

1012 LOT SIZE AND DENSITY

1012.01 APPLICABILITY

Section 1012 applies to the following land use permit applications in any zoning district that has a minimum lot size standard, district land area standard, or minimum density standard, except AG/F, EFU, and TBR:

- A. Subdivisions;
- B. Partitions;
- C. Replats;
- D. Design review for manufactured home parks, congregate housing facilities, and dwellings, including residential condominiums; and
- E. Conditional uses for manufactured home parks and dwellings.

1012.02 MINIMUM LOT SIZE EXCEPTIONS

In subdivisions, partitions, and replats, lots and parcels shall comply with the minimum lot size standards, if any, of the applicable zoning district, except as established by Subsections 1012.02(A) through (H).

- A. Bonus Density: If a smaller lot size is necessary to provide bonus density dwelling units awarded under Subsection 1012.05(E), the minimum lot size standard of the applicable zoning district is waived. Demonstrating compliance with this standard shall not require the proposed development to be a planned unit development or require that attached-single-family dwellings be developed in lieu of detached single-family dwellings.
- B. Two or More Lawfully Established Dwellings on One Lot of Record: If a lot of record is not large enough to be divided in compliance with the minimum lot size standard of the applicable zoning district, the standard is waived if there are two or more lawfully established dwellings located on one lot of record with a Comprehensive Plan land use plan designation of Low Density Residential, Unincorporated Community Residential, or Rural. At least one of the lawfully established dwellings shall be located on each lot or parcel created pursuant to Subsection 1012.02(B). Subsection 1012.02(B) does not apply to the creation of separate lots or parcels for:
 - 1. Accessory dwelling units;
 - 2. Accessory farm dwellings on a lot of record with a land use plan designation of Rural if the accessory farm dwelling was established after October 4, 2000;

3. Manufactured dwellings and residential trailers established under a temporary permit;
 4. Manufactured dwellings and residential trailers established within a manufactured dwelling park or a manufactured home park; and
 5. Dwellings established as a “replacement” for a historic landmark dwelling, where the continued use of the historic landmark dwelling for residential purposes was permitted as a conditional use in an HL, HD, or HC overlay zoning district.
- C. Conditional Use: If the subject property is developed, or approved to be developed, with a conditional use, the minimum lot size standards of the applicable zoning district are waived, provided:
1. If a minimum lot size for the conditional use is established by Section 800, *Special Use Requirements*, it remains applicable.
 2. The proposed lot size requires approval pursuant to Section 1203, *Conditional Uses*. However, approval pursuant to Section 1203 does not waive the requirement to also receive approval pursuant to Section 1105, *Subdivisions, Partitions, Replats, Condominium Plats, and Vacations of Recorded Plats*.
 3. The minimum lot size waiver applies only to a lot or parcel developed with the conditional use and not to any other lots or parcels in the proposed subdivision, partition, or replat.
 4. A deed restriction limiting development of an undersized lot or parcel to the approved conditional use shall be recorded in conjunction with the recording of the final plat.
 5. This lot size exception does not apply in the RA-2 or RR Districts, and the minimum lot size for the lot or parcel developed with the conditional use is two acres in the RRFF-5 and FF-10 Districts. In addition, two- and three-family dwellings in an R-5, R-7, R-8.5, R-10, R-15, R-20, R-30, or RA-1 District are subject to Subsection 1012.02(F) in lieu of Subsection 1012.02(C).
- D. Comprehensive Plan Boundary: If through a Type IV Comprehensive Plan map amendment, a lot of record is divided by a Comprehensive Plan land use plan designation boundary, the lot of record may be partitioned along that boundary (access strips and parcels of less than one acre are excluded). If the boundary separates an Agriculture or Forest designation from an Urban, Unincorporated Community, or Rural designation, the exception to the minimum lot size standards does not apply to the portion of the subject property designated Agriculture or Forest, except to the extent that Subsection 401.09(H) or 406.09(G) also applies.

