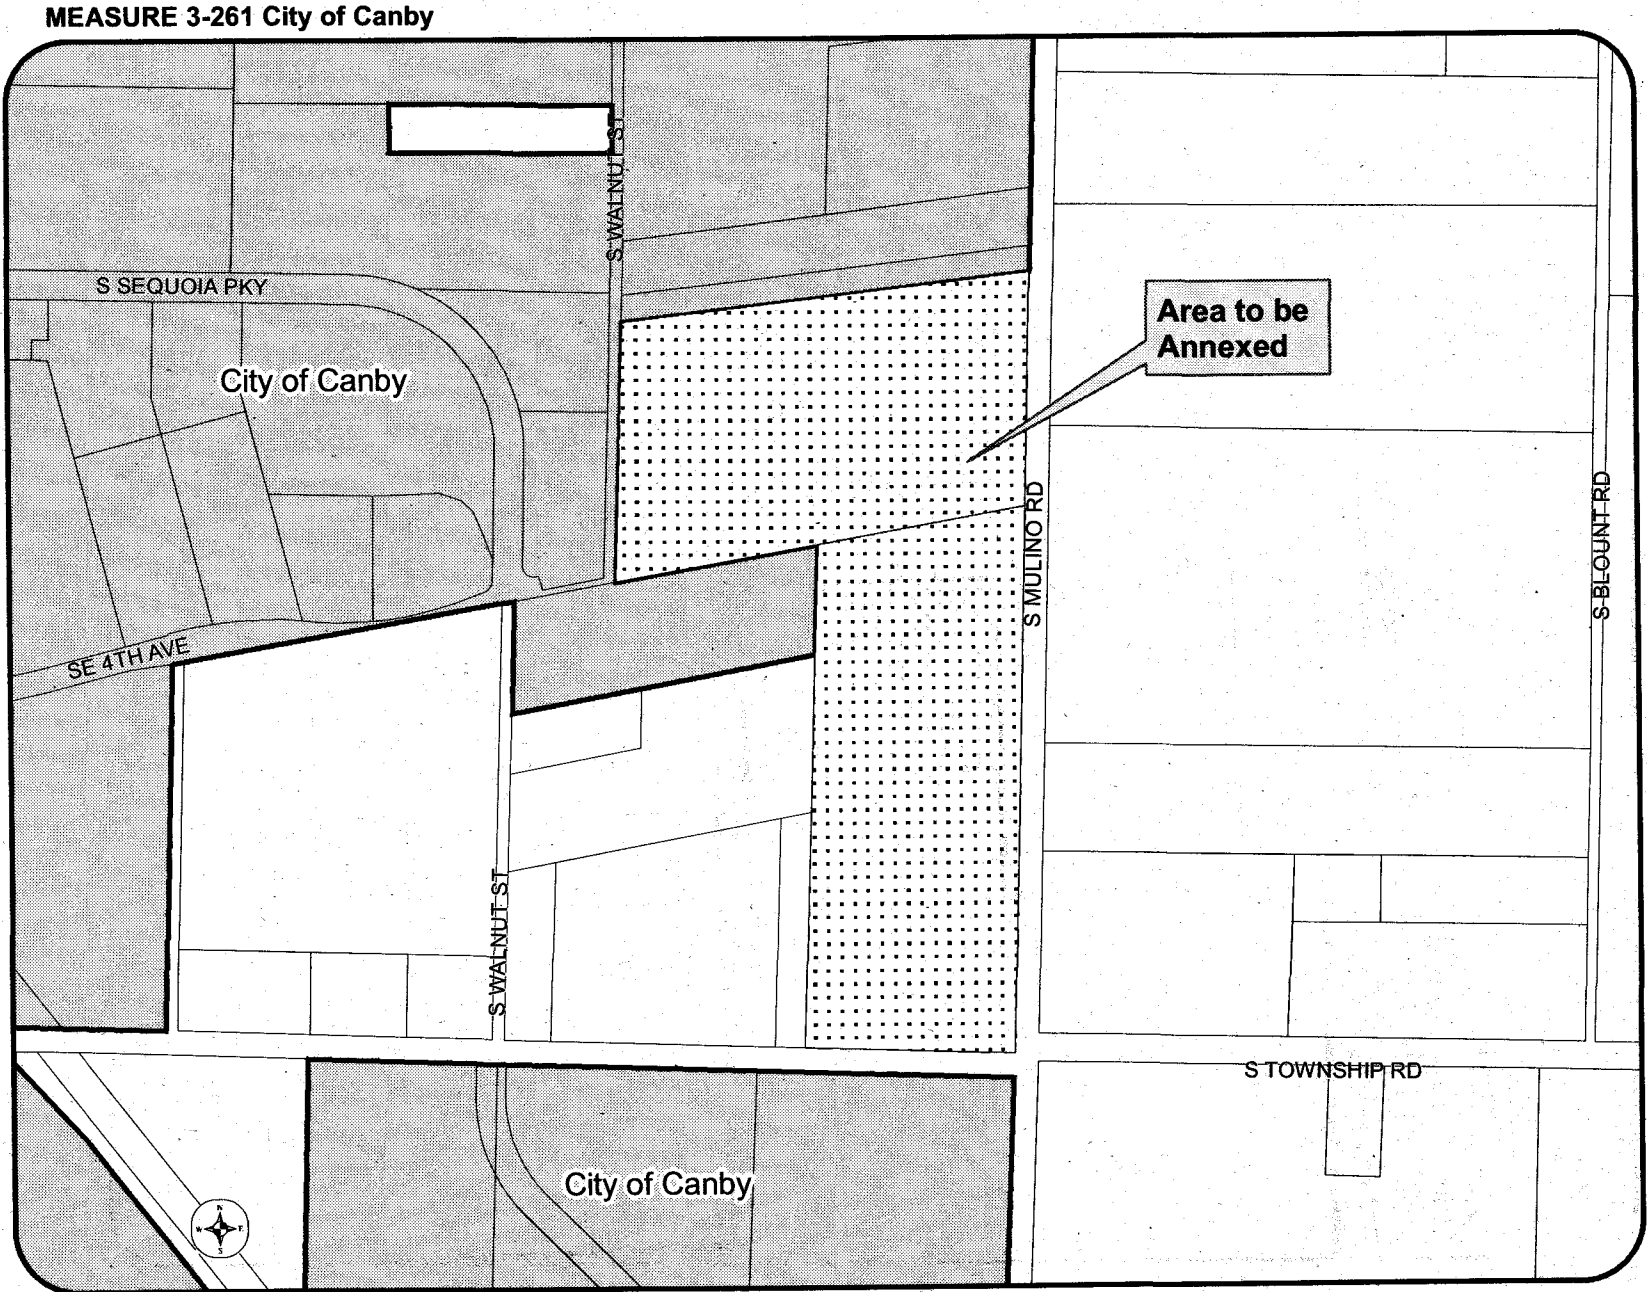

The parcel is located at 1401 S Fir Street, south of SW 13th Avenue, near Hope Village. The property currently contains one single family residence and three outbuildings. Adjacent properties to the north, west and east are within current city limits. Adjacent properties to the south are located outside the current city limits. Properties to the north (Sequoia Place) and east (Hope Village) are zoned for Medium Density Residential. Property to the west is zoned Low Density Residential, while property to the south is outside the city limits, it is within Canby's Urban Growth Boundary and would be zoned Medium Density Residential upon annexation. Under the R-1.5 zoning regulations, the applicant proposes to construct 12 single family residences. Annexation alone does not set the future uses to be built on the property. Any further development would have to comply with state and local land use laws and would be subject to public review.

The Canby Comp Plan also designates properties for annexation as Priority "A", "B" or "C". Priority "A" properties shall generally be annexed prior to those areas shown as Priority "B" which, in turn, shall generally be annexed prior to those areas shown as Priority "C". The property is priority "A". The Canby Planning Commission unanimously voted to approve the application and the Canby City Council unanimously voted to approve the application and refer it to a vote of the Canby electorate.

ANNEXATION OF 10 ACRES INTO THE ESTACADA CITY LIMITS

QUESTION: Shall 10 acres located east of the Coupland Road/Cemetery Road intersection be annexed into the City of Estacada?

SUMMARY: Approval of this measure would bring into the Estacada city limits 10 acres located approximately 600' off the north side of Coupland Road, approximately 1/4 mile east of the Coupland Road/Cemetery Road intersection. This annexation was requested by landowner petition.

Property to be annexed must touch existing city limits, and there must be adequate city services such as schools, water, and roads to serve the property. The Estacada City Council has determined that these requirements are met, and submits the question of annexation of the territory to the voters as required by the Estacada City Charter. If annexed, the described property will become subject to the City's permanent property tax rate limit and will be eligible to receive services from the City.

EXPLANATORY STATEMENT

This ballot measure is a proposed annexation measure being submitted to the voters of the City of Estacada at this election.

Annexation is the procedure used to add land to the corporate boundaries of a city. Approval of an annexation measure will bring that property within the City limits. Once the land is annexed, the annexed territory is subject to the City's permanent property tax rate, and becomes eligible to receive city services.

As required by the Estacada City Charter, the City Council must submit to the voters any proposals for annexation of territory into the City. It is proposed that the following property be annexed to the City:

10 acres located approximately 600' off the north side of Coupland Road, approximately 1/4 miles east of the Coupland Road/Cemetery Road intersection.

This annexation was requested by landowner petition. The Estacada City Council has determined that the petition meets the City Code requirements for annexation. This property is within the City's urban growth boundary and is contiguous to property already within the City limits. Clackamas County currently zones the property R-5. If annexed into the city, the property will be zoned R-1, Low Density Residential, in accordance with the City Comprehensive Plan.

REGISTERING TO VOTE

[SOME FREQUENTLY-ASKED QUESTIONS]

WHO MAY REGISTER TO VOTE?

Anyone who is:

- ★ A resident of Oregon;
- ★ A United States citizen; and
- ★ 18 years of age or older.

HOW MAY I REGISTER?

By mail-in registration form or in person at any county elections office or at a designated state agency, including the Department of Motor Vehicles and some public assistance agencies.

WHEN MAY I REGISTER & WHAT IS THE REGISTRATION DEADLINE?

You may register at any time. However, your voter registration form must be received or postmarked no later than the 21st day before the election at which you intend to vote.

WHERE CAN I FIND VOTER REGISTRATION FORMS?

Post offices, public libraries, city halls, schools, the DMV, and Clackamas County Elections, 825 Portland Avenue in Gladstone. You can download and print a form in PDF format from the Secretary of State's web site at the Oregon Voter Registration link, which can be found at <http://www.oregonvotes.org>

WHAT INFORMATION IS REQUIRED?

In October 2002, the "Help America Vote Act" was signed into law. The Act changes voter registration requirements nationwide for voting in federal elections. If you are registering to vote in Oregon for the first time, you must provide an Oregon Driver's License / ID. If you do not have a valid ODL / ID, the last four digits of your Social Security number must be provided.

If you do not have a valid Oregon Driver's License / ID or a Social Security number, you must affirm this by marking the appropriate box on the registration form. If you are registering by mail, you must provide a **copy** of one of the following: a valid photo identification, a copy of a paycheck stub, utility bill, bank statement or other government document showing the registrant's name and address.

If sufficient documentation is not provided at the time of registration, it will be requested by elections officials in order for the person to vote at the next federal election. When filling out the registration card, you must furnish your full name, residence address (and mailing address, if different), ODL or Oregon ID, date of birth, political party preference, and signature. Your residence address must be the physical address where you reside - not a post office box.

DO I HAVE TO RE-REGISTER FOR EACH ELECTION?

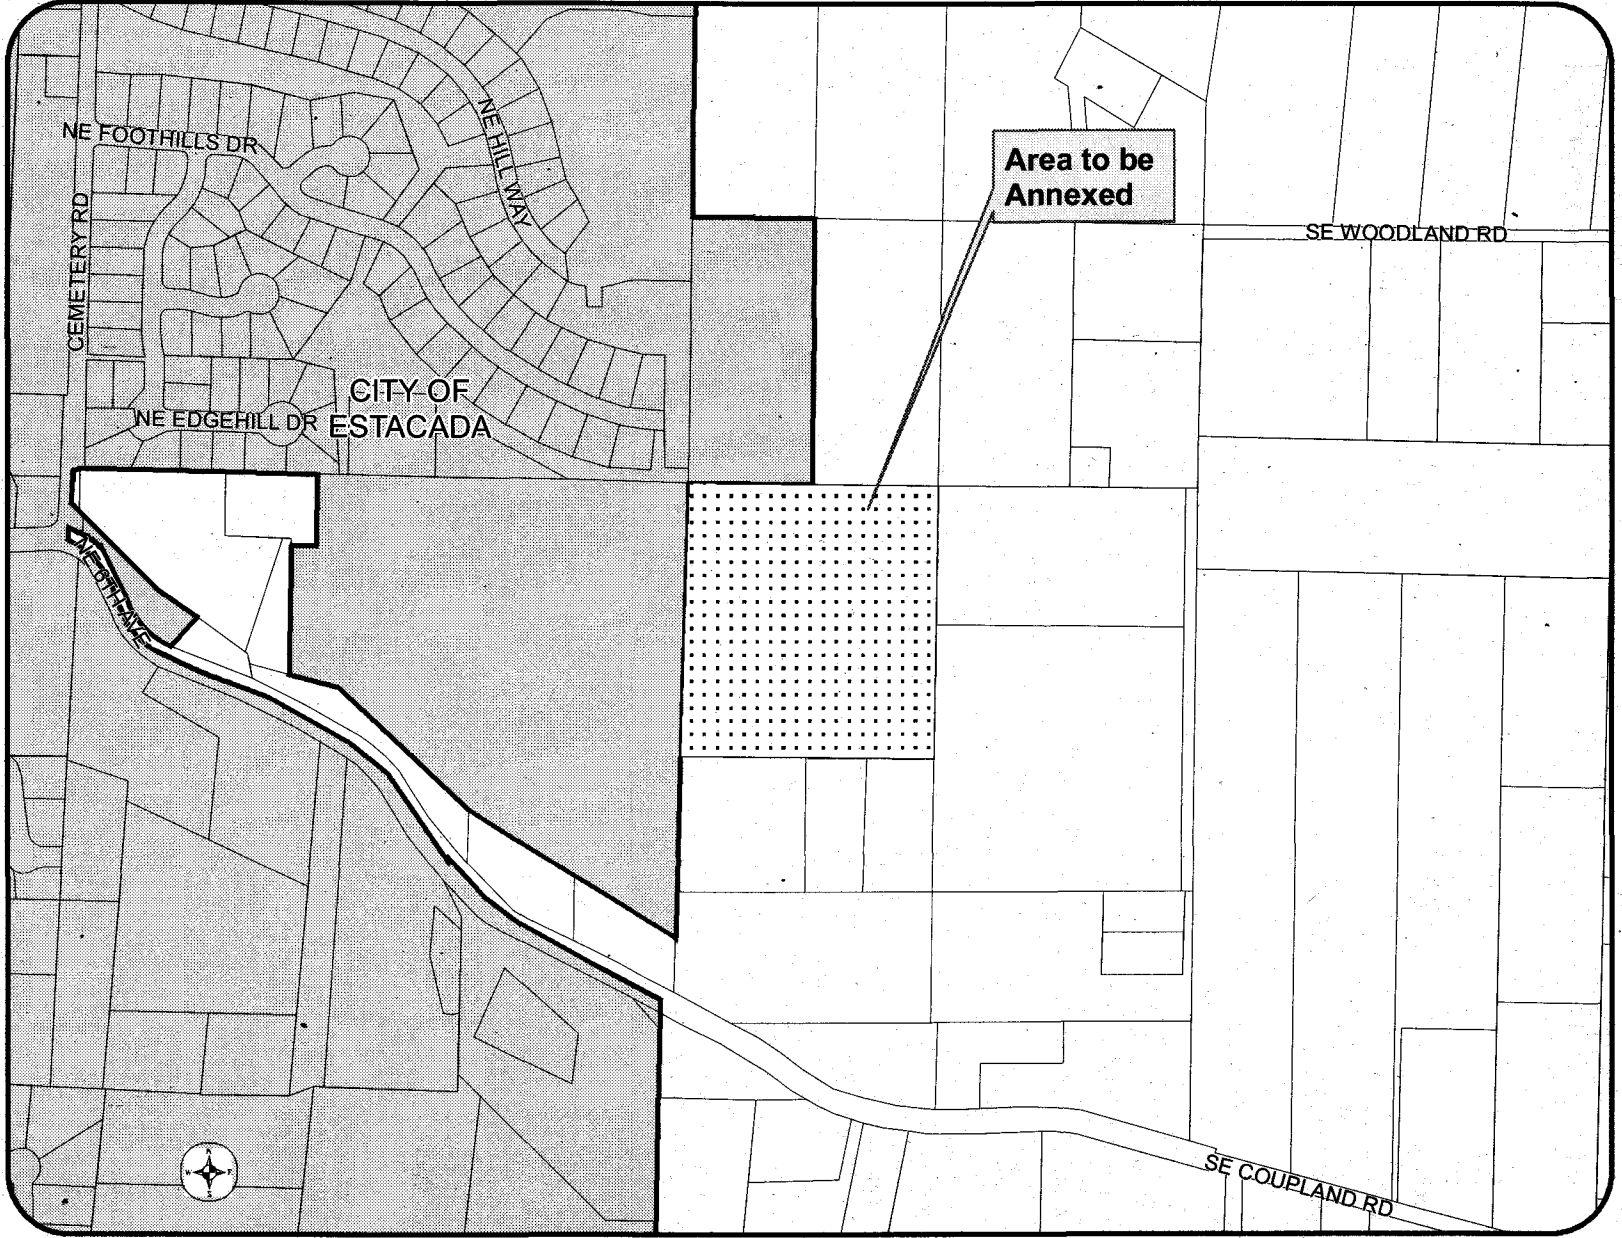

No. You only need to update your registration when your residence (even moving to a different apartment within a complex) or mailing address changes; your name changes; or you wish to change your political party affiliation.

WHAT IF I TURN 18 AFTER THE REGISTRATION DEADLINE?

If you will be 18 years of age by election day, you must register no later than the 21st day prior to the election to be eligible to vote in that election.

EXPANDS OREGON CITY BOUNDARIES TO INCLUDE ADDITIONAL LAND

QUESTION: Shall the City's boundaries include 27 acres of additional land on the south central edge of the City?

SUMMARY: A 27-acre set of parcels comprised of twenty-seven (27) tax lots located on Thayer, Beaver Creek and Maplelane Roads. Some properties are being forced by the "double majority" rule to annex. The proposal was submitted to allow connection to city services for existing and future homes. The property contains 22 dwellings with 35 residents, currently zoned FU-10 "Future Urbanizable", and located within the City's UGB. The County's "Oregon City Area Land Use Plan" designates the property Low Density Residential. The City Commission has concluded that it meets all state, regional and City requirements for annexation into the City and services can be adequately provided to the property. If this annexation is approved, the properties will be withdrawn from the Clackamas County's Service District for Enhanced Law Enforcement and Fire District #1 and the City will be responsible for police and fire services.

EXPLANATORY STATEMENT

This measure would expand the City's boundaries by approximately 27 acres by including within the City property described as follows:

A 27-acre set of parcels comprised of twenty-seven (27) tax lots located on Thayer, Beaver Creek and Maplelane Roads consisting of Tax Lots 300-302, 400, 600-601, and 700-1400 (by 100) in the SW 1/4 of SE 1/4 of Section 4 (4DC); Tax Lot 3300 in the SE 1/4 of SW 1/4 of Section 4 (4CD); and Tax Lots 500, 501, 600, 700, 800, 1000, 1301, 1400-1401, 1601-1602, 1700, 1801, and 1900 in the NW 1/4 of NE 1/4 of Section 9 (9AB); T3S R2E; W.M., Clackamas County, Oregon. Some properties are being forced by the "double majority" rule to annex.

The proposal was submitted to allow connection to city services for existing and future homes. The property contains 22 dwellings with 35 residents, currently zoned FU-10 "Future Urbanizable", and located within the City's UGB. The County's "Oregon City Area Land Use Plan" designates the property Low Density Residential. The City Commission has concluded that it meets all state, regional and City requirements for annexation into the City and services can be adequately provided to the property.

If this annexation is approved, the properties will be withdrawn from the Clackamas County's Service District for Enhanced Law Enforcement and Fire District #1 and the City will be responsible for police and fire services.

The City Charter requires voter approval of all annexations. A map showing the parcels accompanies this explanatory statement.

EXPANDS OREGON CITY BOUNDARIES TO INCLUDE ADDITIONAL LAND

QUESTION: Shall the City's boundaries include 16 acres of additional land on the south central side of the City?

SUMMARY: A 16-acre set of parcels comprised of eight (8) tax lots located on Pease and McCord Roads. Some properties are being forced by the "double majority" rule to annex. The proposal was submitted to allow connection to city services for existing and future homes. The property contains 5 dwellings with 11 residents, currently zoned FU-10 "Future Urbanizable", and located within the City's UGB. The County's "Oregon City Area Land Use Plan" designates the property Low Density Residential. The City Commission has concluded that it meets all state, regional and City requirements for annexation into the City and services can be adequately provided to the property. If this annexation is approved, the properties will be withdrawn from the Clackamas County's Service District for Enhanced Law Enforcement and Fire District #1 and the City will be responsible for police and fire services.

EXPLANATORY STATEMENT

This measure would expand the City's boundaries by approximately 16 acres by including within the City property described as follows:

A 16-acre set of parcels comprised of eight (8) tax lots located in the south central side of the City on both sides of Pease Road and on one side of McCord Road consisting of Tax Lot 1700, in the SW 1/4 of NE 1/4 of Section 7 (7AC); Tax Lot 6700 in the NE 1/4 of NW 1/4 of Section 7 (7BA); and Tax Lots 3600, 3601, 3602, 3700, 3800, and 3900 in the NW 1/4 of Section 7 (7B); T3S R2E; W.M., Clackamas County, Oregon.

The proposal was submitted to allow connection to city services for existing and future homes. The property contains 5 dwellings with 11 residents, currently zoned FU-10 "Future Urbanizable", and located within the City's UGB. The County's "Oregon City Area Land Use Plan" designates the property Low Density Residential. The City Commission has concluded that it meets all state, regional and City requirements for annexation into the City and services can be adequately provided to the property.

If this annexation is approved, the properties will be withdrawn from the Clackamas County's Service District for Enhanced Law Enforcement and Fire District #1 and the City will be responsible for police and fire services.

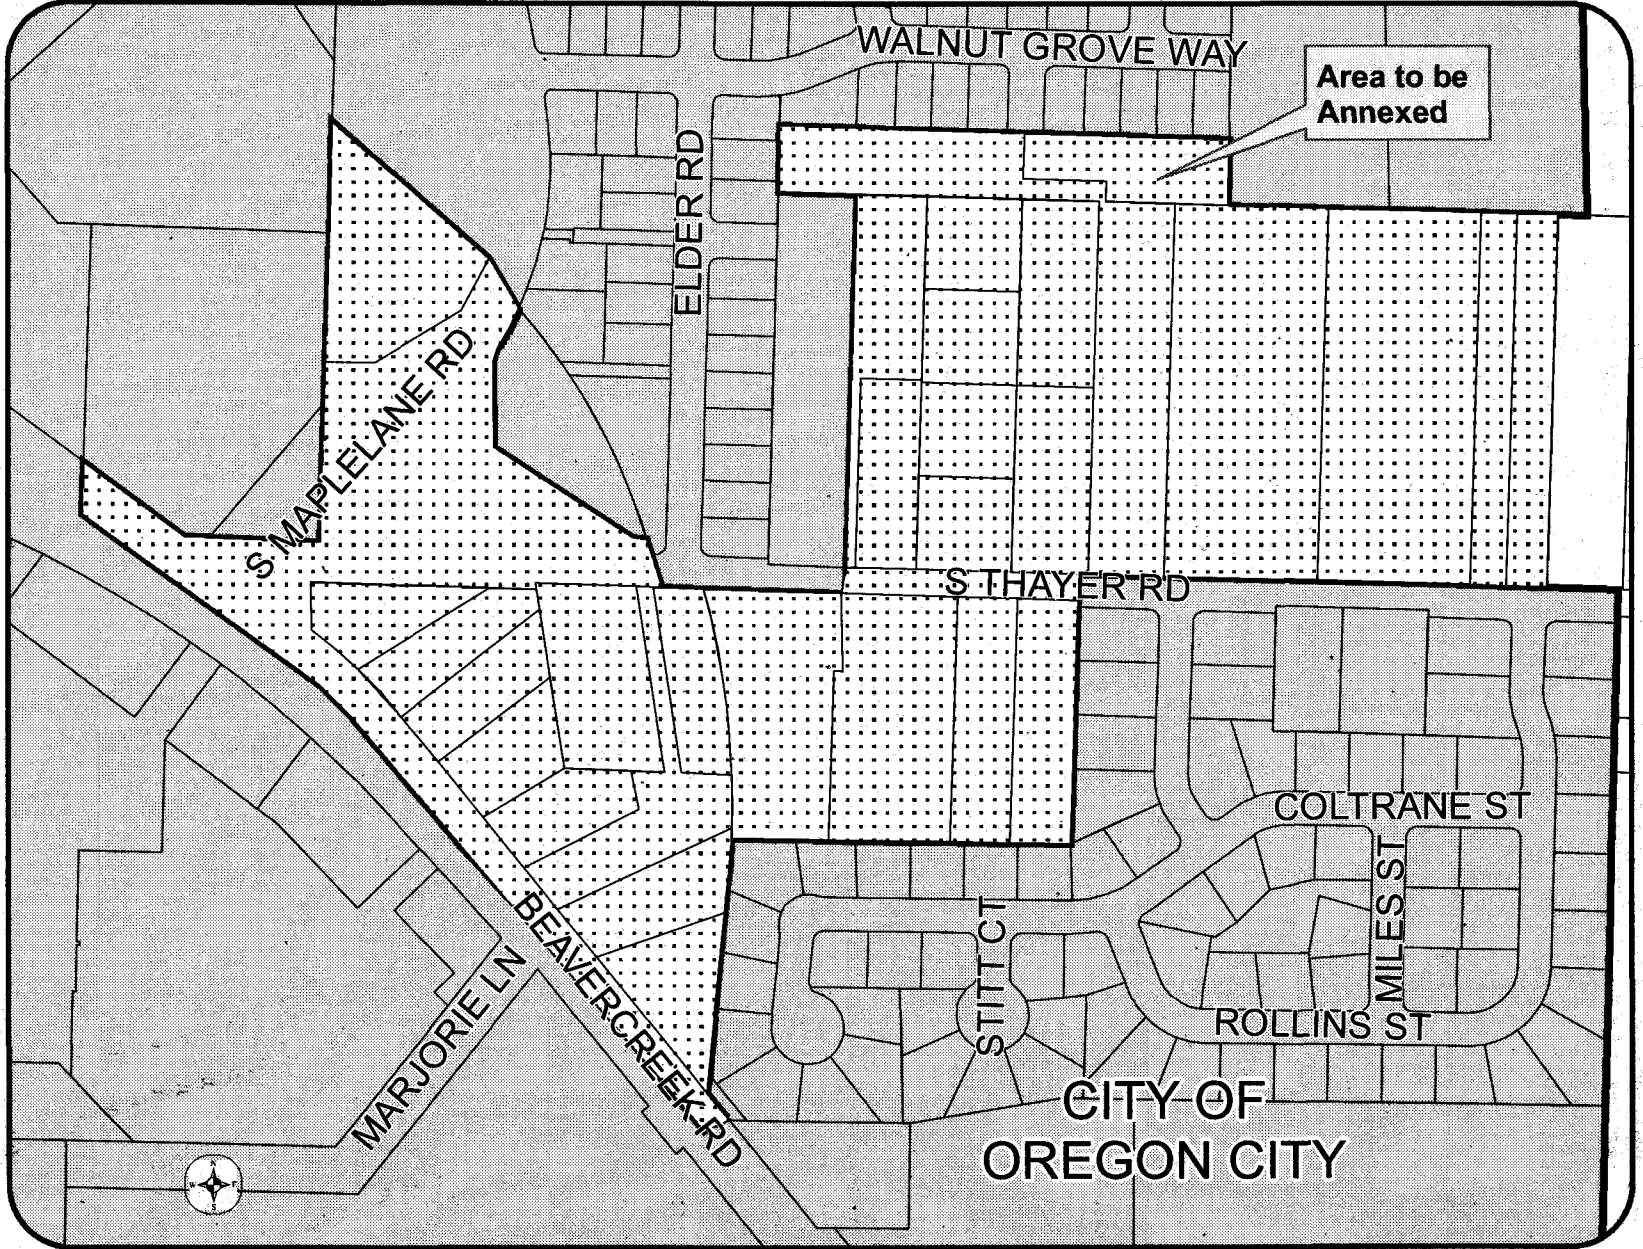

The City Charter requires voter approval of all annexations. A map showing the parcels accompanies this explanatory statement.

Measure 26-89**Ballot Title****AMENDS CHARTER: REQUIRES CITY TO PERIODICALLY REVIEW CHARTER**

QUESTION: Shall Council convene Charter Review Commission at least every 10 years with recommendations submitted to voters in certain circumstances?

SUMMARY: Currently there is no requirement for periodic review of the City Charter. This measure requires the Council to convene a Charter Review Commission at least every 10 years. The first Commission will convene within two years after the effective date of this measure. The Commission will reflect the diversity of the City and will be made up of 20 residents. Each Council member shall nominate four Charter Commission members, subject to confirmation by the Council. The Mayor and Council can request review of specific Charter sections, but the Commission's review is not limited to such sections. The Commission must provide written reports to the Council. Charter amendments supported by at least 15 members of the Charter Commission shall be submitted to the voters of the City by the City Council. Charter amendments proposed by the Charter Commission that are supported by a majority but less than 15 members of the Charter Commission shall be recommendations to the City Council, which may, but is not required to refer such proposed amendments to the voters.

- Establishes a process that allows the citizen commission to put recommendations directly before voters without City Council approval.

Elected officials would be excluded from being members of the Charter Commission. And, while the City Council can request the review of specific Charter sections, the Commission would be free to review any part of the Charter it chooses.

Each Council member would nominate four Charter Commission members, subject to confirmation by the entire Council. Charter amendments supported by at least 15 members of the Charter Commission would be submitted directly to the voters.

The Portland Metro area is expected to grow by 1 million residents in the next few decades. The Charter Review Commission recommended periodic review in order to permit citizens to periodically determine whether the City's governance reflected the changing needs of the city and its residents. The Commission also said that periodic review would continue Portland's tradition of civic engagement and citizen involvement in the workings of their government.

The first review would take place within two years of the passage of this measure.

EXPLANATORY STATEMENT

This measure is one of four recommendations by the 26 citizen-member Charter Review Commission.

It requires the City Council to convene a panel of citizens at least once every 10 years to review the City Charter and forward their recommendations directly to voters.

Background

In November 2005, Portland City Council appointed a panel of 26 Portlanders to take the first comprehensive look at the City Charter since 1913. This independent volunteer citizen committee – the Charter Review Commission – represented a wide range of ages, ethnicities, experiences and backgrounds.

To facilitate its work, the Commission held over 100 public meetings, collected information from a variety of sources, including review of written reports, invited testimony from legal and academic experts, and public testimony, including:

- Testimony from current and former elected officials of Portland and other municipalities, City employees, community organizations, neighborhood associations and other stakeholder groups and individuals;
- Testimony of outside experts in government studies and public administration; and
- A survey of comparably-sized cities.

What does the measure do?

Currently, the City Council decides when, or if, citizens can review the Charter, the document that spells out the laws and procedures that define how the city operates. Under the current system any changes proposed by citizens must be approved by the City Council and then referred to voters.

The measure:

- Provides more citizen oversight by requiring the City Council to convene a panel of no more than 20 citizens who are representative of the entire city to review the Charter at least every ten years.

Measure 26-90

Ballot Title

AMENDS CHARTER: UPDATES AND CLARIFIES CIVIL SERVICE PROVISIONS

QUESTION: Shall City simplify civil service provisions, authorize Council to implement merit system, exclude certain policy-making employees from civil service?

SUMMARY: This measure maintains the City's Civil Service Board that is appointed by the Mayor and confirmed by the City Council. The measure clarifies the merit system for civil service protected positions by replacing existing provisions with updated language and giving City Council power to establish, regulate and maintain the merit system and designate protected categories of persons. Details of implementation relating to job classification plans, recruitment, selection and promotions are removed from the Charter, allowing the Council more flexibility in implementing the merit-based system. The measure establishes a 21 day period for appeals to the Civil Service Board. The measure removes current provisions for temporary appointments.

The measure allows the Council, upon recommendation of the administrator for personnel issues, to determine that future employees in a classification with a major role in the formation of policy requiring exercise of independent judgment will be excluded from civil service protection. This measure will become effective January 1, 2008.

- Requires the Civil Service Board to meet at least quarterly;
- Provides a more flexible and adaptable structure for a merit based personnel system;
- Standardizes the civil service appeals process; and
- Allows for certain top level employees to be removed based on non-performance. This only applies to certain future employees.

The measure provides the City workforce with more current, consistent, and predictable civil service requirements and protections.

If passed, the measure will become effective January 1, 2008.

EXPLANATORY STATEMENT

This measure is one of four recommendations by the 26 citizen-member Charter Review Commission.

It streamlines and modernizes the City's civil service requirements by eliminating outdated, conflicting and confusing language.

Background

In November 2005, Portland City Council appointed a panel of 26 Portlanders to take the first comprehensive look at the City Charter since 1913. This independent volunteer citizen committee – the Charter Review Commission – represented a wide range of ages, ethnicities, experiences and backgrounds.

To facilitate its work, the Commission held over 100 public meetings, collected information from a variety of sources including review of written reports, invited testimony from legal and academic experts, and public testimony, including:

- Testimony from current and former elected officials of Portland and other municipalities, City employees, community organizations, neighborhood associations and other stakeholder groups and individuals;
- Testimony of outside experts in government studies and public administration; and
- A survey of comparably-sized cities.

What does the measure do?

After 14 months of study the Charter Review Commission found the civil service requirements confusing, conflicting, and outdated. The most recent amendments to some of these civil service requirements were nearly twenty years ago.

The measure:

- Deletes or updates outdated language;
- Requires an annual report to City Council from the Civil Service Board;

Measure 26-91**Ballot Title****AMENDS CHARTER: CHANGES FORM OF CITY GOVERNMENT**

QUESTION: Shall executive authority be transferred from Commissioners to the Mayor, and Council exercise legislative and quasi-judicial duties?

SUMMARY: The measure changes the structure of city government adopted in 1913. City Council members and Mayor currently share all executive, legislative, quasi-judicial and administrative functions. This measure distributes executive and administrative functions to Mayor and legislative and quasi-judicial functions to Council. The Mayor remains a voting member of Council, but does not have veto power. The Mayor prepares the budget, distributes work among offices, hires and discharges most employees, subject to civil service. Council adopts the budget and strategic plans, and exercises legislative oversight through investigations and hearings.

The measure authorizes Chief Administrative Officer (CAO) to manage and coordinate city operations, administration and personnel, under supervision of the Mayor. The Mayor hires the CAO, subject to Council confirmation. The Mayor may fire the CAO.

Bureau directors are currently hired by individual Commissioners. The measure transfers responsibility for performance, including hiring and firing of bureau directors, to the Mayor.

The measure also changes the process for filling vacancies in City elective office. This measure is effective January 1, 2009.

sibilities. When elected, City Council members assume full time administrative roles as department heads of City bureaus.

The measure:

- Directs the Mayor, subject to City Council approval, to appoint a chief administrative officer to oversee the delivery and coordination of all City services and bureaus.
- Directs the City Council to oversee the budget, set strategic direction and policies, exercise oversight of City operations through investigations, committees and hearings, and provide constituent representation.
- Directs the City Council to retain legislative and quasi-judicial authority.
- Maintains a City Attorney appointed and removed by the City Council.
- Retains the Mayor as a voting member of the five member Council.
- Does not provide the Mayor veto authority over Council actions.
- Requires appointments of all bureau directors be approved by the City Council.
- Requires all appointments made by the Mayor be approved by the City Council.
- Maintains an independently elected Auditor and staff.

This measure replaces the current form of government where City Council decides public policy and administers City bureaus. It replaces the current form of government with a governing structure where the mayor is held accountable for a chief administrative officer who runs the day to day operation of the City and City Council members focus on setting policy, approving budgets, exercising legislative and quasi-judicial authority, and representing the citizens of Portland.

This measure if passed is effective January 1, 2009.

EXPLANATORY STATEMENT

This measure is one of four recommendations by the 26 citizen-member Charter Review Commission.

The measure increases coordination of City services by centralizing City management in the chief administrative officer.

What does the measure do?

Portland's current form of government was adopted in 1913. This 'commission' form of government combines the legislative and executive functions together in a five member commission. It requires that specific administrative responsibilities be divided among five elected City Commissioners, or City Council members, in addition to traditional legislative and oversight respon-

Measure 26-92

Ballot Title

AMENDS CHARTER: DEFINES MISSION, INCREASES OVERSIGHT OF PORTLAND DEVELOPMENT COMMISSION

QUESTION: Shall the Portland Development Commission budget be subject to City Council oversight with financial and performance audits by City Auditor?

SUMMARY: Under the current Charter, the Portland Development Commission (PDC) is the City's urban renewal agency. This measure directs PDC to implement the City's urban renewal, affordable housing and economic development vision and goals. If authorized by state law, the Council will be the budget committee for the Commission. The Commission budget will be required to incorporate City goals and will be submitted to the Council in conjunction and conformity with the City budget process. The measure provides that the Commission shall advance social equity, involve the constituencies of the City, and promote home ownership and the creation and retention of multi-family housing.

The measure authorizes the Mayor to appoint and remove PDC Commissioners, with approval of the City Council. The measure provides that the Commission shall be subject to financial and performance audits by the City Auditor. The measure requires that the annual Commission report to Council include an evaluation of Commission activities with respect to City adopted vision and goals. The measure would be effective July 1, 2007.

EXPLANATORY STATEMENT

This measure is one of four recommendations by the 26 citizen-member Charter Review Commission.

It gives authority to the City Auditor to conduct financial and performance audits of the Portland Development Commission and provides budget oversight by the City Council.

Background

In November 2005, Portland City Council appointed a panel of 26 Portlanders to take the first comprehensive look at the City Charter since 1913. This independent volunteer citizen committee – the Charter Review Commission – represented a wide range of ages, ethnicities, experiences and backgrounds.

- Testimony from current and former elected officials of Portland and other municipalities, City employees, community organizations, neighborhood associations and other stakeholder groups and individuals;
- Testimony of outside experts in government studies and public administration; and
- A survey of comparably-sized cities.

What does the measure do?

The Portland Development Commission has a \$250 million budget and is responsible for implementing the City's vision and goals relating to urban renewal, economic development and affordable housing. Additionally the Portland Development Commission has been directed to involve the constituencies of the city to create, maintain, and promote a diverse, sustainable community in which economic prosperity, quality housing and

employment opportunities are made available to all residents.

The measure:

- Provides that the Portland Development Commission shall be subject to financial and performance audits by the City Auditor;
- Provides that the Portland Development Commission's budget will be subject to City Council oversight;
- Requires the Portland Development Commission to report its progress on meeting urban renewal economic development and housing goals to the Council each fiscal year; and
- Requires the Portland Development Commission to involve the constituencies of the City in promoting home ownership and the creation and retention of multi-family housing.

The measure helps define the mission of the Portland Development Commission and provides City Council with budget oversight and City Auditor with more authority to review the Portland Development Commission's work.

If passed, the measure will be effective July 1, 2007.

Measure 3-263**Ballot Title****ANNEXATION OF PROPERTY AT 4960 IRELAND LANE
REQUIRING VOTER APPROVAL**

QUESTION: Shall the City annex a 2.1-acre property located at 4960 Ireland Lane and apply R-10 City zoning?

SUMMARY: West Linn Charter Section 3 requires that annexation of any territory be approved by the voters of the City. This measure, if approved, would annex a 2.1-acre parcel of real property located at 4960 Ireland Lane. The site is on the west side of Ireland Lane, south of Ridge Lane, and south of Rosemont Road. The West Linn City Council has determined that the proposed annexation complies with all relevant land use criteria for annexations.

The public has a right to view the application and the comprehensive impact statement at City Hall, 22500 Salamo Road, and at the City's website: www.ci.west-linn.or.us. For further questions please call Gordon Howard, City of West Linn, at 503-656-4211.

EXPLANATORY STATEMENT

The West Linn City Charter requires voter approval of all annexations of property into city boundaries. The owners of property at 4960 Ireland Lane have submitted a request to annex 2.1 acres located on the west side of Ireland, south of Ridge Lane, and south of Rosemont Road. The site is adjacent to land within the city, and is part of an area entirely surrounded by the city limits.

The property is within the Portland Metropolitan Area Urban Growth Boundary. West Linn's Comprehensive Plan Map designates the property for Low-Density Residential Development. The city proposes to have the property zoned R-10, which is a zoning district consistent with the Comprehensive Plan Map designation. The R-10 zone allows single-family residential and certain institutional uses, with a minimum lot size of 10,000 square feet. If zoned R-10, the property could theoretically be divided into up to 7 residential lots – however, no land division is proposed as part of this annexation request. If approved for annexation, any development of the property would be required to comply with the City of West Linn's Community Development Code, including those provisions relating to citizen involvement and the protection of trees and other natural resources. The only special feature identified on this property is the beginning of a natural drainageway on the eastern portion of the property that flows southward.

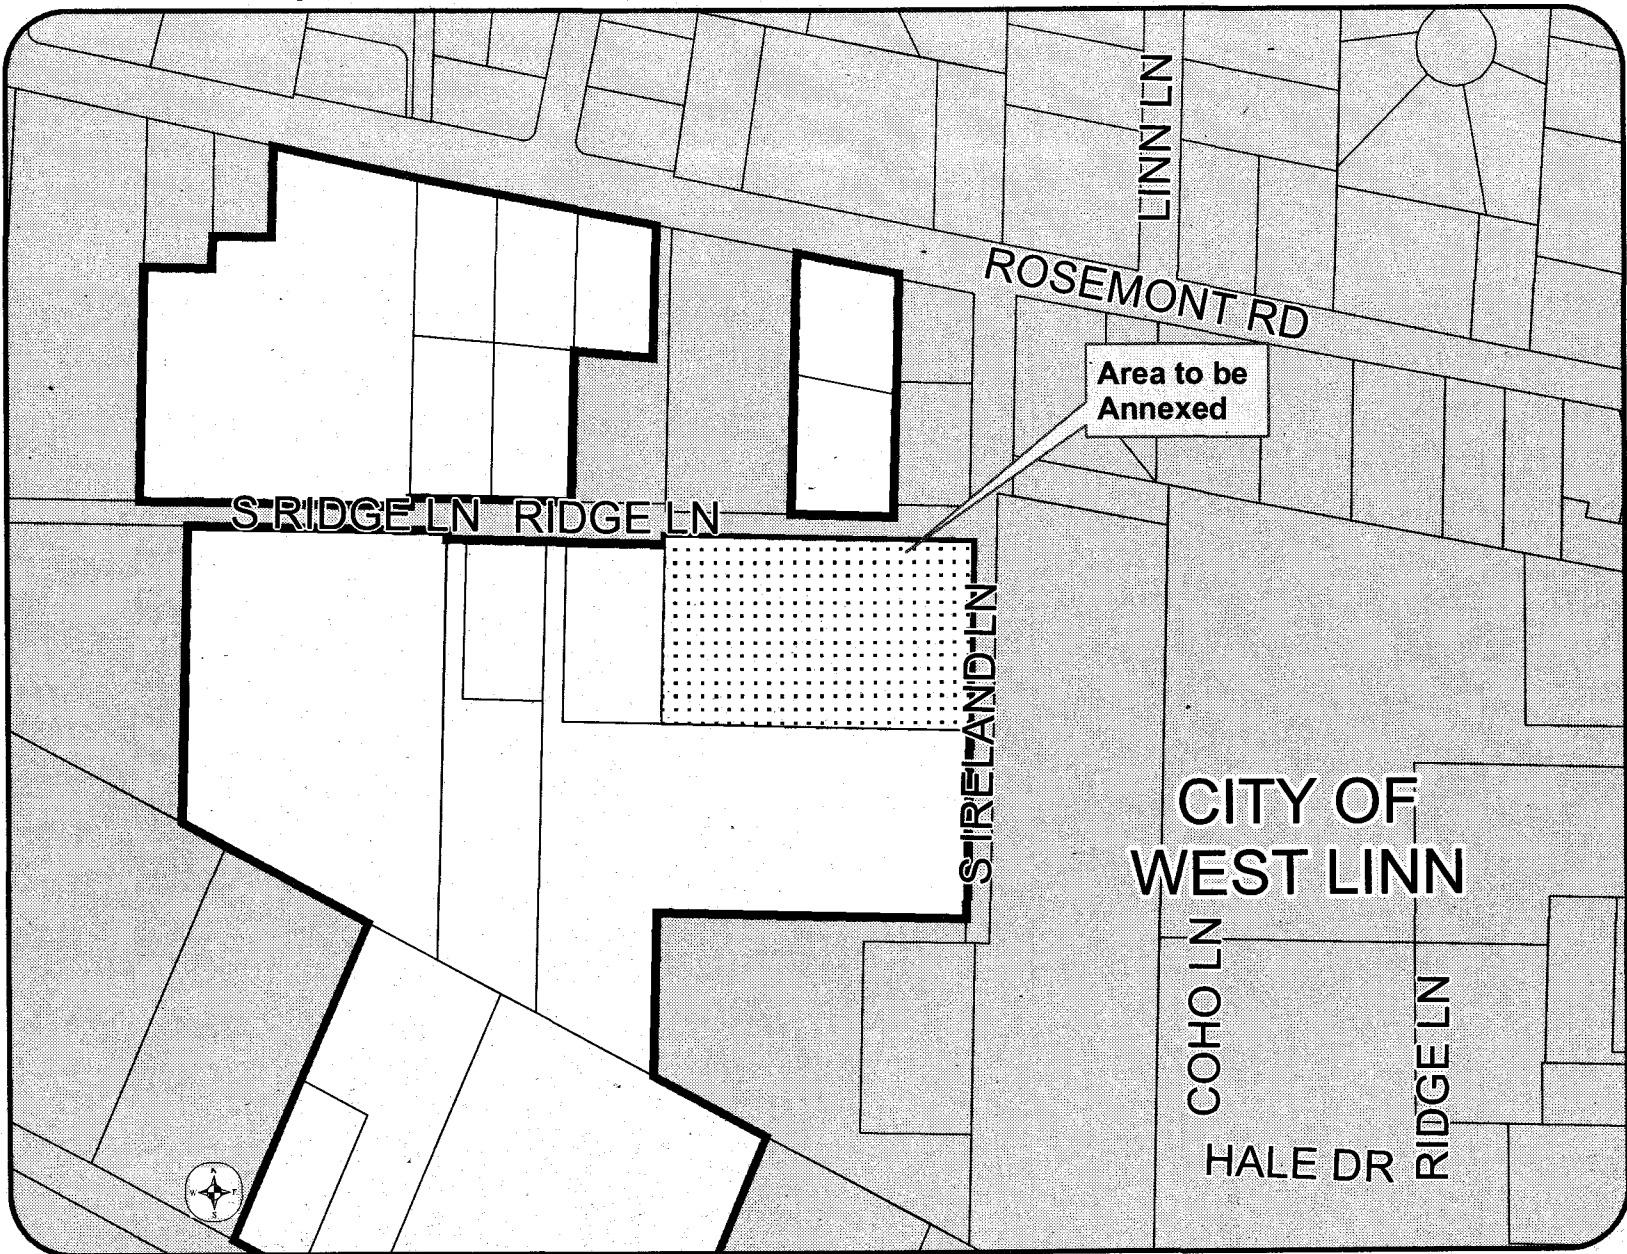

On July 25, 2006, the West Linn City Council approved "Step One" of the annexation process for this site, finding that the proposed annexation met all relevant city code provisions governing annexations. On January 22, 2007, the West Linn City Council considered the fiscal and community impacts to the city of the proposed annexation. Each new dwelling unit on the site would result in \$23,272 of payments to offset costs to roads, sanitary sewers, storm sewers, water service, and parks.

The West Linn Municipal Code requires an explanatory statement to accompany any annexation measure with "an unbiased summary of the fiscal impacts on the public infrastructure" prepared by City staff and based on a methodology that was completed in 2004. Staff has reviewed this methodology and concluded that each unit of potential new residential development may result in a one-time unrecovered cost of \$13,696 per dwelling unit. It is anticipated that this annexation, prior to development, would result in additional annual property tax revenues for the City of West Linn of \$1,611. If fully developed, this annexation may result in \$1,232 additional annual property tax revenues for each new dwelling unit to the City of West Linn.

EXPLANATORY STATEMENT

The West Linn City Charter requires voter approval of all annexations of property into city boundaries. The owners of property at 2590 Debok Road have submitted a request to annex 2.9 acres located at the northern terminus of Debok Road where it splits into Wisteria Court and Tamarisk Drive. The site is adjacent to land within the city on three sides. On the north side the property is adjacent to the Portland Metropolitan Area Urban Growth Boundary.

The property is within the Portland Metropolitan Area Urban Growth Boundary. West Linn's Comprehensive Plan Map designates the property for Low-Density Residential Development. The city proposes to have the property zoned R-10, which is a zoning district consistent with the Comprehensive Plan Map designation. Measure 3-264

MEASURE 3-264 City of West Linn

Measure 3-267**Ballot Title****FIVE-YEAR OPERATING LOCAL OPTION LEVY FOR POLICE SERVICES**

QUESTION: Shall City levy 84.57 cents per \$1,000 of assessed property value annually for five years starting 2007-08 for police services?

This measure may cause property taxes to increase more than three percent.

SUMMARY: This measure may be passed only at an election with at least 50 percent voter turnout.

This measure provides a levy on property of 84.57 cents per \$1,000 of assessed property value each year for five years, beginning with the 2007-08 fiscal year.

The funds from the levy will allow the City to retain the 12 police officers funded by the current levy, which expires on June 30, 2007. The funds would be used to pay salary and benefits for the police officers, as well as other operating expenses and capital costs of providing police services.

The estimated amounts to be raised by this levy are:

First Year (FY 2007-08)	\$2,014,900
Second Year (FY 2008-09)	\$2,115,600
Third Year (FY 2009-10)	\$2,221,400
Fourth Year (FY 2010-11)	\$2,332,500
Fifth Year (FY 2011-12)	\$2,449,100
TOTAL	\$11,133,500

EXPLANATORY STATEMENT

This measure is identical to one submitted to voters in the March 13, 2007 special election. That measure was overwhelmingly approved (72%) by those who voted, but the election did not count because fewer than 50 percent of the city's voters submitted ballots, as required by state law.

The same requirement applies in this election. If approved, this measure would allow West Linn police services to continue at current levels for five years. For many years, West Linn's police services have been paid for in part by a special operating levy that is only good for a maximum of five years. The current police levy is 75.5 cents for each \$1,000 of assessed property value (AV). It expires on June 30 of this year. The proposed levy renewal is for 84.57 cents per \$1,000 AV. It would replace the expiring levy, not be in addition to it.

The proposed levy was calculated based on all of the costs that go into providing police services, including personnel costs, materials and equipment (including police car replacements), fuel and maintenance, health care and retirement costs. Those costs have risen faster than the increase in revenue from the existing police levy.

Since 2002, the last time voters approved a police levy, the city's population has increased by 3.2 percent. This has resulted in increased calls for police services. Over the same period, increases in identity theft and property crimes in West Linn have been significant due to the methamphetamine problem. The perpetrators of these crimes usually do not live in West Linn, but responding to and investigating victims' calls impacts police resources and staffing levels.

Local option levy would maintain current level of police service. Currently, the West Linn Police Department has 35.5 employees. Thirty are full-time police officers and 5.5 are support personnel. Renewal of the local option levy would continue current police services including: emergency response, neighborhood patrol, school resource officer, crime investigation, traffic enforcement, code enforcement, animal control and the canine unit.

If the proposed levy does not pass, your property taxes would decrease by a rate of 75.5 cents per \$1,000 AV. Corresponding reductions in City services would also be required, or new sources of revenue found. The current police levy provides approximately \$1.7 million a year in revenue – equal to 40% of the Police Department's budget. Without replacement revenue, the City would need to cut services. Police services would be reduced. Other city services, including the library and parks and recreation, could also be reduced in order to free up funding to operate the police department at a minimum level required for public safety.

Proposed levy would be 3% more than current tax rate.

This measure, if approved, would result in an increase of 9 cents per \$1,000 AV, or 3 percent more than the current combined city tax rate. For a home with an assessed value of \$260,000, the proposed levy would result in a property tax increase of about \$24 a year.

Measure 3-267 Arguments

ARGUMENT IN FAVOR

As insurance professionals, we support passage of Measure 3-267.

West Linn residents are known for living in a safe community, even winning national recognition for it. A strong police presence is needed to both prevent crime and to apprehend those that commit crimes. It is very important that current levels of police officers be maintained. If the criminal element draws the conclusion that West Linn is an easy target, accurately or not, then everyone will be at increased risk.

Identity theft is on the rise. It takes a well-trained police force to capture the culprits of identity-theft. If we reduce our police force the officers most likely to be laid off are the investigators.

We recognize the most frequent loss that occurs for homeowners is theft. Even with an insurance policy most homeowners will suffer a large share of the theft loss due to high deductibles. Patrol officers work at all hours of the day to provide the needed presence to discourage theft, and to apprehend those that commit their crimes anyway.

It is no secret that the Portland region has a Meth drug problem. This and similar addictions induce people to commit crimes to generate the money to support their habits. Though West Linn has been relatively free of Meth labs, our citizens have been regularly subjected to the thefts that come with the regional problem.

Please vote in favor of Measure 3-267.

ARGUMENT IN FAVOR

We urge you to vote for approval of Measure 3-267, a local option levy for West Linn Police services beginning July 1, 2007. This levy merely continues the current levy that expires June 30, 2007. As with the current levy, the proposed levy will fund 12 police officers (or slightly less than one-half of the 30 sworn officers in West Linn). In other words, this levy continues to fund exactly the same number of police officers that the City now has on the force.

The proposed levy is an increase of 9.3 cents per \$1,000 of assessed value. The increase from the current rate of 75.5 cents per \$1,000 to 84.57 cents per \$1,000 allows the City to continue police services at the current level for the next five years. The present levy of 75.5 cents is being increased because it will not provide enough revenue in the coming years to maintain current levels of police service due to projected increases in operating costs, fuel, health care, materials, equipment and supplies.

The amount of increase amounts to about \$24 per year for the average West Linn home, equivalent to 8 grande lattes.

Failure to pass Measure 3-267 will result in the reduction of the police force by 12 officers. West Linn is a desirable community with an excellent quality of life. The confidence and pride we have in our safety and security is a very significant factor in our high quality of life. Let's keep it that way!

Please vote for Measure 3-267, the West Linn Police local option levy,

Mayor Norm King
Mike Gates, Council President

"School districts throughout Oregon face difficult challenges as they strive, with declining funds, to preserve sound educational programs, encourage teaching excellence and provide safe, functional facilities. School board members need the skills to evaluate options and make constructive decisions in a collegial manner, keeping the educational interests of children foremost in their minds."

I made this statement during my successful candidacy for this position four years ago. The challenge remains. School funding is not declining in absolute terms but it is still unstable and the District has been able to restore valuable programs and staffing in only a few areas.

At the same time, we have been true to the goal of providing the best possible education for the District's students with the resources available. The resiliency of our administrative and teaching personnel is amazing. They are innovative, committed educators who have responded to difficult circumstances in positive, constructive ways. The Canby community is second to none in its support of schools. New and remodeled facilities reflect that support, as do countless business and volunteer contributions. Maintaining the Canby School District's excellent reputation has been a "team" effort and one in which I have been proud to participate.

It would be a privilege to serve a second term as a Board Member. Commitment to public education will always be my primary volunteer activity. My goal is to be certain that all Canby students benefit from the educational opportunities that Canby's schools have provided each of our five children.

I am a candidate for a Canby School Board position because of my belief that education is the key to a successful life. With a good education a human being and ultimately a society has the "intellectual capital" to make good decisions for themselves as well as the organizations, companies or the workplaces they are at. As a college educator myself: Marylhurst University (adjunct faculty since 1992); and in the course of adjunct teaching at the University of Portland; and Western Oregon University; I have concluded that the students are key to our society's health.

In 2001 I had the honor of working with Governor and First Lady Sharon Kitzhaber on the Dalai Lama's Youth Summit, where we had an estimated 8,000 students come to hear the 1989 Nobel Peace Laureate give a talk on the importance of non-violence in settling differences. The Dalai Lama told me personally: "the proper way to reduce violence in the world that could lead to war is not through more police but through education. In the educational system, right from the beginning we must educate the minds of the students". If elected, I will support peace education; including peer mediation and mediation skill building so that students can learn to negotiate in conflict situations, versus running away or choosing violence.

The "No Child Left Behind" national initiative has also created a "No Child Can Get Ahead" dilemma. I believe the current system is producing many mediocre students rather than challenging the creativity and intellect of each student to reach his or her full potential.

Canby's schools are the heart of our community. Canby has historically supported its children and its schools well. Still, our District faces the same challenges as all public schools in Oregon today. These include unstable funding, growth, and the need to respond to complex, changing mandates.

My background, personal and professional, gives me a solid understanding of these issues. I am a product of Canby schools, and returned to the district with my husband when our children began school. During their years as students in the school district I volunteered in their classrooms, with the PTA, as a Junior Great Books and an Art Literacy leader. I was a member of the Site Council and volunteered in the high school Counseling Office, and I served on the District Budget Committee for several terms. For the past three years, I have worked with Stand For Children, a non-partisan advocacy group for children's programs and services, in their efforts to assure responsible school funding.

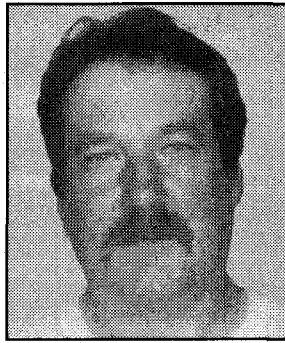

If elected to the Board, I will be committed to effective utilization of our resources and funding, will work to support those elements which are successful, and will work to strengthen programs and opportunities for all students. I believe that high expectations are the key to achievement, and if elected I will support efforts to inspire all students to strive for excellence, whether they will enter the workforce directly, attend college, vocational school or enter an apprenticeship.

The teachers and staff of the school district impress me with their passion and professionalism. I would welcome the opportunity to work with them, with members of the board, and with the community to strengthen our schools.

Clackamas Community College is a tremendous asset to our community, bringing affordable and excellent education to thousands of students every year. It is essential to our economy by training workers and assisting businesses.

Chuck Clemans brings years of solid educational experience to the important job of board member.

If reelected, he will

- work with our Legislature and Governor's office to increase funding for community colleges, both for operations and building construction.
- protect instructional programs even in the face of reduced resources.
- work with other governments such as the City of Oregon City and Clackamas County to be sure that our tax dollars are spent efficiently.
- strive to keep education affordable by making tuition and fees as low as possible while maintaining programs.

Occupation: Retired.

Occupational Background:
Portland State University,
Instructor, 1968-1969;
Clackamas Community College,
Instructor, 1969-1975, Division
Dean, 1975-1998.

Educational Background: Portland State University, BS, MS, Biology, Education.

Prior Governmental Experience: Gladstone School District, Budget Committee, Appointed; Clackamas Community College, Board of Education, Appointed.

As a Board of Education member at Clackamas Community College I have the privilege to help all the citizens of the county by working to ensure continued access to quality education that meets their individual needs. This is accomplished by listening to people as the discuss what concerns and pleases them with the college; listening to the recommendations of the staff of the college; hiring and evaluating the performance of the president of the college; and working with the budget committee and the legislature to ensure the fiscal needs of the college have been addressed.

I wish to continue as a board member. My thirty years of experience in college level instruction and administration has prepared me to make decisions based on objective information. I can make hard choices when there are more opportunities to serve than there are resources. I will help the board focus the vision of the college to better serve our district citizens.

Volunteer Experiences:

Boy Scout Den and Troop Leader
Boy Scout District Finance Chairman, District Chairman
Member, past Moderator, Atkinson Unitarian Church, Oregon City
Board Member, Friends of Timberline
Gladstone and Oregon City Rotary Clubs
President, Oregon City Rotary Foundation

Endorsements:

"Chuck Scott is an outstanding board member for CCC. He is well informed about the community, the college, and our students. He has an excellent record of achievement, both as a professional educator and as a community volunteer. I am pleased to give him my enthusiastic endorsement."

John Keyser, President Emeritus, Clackamas Community College

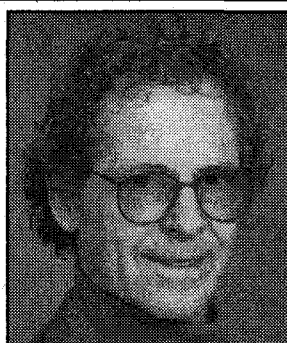

"We support Chuck because of his commitment to working in partnership with K-12 schools, community organizations, and businesses to meet the educational needs in our communities."

**Leonard L.
Mills**

Occupation: Director,
Clackamas Education Service
District (ESD) Board (unpaid);
Volunteer, Portland Metro
Performing Arts; Volunteer,
Oregon Zoo.

Occupational Background:

Teacher, testing and evaluation specialist, Reynolds School District; Evaluation assistant, Portland Public Schools; Principal, Selkirk School District; Teacher, Bethel School District (Wa).

Educational Background: Washington State University, Ph.D., Elementary Education; Seattle University, M.Ed., Curriculum, Administration; Gonzaga University, B.A., English, Education.

Prior Governmental Experience: Director, Clackamas Education Service District (ESD) Board.

Clackamas Education Service District (ESD) provides vital support to our local public schools. Some of those services are:

- Early childhood education (e.g., Head Start)
- Business, finance, and technology services
- Instruction to children with special needs
- Network, internet, and information services
- School and instruction improvement services
- Accountability and evaluation

As the demands on our public schools become more complex, Clackamas ESD provides programs and services to meet those challenges. The ESD works closely with local school districts, as well as with State agencies, to provide services that are needed by our children.

ESD Board members provide the local direction and control of the ESD that we depend upon.

As a board member, I have a strong commitment to excellence in meeting the education needs of our community. I bring experience and expertise in evaluation, instruction, curriculum, and administration. I also bring a local perspective since I have lived here nearly thirty years. My three children attended our public schools.

Our local public schools are well known for their excellence. Clackamas ESD has played an important role in earning this reputation. It is my privilege to serve you on the ESD Board of Directors.

If you have questions or comments, you may eMail me at paradocx@teleport.com

I would appreciate your vote in this election.

Educational Background: B.A., M.A., Loyola University; Ed.D., UCLA, (Doctor of Education with management emphasis),

Prior Governmental Experience: 1984-present, Director, Clackamas Education Service District; 1987-88, Task Force Member, Governor's Commission on School Funding Reform; 1981-86, Director, Clackamas County Library.

What's an ESD?

Did you know that the Clackamas Education Service District (ESD) provides many educational and business support services to all 10 local school districts in Clackamas County? Each year, the districts' superintendents and teacher representatives review and help update our ESD service delivery plan. That plan includes programs which need inter-district collaboration for optimal staffing and other economies of scale. Then the 10 school boards vote their approval or disapproval. No other unit of government is examined annually by that many agencies!

Quality Service at Reasonable Cost

The ESD welcomes annual accountability to its customers and tax payers. Using highly specialized staff and centralized purchasing, the ESD delivers quality goods and professional services at group rates. Current services include testing and guidance for students with disabilities, teacher re-training, management information, test scoring, printing, and specialized accounting services.

Also Serving Children with Disabilities

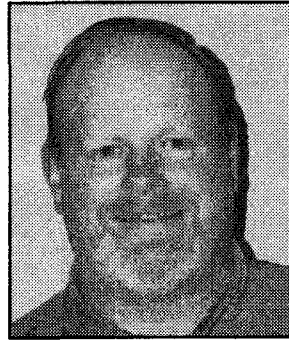

Most importantly, highly trained ESD teachers provide direct instruction to hundreds of our pre-school children, and to students with the severest physical and mental disabilities, grades K-12. To avoid costly capital investment, the ESD operates these classes in existing schools throughout the county.

Re-elect a Proven, Responsible Board Member

Keep the ESD's outstanding record of economy and service to our children by re-electing Curtis (Dick) Smith. As an honors doctoral student, as an experienced educator, and as a successful manager in both the private and public sectors, he has demonstrated the skill we need to continue our ESD's success. My ambition is to serve the students, parents and community members of the Estacada School District 108 as Zone 3 School Board Director. My school district volunteer involvement started in 1995 when my eldest son attended kindergarten at River Mill Elementary. I began volunteering in the classroom and working with the Parent Teacher Association as volunteer coordinator, publicity coordinator and teacher appreciation coordinator. In 2001 - 2002 I served as Parent Teacher Student Association President for the Estacada Jr. High. From 2001 - 2003, I was President of the River Mill Parent Teacher Association. Through various fundraisers our Parent Teacher Association built playground structures, bought science equipment, funded outdoor school and science workshops, Etc.

I was very involved in passing the 25.4 million dollar Estacada School Bond measure as well as the Auditorium Renovation Project. In 2002 I served on the Estacada School District's Community Program Advisory taskforce where parents, administrators, business people and teachers studied ways to better enhance our school district.

If elected as Zone 3 School Board Director I will surely utilize my knowledge, enthusiasm and concern for all the students, parents and community members within the Estacada School District 108.

The concerns are to control the variable costs, minimize the problems, and to expand the educational curriculum for all students within our district. The goal is to maintain an interest to the students so they will stay in school to continue developing their skills.

This can be accomplished if all employees in our district, The administration, school board, students, community members and parents work together. We need to share ideas, express our concerns and opinions on how to make things better in our district. Now is the time to make that happen when you vote on May 15.

Thank you.

Educational Background: Clackamas Community College, Macomb Community College, Schoolcraft Community College, Oregon Institute of Technology.

Prior Governmental Experience: Current Gladstone School District Budget Committee Chairman, four year committee member.

FAMILY: Wife Santi Chappell and three school age children.

When Santi and I were expecting our first child we started looking for a new home with the first requirement being excellent schools. Jacob was born in 1991 in the same house we live in today. We had found exactly what we were looking for, a great community, terrific people and "Grade A" schools. Jacob is now a GHS sophomore, Alexa in 8th grade at Kraxberger and Grace 2nd grade at JWE.

The second thing we wanted was Santi to stay home with the children. We have been fortunate to have mostly accomplished this. Santi has been willing and able to spend hundreds of hours over the past 12 years doing volunteer work at Gladstone Schools and pre-schools. Her insights have been an invaluable resource.

I believe the first duty of a board member is to the students and then the community and district employees. Students deserve the best education possible. Our educators need the proper resources. The community deserves accountability. The community has stepped up with the passage of a \$39,800,000 bond. The Board needs to be accountable to all.

The School Board and Administration are not autonomous. The future requires open communication and interaction with the community. Academic achievement, technological integration, staff development and providing a safe learning environment should be the goals. As a board member I will work to achieve these in conjunction with community, staff and Administration.

Leadership, Experience and Commitment Matter!

As the parent of three children currently in Gladstone schools, I have been thoroughly involved with school activities for the past 9 years. I began by helping in classrooms at the elementary school on a weekly basis and I still do so today. Realizing that the elementary school needed additional funding to pay for field trips and other activities I stepped up to lead the Jog-a-Thon and have helped raise more than \$125,000 over the past 5 years for the school. I have been an active member of the Parent Faculty Organization, the district budget committee and the Site Council at both the elementary and middle schools. Last year, I was recognized by others in the district and was selected to fill a vacated seat on the school board. With my active involvement in district activities, I have first hand knowledge of how hard our teachers work and how dedicated they are to providing a first class education to students.

With the passage of the bond measure this past November, the people of Gladstone have given the Gladstone school system a gift to dramatically move education forward for the future. This kind of opportunity to make lasting improvements comes along only once every two or three generations. We need leadership, commitment and experience to make sure we make the most of this opportunity.

I am grateful for the opportunity to serve our community and feel that along with the others on the board we have set a sound course for education in Gladstone for the next generation. Thank you for your support in moving education forward to help our children meet the demands of tomorrow.

Educational Background: Aurora Central High, 11; State of Florida High School, high school diploma; Denver Community College, general; Clackamas community College, geology.

Prior Governmental Experience: City of Gladstone Budget Committee.

My name is Bob Wentz. My wife, Libby, and I settled in Gladstone nearly 11 years ago with our children Molly and Jeff. We liked the close knit community so close to a metropolitan area. We were sold because of Gladstone schools. One elementary, one middle and one high school in one small community has potential for wonderful experiences. I want to be on the school board to help realize the best possible educational experience for our city.

I believe:

- we have good schools and they can become better.
- in taking the time and effort to file by petition instead of by fee.
- smaller classroom sizes are important.
- in the importance of attention to the average, invisible majority of students.
- the focus should be on teaching students, not grooming them for arbitrary, unrecognized benchmarks and indicators.

I believe the school board should:

- act as a liaison between the schools and community.
- advocate for greater community support.
- hold school administrators accountable for their schools.
- hold themselves to the community in a non-condescending manner.
- freely and frequently communicate with the community.

I will:

- be honest and open minded.
- have no political aspirations or agendas
- be loyal to all Gladstone students and taxpayers.
- bring a fresh perspective and determination to effect the changes students need and taxpayers want.

The School Board should not be a political entity. If you are happy with the status quo, vote for an incumbent. If you want a change, then vote for a change. Thank you.

- Volunteered numerous hours as a key member of the Yes for Gladstone Kids, campaigning for the May 2005 and the November 2006 bond levies.
- Supported the purchase of the former Danielson's store

DEDICATED TO MY PROFESSION: As an accountant with many years of public accounting and auditing experience:

- Highly qualified to provide sound financial and budget advice, bond oversight, and internal control suggestions;
- Able to comprehend the complexities of District finances;
- Unique insight into school accounting and budgeting processes through past nearby school district employment;
- Member, American Institute and Oregon Society of CPAs

I have spent my first term serving one special interest group: **the students of Gladstone School District.**

Two important lessons learned:

1. The duties of the school board are to lay the foundation and be accountable for implementation of district policies, **NOT** micromanage administrators and day-to-day operations;
2. There are at least two sides to every issue.

Recently, our Board has experienced the retirements of several longtime members. With our many upcoming construction projects and ongoing student improvement initiatives, it is imperative to **RETAIN EXPERIENCE and CONTINUITY** on the Board.

Please allow me to continue making a positive impact on our schools and **ALL** the students within, regardless of their ability.

More than thirteen ago, my husband and I moved into Gladstone with two young daughters. Over the years, our family has grown, as has our commitment to the community. We care deeply about this area and about the quality of education that the Gladstone School District offers—not only to our own children, but to every child.

It has been my pleasure and good fortune to be able to volunteer regularly at Gladstone schools for almost eleven years now. I currently have children attending each of the schools in this district, which provides me with unique opportunities and consistently widens my perspective. My experience has given me a deep respect for the dedicated teachers, the quality parents, and the great students we have at our schools. It has also allowed me to appreciate the dedication of our community to children and to our schools.

I am a parent and community member committed to quality education and to doing right by our children. I believe in our teachers and in the great potential of our students! With the recent passage of the school bond, I pledge to be a voice for accountability and integrity on the School Board—taxpayers deserve it, as do each of our children!

Lake Oswego's outstanding public school system is essential for the future of our children and our community. During my four years on the Lake Oswego School Board, we have experienced periods of reduced financial support from the state, which resulted in district staff reductions and program cuts. With financial help from our very generous community and the efforts of our dedicated teachers, classified employees and administrators, we were able to maintain the quality of our schools. At this time, it appears that support from the state will improve over the next biennium, but we still must manage our resources carefully; improved financial support is not guaranteed over the long term. Another challenge we face is declining enrollment, as our community ages and the cost of housing continues to rise. Since state support is tied to enrollment, our financial resources are reduced when our student numbers decrease. Even with these challenges, and the others we will face over the next four years, I am confident we will continue to provide the best public education in Oregon, an education that includes the classroom, arts and athletics.

I am proud of our excellent schools, our wonderful students, and our supportive community. I have the business background and the experience necessary to help manage our school district during periods of financial improvement and periods of declining resources. I ask for your vote for re-election to the Lake Oswego School Board.

Dear Voter:

While both of my children were attending school in the North
Clackamas district, I volunteered as a classroom "dad" for
several years, was appointed to the Advisory Board at Concord
Elementary, and later served on Site Council at Rex Putnam
High School. Over the years - including my recent role on the
district Budget Committee during years of severe cuts, and now
as a school board member - I have developed a deep affection
for this district and the wonderful people that work and volunteer
to ensure success for our children.

I believe in fiscal accountability in our school district's operating
budget, as well as strict accountability to you the taxpayer as we
begin the myriad of bond construction projects throughout our
district. With new schools, replacement schools and planned
refurbishments, our district will grow and continuously improve to
become better than we imagined!

We must work together in the future toward reducing class size,
as well as reinstating programs such as music and P.E. which
were curtailed during the budget cuts of the 1990s. With your
support, I promise to make all decisions based on one guiding
principle: Educational excellence for every child.

Please call me at any time to discuss issues further:

rigorous graduation requirements have been implemented and
students are meeting them.

REFORM AND RESPONSIBILITY: As a business advisor and member of the business community, I know the stakes are high. Without innovative reforms and better accountability from the boardroom to the classroom, we will not be able to provide our children with the skills they will need to compete in the global economy that will be a hallmark of the 21st century.

By partnering with businesses, parents, educators and students we can make the tough choices necessary to do right by our children and assure them a bright future.

I will work tirelessly at pushing for more innovation, tougher standards, better funding, and greater fiscal responsibility.

Over the past 4 years it has been an honor to serve on the Oregon City School Board. I believe that public education is the cornerstone of a democracy. I want to see all children educated so that they can fulfill their dreams and be healthy, involved citizens. I know no greater way to have an impact on so many children than to serve as a volunteer on the School Board.

I value people who are teachers and support them for their dedication, professionalism and important role in shaping our students. Parenting is the single most rewarding and difficult job I know. I support parents and want to help them do their best. Along with this comes fiscal accountability. An excellent education comes at a price. I have served on the budget committee for 8 years. I wanted to know closely how the Oregon City School District operated and I am pleased with the findings. With inadequate, unstable funding since measure 5, Oregon City has continued to operate within its budget.

In the last four years, we have hired a Superintendent who is dedicated and professional. He leads us with integrity and the highest of educational goals. We have started a high school that is one of the largest in the state. With that came some new understanding and the Smaller Learning Communities for a smaller school experience were implemented. We have listened to our educators and provided additional training. We have embraced the diverse ways in which students learn and have approved 3 charter schools. Our list goes on.

I would be honored to serve another 4 years and would appreciate your vote.

With three children in the district one each in the high school,
middle school and elementary I feel that I can provide a parents
perspective on the board. I have extensive experience in local
government and interact well with other elected officials as well
as administration and staff. There are several issues that I feel
need to be addressed by the school board in the coming years.

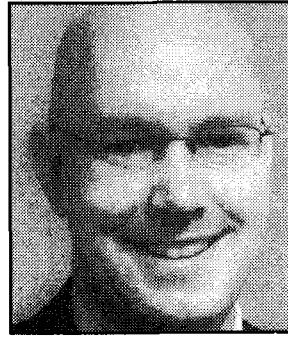

There is currently a facilities plan being formulated and I would
stress during this planning that we need to return to small neigh-
borhood elementary schools. Over the last decade we have
been moving schools out of neighborhoods like the McGloughlin
neighborhood. I believe that this is not only bad for the kids but is
a detriment to the city as a whole. Kids should be able to bike or
walk to school and play on fields in their neighborhood.

I believe that the school board has two main responsibilities.
One is to provide oversight and advice to the superintendent
and staff. The other is to work with our representatives in the
legislature to provide stable funding and to include schools in
the statute allowing system development charges to build new
education infrastructure such as schools, playing fields and other
facilities. New residences should pay their fair share to help build
the schools for the children that will live in them.

If you vote for me I promise to always listen and then vote in the
best interests of the children of our district.

I want to support the work of the Board, Superintendent, administrators, teachers and staff in continuing a sound educational program for our students. I have enjoyed living in Sandy for 18 years and want to provide some community service in return. As a former teacher, I can help bridge the gap between the board and teachers in the district. Good communications are essential as parents, community members and school staff work together to plan a new high school.

I can make the following contributions to the school district:

- My training and experience can help the board set budgets and formulate policies that will ensure that our students can compete successfully beyond high school.
- My technology training will assist in implementing improved computer technology for our students.
- I can facilitate better communication between the board, administration, teachers, staff, and the community.
- I enjoy educating the public about current realities in funding, budget needs of a good program, and the urgent facility needs of the district.
- My experience with school budgets will allow me to help continue financial responsibility in the district.

I Grew up here and attended my 12 years of public education here before joining the US Navy. After deciding to end my military service, I returned to the community that I am very proud to say I am from. That is why I would like to help our schools be a leader in providing the highest level of education possible.

My five children attend Oregon Trail School District schools, one in first grade, one in second grade, one in seventh grade, one in ninth grade, and one in eleventh, so I am not interested in a "quick fix". We need to develop a long-term strategic plan that will carry Oregon Trail schools well into the 21st century.

My oldest son is in Special Education and I know the struggles of parents of children with special needs. I understand the difficulties of the Special Education system and how it can hurt the children, their parents, the teachers and the taxpayers.

We as a community need to work together to support our children with workable and safe environment and facilities that promote learning. This is going to take the community coming together for a common goal. We need to move past the events that may have divided our attention as well as keeping focus on the end goal without allowing ourselves to get sidetracked on issues of lesser importance. Remember, the students of today are the workforce of tomorrow; they will be the engineers, scientists, teachers and doctors after we retire.

I want to ask you to give your support to me as I try and bring our school board back to an elected board rather than an appointed board. I would be humbled to be your elected representative on this board. This again, is why I am asking for your vote.

I believe a good education is one of the most important benefits our society provides for our children. While my son was progressing from first grade through high school graduation in this school district, I was involved in various school committees and activities. Even though he graduated in 1990, I remain committed to helping our district's children obtain the best education we can provide.

I've served as an appointed member of the Oregon Trail School Board since Feb. 2006. In that time I have supported a partnership between the School Board, the faculty and staff, and the community. I bring a willingness to seek out differing perspectives throughout the community and listen openly. I do my homework, spending the time it takes to read and attend community meetings before making decisions.

I am a current volunteer on the Oregon Trail School Board representing Zone 2, Boring. I was appointed to this position in August 2006 to finish out the term of the prior candidate. I am an ardent believer in public education, and would like to continue to serve on this board. As a working mother, with a successful track record in the business world, I bring a broader representation of our community to the school board team. I have long-term ties to our community as a former Sandy High School student, and am a current resident of Sandy with three children in the Oregon Trail School District. My diligent, organized, fiscally responsible approach in work and personal life, combined with strong, consensus-building communication style are assets that I want to continue to contribute in this role. I have years of experience in commercial banking, and earned a Certified Cash Management certification that I continue to maintain; I believe my intimate knowledge and understanding of financial concepts and systems are of added value as a member of the school board. In my current employment at Leatherman Tool Group as Manager of the Information Technology department, I bring leadership, project management, prioritization skills, as well as up-to-date technology savvy that are also valuable assets to share serving our community. I believe this to be a pivotal time for me to volunteer to serve on our school board. I am committed to doing what it takes to try to give back to my community.

My interest in running for the Oregon Trail School District stems from a combination of factors, not the least of which is my two young children nearing school age. Appointed by the board to the Facilities Task Force, I've learned much about the district and its strengths, weaknesses and dire need to have a new high school built. Having taught both elementary and middle school for the past 14 years I well understand the demands placed on students, staff and facilities in public education. I believe I have a realistic sense of the challenges facing today's students and what is needed to ensure they have every opportunity to succeed. Sandy is growing and changing and I see the Oregon Trail School District Board of Directors as playing a crucial role in meeting the needs of students, staff and community.

Our community continues to show its strong support for public schools, specifically, the passage of the 2006 School Bond. Passing the 2006 School Bond was a pivotal milestone for this community and truly showed how much the citizens of the Sherwood School District care about their students and their schools.

Nine years ago, when my wife Kate and I moved to Sherwood, we chose this community because of the school district's commitment to excellence. Our two children, Karina and Kierin have benefited greatly from the education they have received here in our public schools. I sincerely appreciate the opportunity to have represented the citizens of the Boring Rural Fire Protection District #59 over the past 12 years. I look forward to continuing this representation.

Due to expansion of the Urban Growth Boundary into the Damascus / Boring area there will be many challenges and opportunities for the Fire District to meet over the next few years. Careful and deliberate planning will be the key to maintaining the District's exceptional service in a cost effective manner to the community it serves. The Board is currently engaged in a strategic planning effort which will audit of the District's capabilities and establish on direction.

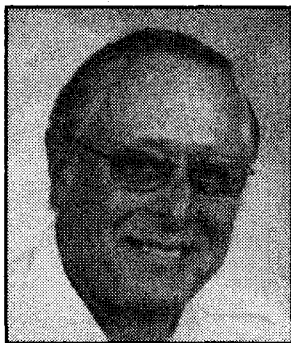

I believe my past experience with the District in particular, the fire service in general, local government, and the regional government will serve the citizens of the District well. My involvement with METRO as an MPAC (Metro Policy Advisory Committee) member representing all the Special Districts of Clackamas County provides me a unique opportunity and insight into growth management issues and transportation issues affecting the District.

**RE-ELECT DAVE McTEAGUE,
CLACKAMAS FIRE DISTRICT #1 DIRECTOR**

In the last four years Dave McTeague has:

- Helped persuade Clackamas County to reduce the impact
of Urban Renewal Districts and Tax Increment Financing
(TIF) on CFD #1, lobbied legislators to limit TIF impacts.
- Helped hire two new fire chiefs from within the fire district,
both committed to team building and positive labor-man-
agement relations.
- Opposed County Commissioner's no-bid contract for ambu-
lance service.
- Represented CFD #1 on the EMS Consortium to coordinate
emergency response between fire districts, ambulance
service, and the county.
- Served on the Oregon Fire District Directors Association
Board.

**DAVE McTEAGUE
EXPERIENCE TO MAKE A DIFFERENCE**

Dave McTeague supports fire safe cigarette laws, fire sprinklers
in all new homes and apartments, necessary staffing for safety &
effectiveness, and improved 911 dispatch.

Dear Neighbors,

Clackamas Fire District #1 is one of the best fire districts in
Oregon staffed by dedicated professionals, assisted by numer-
ous volunteers, with strong public support. I am proud to be part
of a team that always strives to do a better job for fire fighting,
emergency response and public safety. I ask for your vote.

Prior Governmental Experience: Clackamas Co. EMS Council; Clackamas Co. Parks Advisory Board; Fire Medical Administrators of Clackamas Co.; Governor's Youth Advisory Council.

As an 18 year veteran, recently retired from Molalla Fire District, I have an in-depth knowledge and understanding of Molalla's needs. My last eight years were as an administrator for the District that involved everything from budget preparation and finances to assuming fire ground command. I feel that my past experience has provided me with the necessary background, knowledge, and fundamental skills needed to engage myself as an effective and dedicated Director for Molalla RFPD#73. If elected, I would support the needs of Molalla's growing Fire District without hidden agendas, biases or prejudices.

Being a small District, our staff and volunteers work harder and wear more hats than many neighboring districts. Molalla Fire responded to over 2000 emergencies last year, which is nearly double compared to 1990. Molalla Fire will always be dependent on volunteers and must continue to cultivate new volunteers to keep up with the demands of the growing District. Improving daytime staffing to fill voids when the volunteers are not available and replacing aging fire equipment are just a few of the challenges Molalla Fire District faces in the upcoming years. With your vote, I will do my part to ensure that basic fire protection, public fire prevention/ education, and ambulance services will be there when you need them and that those services you have come to expect continue to be offered in an efficient and cost effective manner.

I thank you for your support and vote.

I have 19 years of experience working as a Firefighter. I started
as a volunteer firefighter, progressed to a paid position and now
work as a Lieutenant managing an Engine company. I am a
working Paramedic as well and know the stresses and hardships
associated with caring for and transporting those who are sick
or injured to advanced medical care. Adding my experience on
both the Molalla School District Budget Committee and Molalla
Fire District Budget Committee makes me a well rounded candi-
date for this Board of Directors position.

I believe in being involved in the community. I am an Oregonian
and have lived in Molalla for over five years. During this time I
have seen the rapid growth we are experiencing which creates
the staffing and funding issues that the Fire District faces today.

I am proud of the service that the District provides and am dedi-

that protect our homes and families.

Prior Governmental Experience: None.

I am a fourth generation resident of Sandy, raised on my family's
farm. After high school I attended Mt. Hood Community College
and received my Associate's Degree to be accepted into
Paramedic school. At the same time I began volunteering for
Sandy Fire where I was awarded Probationary Firefighter of the
Year and top volunteer responder two consecutive years. I at-
tended OHSU's Paramedic program earning another Associate's
Degree and national certification as a Paramedic. While volun-
teering with Sandy Fire I worked as an ambulance Paramedic
until I was hired as a Firefighter with the City of Salem. I want
to continue serving my community, now as a board member for
the fire dept. You will find me a loyal, personable, and dedicated
individual with the ability to maintain effective and efficient per-
formance in a conscientious manner. I am competent and results
driven with a proven background at high levels of personal de-
velopment and training, encompassing leadership, team building,
planning, organizing, and problem solving. My combined back-
ground in professional fire service, emergency medical services,
and volunteer fire service are some of the benefits I will bring to
the board. In addition, these experiences have given me a solid
base and broad understanding of new fire and medical tech-
niques, operations, and practices. I want to help guide the depart-
ment where it needs to be now and in the future. I will focus on all
aspects of the fire service, including: personel from managment to
the firefighter level, operations, purchases, Sandy's growth, and
the overall service being provided to the tax payers of the Sandy
Fire District both within the city and rural areas of our district.

I have been involved with the Sandy Fire Department for the last 18 years, either as a budget or board member; I currently serve as Secretary/Treasure for the district.

My decisions as a board member are made to provide our district with the best Fire & Medical service possible. In addition I feel it is equally important to provide our firefighters and volunteers with the best and most efficient equipment possible and a competitive compensation package to maintain the highest quality of staff.

At the present time Fire District #72 is under sound financial management, and I would like it to continue on that path.

I am asking for your support thru your vote, and promise to continue a sound fiscal program to maintain and increase our service to you and our firefighters.

Carol Gearin's nursing background is a great asset for TVF&R's Board of Directors. TVF&R personnel responded to approximately 31,000 emergency calls in 2006 year – nearly 75% were medical. TVF&R has dramatically improved patient care over the last decade by providing advanced life-saving procedures as soon as they arrive on scene, rather than waiting until a patient is transported to the hospital. **TVF&R is recognized as a leader in emergency medical services and Carol Gearin is one of its greatest champions.**

Carol Gearin's history of strong neighborhood involvement helps ensure that TVF&R stays connected to the communities it serves. In her role as a community advocate, Carol has always pressed local governments to respect and involve the residents of her community. At TVF&R, she is a strong voice for firefighters engaging with the community they serve. **One of the reasons TVF&R enjoys strong public support is because Carol insists that the public is never taken for granted.**

As a taxpayer and Board member, Carol Gearin has consistently supported policies that maximize the efficiency of TVF&R operations. Whether deploying "peak activity" units to busy areas, or providing services for a fee to other local governments, such as fire engine maintenance, Carol supports business practices that keep TVF&R's costs reasonable and its service excellent. **Carol will apply the same fiscal responsibility to ensuring that TVF&R's \$77.5 million bond is spent consistent with promises made to the voters.**

formal college education.

Prior Governmental Experience: Board of Directors for Tualatin Valley Fire and Rescue (1998-2007).

Through eight years of service on the Board of Directors for Tualatin Valley Fire and Rescue (TVF&R), Brian Clopton has championed smart financial management, excellent customer service, and "small town" connections between fire stations and their communities. Looking forward, his experience in the construction industry will provide the Board of Directors with practical expertise as it fulfills commitments made to voters to modernize TVF&R's fire stations and apparatus.

As a successful local business owner, Brian Clopton brings a "no excuses" focus on service and financial management to his role on the Board of Directors. He built a successful company by investing with a long-term view, encouraging commitment and pride from employees, and consistently exceeding the expectations of his customers. He strongly supports a similar focus at TVF&R.

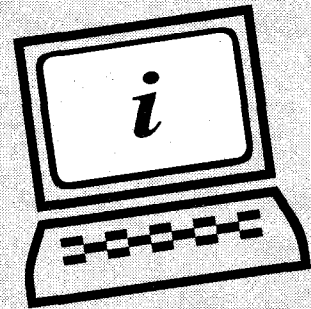

As a life-long resident of the fire district, Brian Clopton has seen housing and employment growth increase demand for critical public services. He also watched small city and rural fire departments work together to create TVF&R, a regional fire district. While an advocate for the financial and operational efficiencies of a regional provider, Brian's deep local roots cause him to strongly support maintaining "small-town" connections between fire stations and the communities they serve.

With thirty year's of experience in the construction industry, Brian Clopton is uniquely qualified to work with the Board of Directors to ensure TVF&R meets the commitments of the \$77.5 million bond voters approved in November 2006. Brian's first-hand experience with project management, financing, and contractor relations will be invaluable as the Board helps ensure that 15 projects are completed within budget and in a timely manner.

Keep Brian Clopton on the TVF&R Board of Directors. He has the skills to help shape the District's future and the experience to retain important traditions from its past.

Got water? Sounds simple, doesn't it? But there is a lot of hard work by a small group of volunteers and staff behind every drop of water that comes to your home, your business, your farm or other location in the Boring area.

There are many things folks can do without in life, but water is not one of them. Our small water district is faced every day with challenges that are major issues. These same issues aren't as devastating in larger water districts which have the resources and manpower to cope with several projects at the same time.

I believe I have the background and commitment to work as a Boring Water Board member and help make decisions that will continue to provide high quality water, good flow, a stable system and a fair price.

Elect Commissioners Who Look Out for YOU

I am asking for your vote to help me make Clackamas River Water (CRW) Commissioners and management accountable to you, the Ratepayer. Ratepayers can no longer pay for the sort of continuing irresponsible financial management reported in *The Oregonian* on November 25, 2006.

CRW water rates went up 8% last year and are among the highest in the Metro area. The current Commissioners are considering raising them again!

Currently, the majority of CRW Commissioners are appointed, not elected. Recent examples of financial irresponsibility and poor management include:

- Declaring real estate and other property surplus and attempting to sell it without appraisal or competitive bidding; a \$1,000,000 property (estimated value) for \$92,500; a lightly used \$22,000 riding lawn mower declared surplus for \$10,000.
- Failure to collect water revenues because of a flawed billing system.
- Failure to maintain an approved Conservation Program required to perfect our water rights.

It is time for YOU to elect Commissioners who will dig into the details and hold CRW management and staff accountable to run an efficient and responsive water district.

I APPRECIATE THE OPPORTUNITY TO WORK FOR YOU

Common Sense Commissioners Needed

I am asking for your vote to bring common sense and accountability back to the Clackamas River Water (CRW) district.

Rate Payers have not elected three of the five incumbent Commissioners who have **raised our rates 8% while depleting income producing assets!** And these appointed commissioners (i.e. Larry Robertson) are looking at **raising rates again!** Does that make sense to you?

Commissioners considered selling a "surplus" property, with an estimated valuation of \$1,000,000, for **only \$92,500** (to a private buyer), potentially leaving over \$900,000 of public funds on the bargaining table. Where is the accountability?

CRW recently **sold off a portion of its service area that contained commercial customers** including Kaiser Hospital to a neighboring water utility for **only \$785,000 (estimated)**. When asked by citizenry (prior to final approval date) for information on the valuation process of the assets in the transaction, the General Manager failed to fully respond to the public information request and the sale was approved. Does that make any sense to you?

It is time that ratepayers **ELECT** commissioners that will insist upon common sense, accountability and ethical management of **our** Water District.

Prior Governmental Experience: Appointed Commissioner,
Clackamas River Water District Nov 16, 2006.

These are challenging times for the Clackamas River Water District. Annexations threaten our water supplies; our infrastructure must be preserved for existing customers and for new ones, as well as new businesses in the area. The growth demands for the District require a more comprehensive approach. We must tackle the issues of water rates, conservation, costs of operation and, of course, keeping our rivers and streams clean and drinkable, while meeting the demands for the recreational uses of these bodies of water.

I have no agenda but to serve the citizens of the District. I will be fair and straightforward in the managing of the District, its staff, and the General Manager. Making the right choices may be hard at times, but making difficult decisions has been part of my professional life; I will not shrink from my responsibilities.

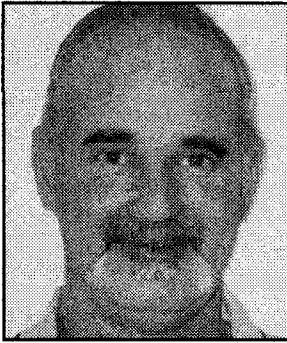

I will be there when you need action to resolve a problem, a worker to conserve water or a listening post to voice your opinion. I will work to make sure your water bill is accurate, inspections are done in a timely manner, and we have a clean water supply that will meet our needs today, tomorrow and into the future.

We face difficult choices on water issues with long-term consequences. Our challenge is to continue to provide ample, safe and affordable water service without sacrificing the environment. As a public agency, we must also perform to the highest standards of customer service, professionalism and ethics. As a Board member, I will help set clear goals and direction. I ask for your support.

I am asking for your vote to make your water district accountable
to you, the Rate Payer. Your rates are among the highest in the
Metro area and were raised 8% last year. **Rates stand to be
raised again!**

Although newly appointed, **Cornelius Booker agreed to estab-
lish a rate committee and consider raising rates – possibly
50% or more** – before looking for ways to reduce CRW ex-
penses. CRW management acknowledges its error prone billing
system frequently fails to correctly bill some customers. Instead of
fixing the billing system, your rates go up.

Commissioners Booker and Koliass were designated to recruit and
interview public volunteers to serve on the 2007-2008 Budget
Committee. Booker and Koliass failed to consider applications from
highly qualified applicants. Instead, they recommended a former
Commissioner whom the Oregon Government Standards and
Practices Commission ordered to reimburse CRW for violating
Oregon Statutory Regulation 244.040(1)(a) prohibiting public of-
ficials from using their official position to obtain financial gain.

CRW Rate Payers deserve Commissioners who will work hard
to protect Rate Payer interests, refuse to support arbitrary rate
increases, fight wasteful expenditures, and hold CRW manage-
ment to the highest ethical and performance standards. I need
your help to do that job!

STOP DEPLETING DISTRICT ASSETS!!

I am asking for your vote to help me make our Water District **ac-
countable to ratepayers**. We should reject financial irresponsi-
bility and poor management.

The CRW General Manager and board were **determined to sell
3.445 acres of industrial property for only \$92,500**. Most of
CRW's \$664,000 investment in the parcel from which this acre-
age was to be partitioned is attributable to these 3.445 acres. I
contested this proposal for over a year and finally stopped it by
making a personal offer (which, as I anticipated, they declined) of
\$110,000. See CRW minutes for April, October, and November
2007, and Steve Mayes' 11/25/2006 article in *The Oregonian*. I
did the same with a smaller parcel this February (again, my offer
was refused and they put it on hold).

In the meantime, the board passed an 8% rate increase.

I have monitored CRW meetings for nearly 7 years, starting
when a past board sold 20% of treatment capacity to Rockwood
(with no prior discussion with the ratepayers of this district)
and planned to sell another 20% to Gresham. These sell-offs
and others anticipated could eventually have made it necessary
for us, the ratepayers, to build a new plant to handle our own
needs.

I believe commissioners should be supportive of good man-
agement, but should actively evaluate management actions
and question those which appear fiscally or environmentally
unsound. It is important to utilize the contribution of citizens who
often have experience and valuable first-hand information that
is not found elsewhere. They should not simply "rubber-stamp"
management proposals.

I am committed to encourage citizen's participation in the governance of the District through open discussions at Board meetings. I am determined to represent the District's citizens by keeping rates low and the assets of the District in good repair.

I believe that Oak Lodge needs to maintain the three member representation on the North Clackamas County Water Commission even as the NCCWC explores expanding membership.

I will work to improve the proceedings of Board meetings by changing the rules of order allowing a Board member to place an item on the agenda without the approval of the Board itself. The District Manager can place items on the agenda, but a Commissioner cannot request an item placed on the agenda without the consent of a majority of Board. This needs to be changed.

If you agree, I ask for your SUPPORT and VOTE. I would be honored to continue my work as an Oak Lodge Water District Commissioner.

I have also provided support services to three water districts. Rivergrove Water District is one of the districts that I have supported for the last 27 years. The support involved attending most of the monthly meetings, designing or plan checking for new construction within the district and giving general advice on operations. I am entering partial retirement and have given my notice to the Rivergrove Water District that I will no longer be providing engineering services. However I would like to maintain my association with the Rivergrove Water District by becoming a Board Member.

I have worked in the Environmental Field for 17 years. The past 11 years has been with the Bureau of Environmental Services for the City of Portland. There I am responsible for monitoring the local area rivers and streams for water quality. This would include heavy metals such as Arsenic, Lead and Mercury down to the parts per trillion in those bodies of water. As well, I have monitored for both E-coli and fecal bacteria as part of my prior job duties with the City of Portland.

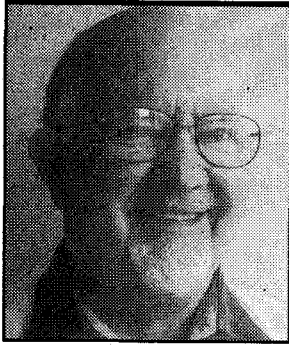

My current duties include the outlining and assessment of Capital Equipment expenditures for the City of Portland's Water Pollution Control Laboratory. Those purchases allow for the efficient analysis of the area's rivers, streams and treatment plant effluents to ensure proper monitoring and compliance with Oregon DEQ and EPA Region 10 guidelines and permits.

I feel my experience with water quality in the Portland Metro area, as well as with Capital Investment Assessment would be a great asset to the Sunrise water Authority.

Prior Governmental Experience: Commissioner Rural Fire Protection District 65; Budget Committee North Clackamas County Fire District #1; Commissioner, Mt. Scott Water District; Commissioner, Sunrise Water Authority; Commissioner, North Clackamas County Water Commission.

My wife and I have lived in the Water District and the City of Happy Valley for 42 years. Our four children attended North Clackamas Schools.

I have served on the Mt. Scott Water District Board and on the Sunrise Water Authority Board for twenty years. During this time I worked to combine the Mt. Scott and Damascus water districts into the Sunrise Water Authority which allowed the Authority to better utilize the employees of the two districts and protect the infrastructure within the boundaries of the Authority.

I have participated in the formation of the North Clackamas County Water Commission and currently serve as a board member. The commission members Oak Lodge Water District, Sunrise Water Authority and the City of Gladstone have constructed a modern water treatment plant to serve the needs of our customers.

If elected I will continue to work toward maintaining the high quality of the water that the Authority provides and keep rates as reasonable as possible for our rapidly growing customer base.

Have served as a commissioner on the Sunrise Water Authority since that time and served as Board Secretary for the 1998-1999 fiscal year.

I currently represent you as a commissioner of the Sunrise Water Authority and am the representative from Sunrise to the North Clackamas County Water Commission. The North Clackamas County Water Commission is the water provider for Oak Lodge Water District, Sunrise Water Authority and the City of Gladstone.

In my professional life, I am the Executive Director of the Pacific NorthWest Section/American Water Works Association and have held that position for the last sixteen years. This organization has approximately 2,800 members all of which are involved in the water industry and encompasses, Idaho, Oregon and Washington. In my work with this group I meet and work with water professionals from all over the United States, Canada, Puerto Rico and Mexico.

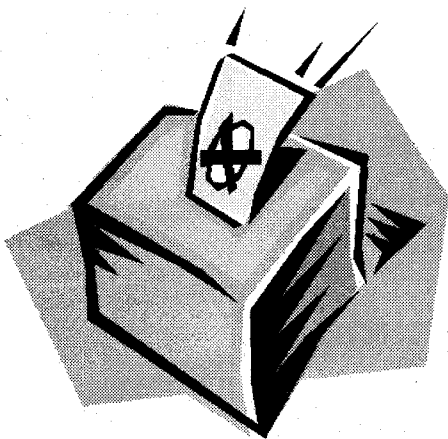

The drinking water profession is a very complex business and I feel Sunrise Water Authority must act as a business. As a member of the Board of Commissioners of Sunrise, I promise to keep this goal in view in the decisions of the district and to continually strive for efficient and cost effective methods of operation.

I will listen to your concerns and serve your drinking water needs to the very best of my ability while in office.

Canby Area Parks and Recreation District (CAPRD) is a special district like Tualatin Park and Recreation District in Beaverton, but it is not funded. The boundaries of the district is similar to the Canby School District boundaries. Over the last year we have been working with the City of Canby conducting surveys and doing research to determine the needs of the citizens. I like many Canby citizens have watched over the past twelve years as houses and industry have gobbled up our farmland and open space. I believe there is a great financial imbalance of one of our greatest resources, parks and recreation, which is under-funded. I have listened to citizens express their concerns and feel that the only proven way we can have a stable, dedicated funding for parks and recreation is through a parks and recreation district. One of the reasons we chose to raise a family in Canby was because of the open spaces, the natural resources, and the opportunity to participate in a wide variety of sports locally. I became a Canby Area Parks and Recreation Board member in 2003 in hopes of helping create a system that would preserve Canby's open spaces, natural resources and recreational opportunities for all citizens. I ask for your vote so we can continue our progress to create a stable, dedicated funding source, leaving a legacy through parks and open space for generations to come.

I am happy and fortunate to put my name forward as a candidate to serve on the Oak Lodge Sanitary District Board.

I believe my 20+ years of experience as an engineer and an engineering manager will be a significant benefit to the Board and District, especially my experience with budgets, personnel, project management, and risk management.

My priorities, if elected, include:

- Meeting the needs of the community by minimizing rates while providing high quality services
- Meeting legal requirements
- Assisting in the completion of the District's Sanitary Sewer System Master Plan
- Participating in related state and local activities, such as planning
- Being a constructive partner with other governmental and service organizations and community groups
- Being forward-looking – anticipate issues and requirements

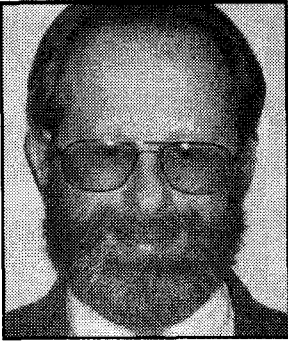

For the community to trust the Board and District organization and to support their activities and strategies, communication and responsiveness are required. I support and will work towards an open relationship between the District, Board, and community.

I look forward to the opportunity to work with the professionals at the Oak Lodge Sanitary District and colleagues on the District Board.

When the Oak Lodge Sanitary District (OLSD) Wastewater Treatment Plant was built over 40 years ago, it was considered a model for other districts along the Willamette. Now it is deteriorating, and facing environmental regulations with which it might not be able to comply.

OLSD is no longer a model plant.

- Maintaining status quo is not feasible.
- Band-aid solutions only delay the inevitable.
- The longer it takes to make a decision, the more expensive it becomes.

Don't take my word for it.

See for yourself. Call the district office at 503-653-1653 to arrange a tour.

There are three options for the future of our sanitary district:

- Remain independent and replace the plant. Cost is borne entirely by OLSD ratepayers.
- Replace and expand the plant to accept wastewater from neighboring districts. Cost is shared by ratepayers from OLSD and other districts.
- Merge with other districts and build a new regional facility. Cost is spread among all ratepayers served by the new district.

While serving on the MPCAC, I stated that I would represent the interests of ratepayers, not district management, the board of directors, or other service districts. I believe the board must move quickly to decide the future of our district.

I am an independent thinker able to make informed decisions. I seek your support to become a Board Director of the Oak Lodge Sanitary District.

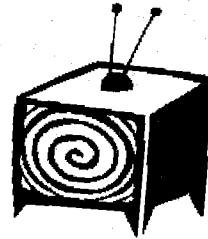

Go ahead, cast a WILD vote!