- E. Attached Single-Family Dwellings: In an R-5, R-7, R-8.5, R-10, R-15, R-20, or R-30 District, the minimum lot size for a lot or parcel to be developed with an attached single-family dwelling is 2,000 square feet, except in a planned unit development where there is no minimum lot size. Notwithstanding this minimum lot size exception, the maximum density standards of Subsection 1012.05 continue to apply.
- F. Two- and Three-Family Dwellings: In an R-5, R-7, R-8.5, R-10, R-15, R-20, R-30, or RA-1 District, there is no minimum lot size for a lot or parcel to be developed with a two- or three-family dwelling pursuant to Section 1203, *Conditional Uses*. However, the maximum density standards of Subsection 1012.07 apply to the entire property proposed for development with two- or three-family dwellings prior to the creation of new lots or parcels. This has the effect of implementing an average lot size for a development of two- or three-family dwellings of two or three times, respectively, the minimum lot area per dwelling unit established by Table 1012-2, except to the extent that Subsections 1012.07(C) and (D) allow a reduction in this average.
- G. The minimum lot size standards of the applicable zoning district are waived for a designated nonresidential tract for a private road, open space, or similar support purpose.
- H. Notwithstanding Subsections 1012.02(B) through (D), the minimum lot size inside the Portland Metropolitan Urban Growth Boundary is 20 acres in the FF-10, RA-1, RA-2, RC, RI, and RRFF-5 Districts, except as provided by Subsection 3.07.1130(c) of the Code of the Metropolitan Service District.

1012.03 MAXIMUM LOT SIZE

In subdivisions, partitions, and replats in the VR-5/7, VR-4/5, and VTH Districts, lots and parcels shall comply with the maximum lot size standards of the applicable zoning district, except as established by Subsections 1012.03(A) through (C) for the VR-5/7 and VR-4/5 Districts.

- A. A portion of the subject property may be excluded when calculating average lot size for the subdivision, partition, or replat pursuant to Note 4 or 5 of Table 315-3, *Dimensional and Building Design Standards in the VR-5/7, VR-4/5, and VTH Districts*, or when calculating maximum individual lot size, provided that a master plan for the excluded portion of the subject property demonstrates that the maximum lot size standards can be met for the entire property through future land division.

- B. Unless a master plan is provided pursuant to Subsection 1012.03(A), the maximum size of a lot or parcel created for a dwelling lawfully established prior to being zoned VR-5/7 or VR-4/5 is 15,000 square feet unless the dwelling is in a resource protection area, as shown on Comprehensive Plan Map X-SV-1, *Sunnyside Village Plan Land Use Plan Map*, in which case there is no maximum lot size standard. Such a lot or parcel is excluded when calculating average lot size for the subdivision, partition, or replat pursuant to Note 4 or 5 of Table 315-3.
- C. Resource protection area, as shown on Comprehensive Plan Map X-SV-1, is excluded when calculating average lot size for the subdivision, partition, or replat pursuant to Note 4 or 5 of Table 315-3 or when calculating maximum individual lot size.

1012.04 GENERAL DENSITY PROVISIONS

- A. Density is a measurement of the number of dwelling units in relationship to a specified amount of land. In the context of a partition, subdivision, replat, or manufactured home park, density typically relates to potential dwelling units in the form of lots, parcels, or manufactured home park spaces. Density often is expressed as dwelling units per acre; however, this Ordinance implements density standards in many zoning districts by assigning a district land area (DLA), which is the starting point for determining the maximum number of dwelling units allowed on a particular site. In general, the DLA is the minimum lot area required per dwelling unit; however, the DLA is subject to adjustment for density bonuses, restricted area development limitations, and limits on the extent of new road area that must be subtracted.
- B. The DLA and the minimum lot size standard applicable to a particular zoning district are seldom the same. Often this is because the maximum density derived from the DLA standard is calculated over the entire site prior to any platting of new lots or parcels. The minimum lot size standard then typically permits flexibility in determining where on the site the allowed dwelling units will be developed. For example, some lots may be relatively large while others are smaller, or open space tracts may be platted while all lot sizes are relatively small. Regardless of allowed flexible sizing of individual lots or parcels, however, the maximum density allowed for the entire site remains the same.
- C. If the subject property is currently developed with one or more dwelling units that will be retained, such dwelling units shall be included in demonstrating compliance with the maximum and minimum density standards of Section 1012. Notwithstanding this provision, accessory dwelling units and temporary dwellings approved pursuant to Section 1204, *Temporary Permits*, are not included in demonstrating compliance with the density standards, provided that these dwellings will continue to comply with the requirements for accessory dwelling units or temporary dwellings, respectively.

- D. If a subdivision, partition, or replat is proposed on property currently developed with two-family, three-family, or multifamily dwellings (or with a current design review approval for such development), maximum and minimum density shall be calculated separately for each proposed lot or parcel, except in a planned unit development or a development of two- or three- family dwellings approved pursuant to Subsection 1012.07, in which case maximum and minimum density shall be calculated for the entire property proposed for development prior to the creation of new lots or parcels.
- E. In a zoning district that does not allow new detached single-family dwellings, a lot created for a nonconforming detached single-family dwelling shall not be included in the gross site area used to calculate minimum and maximum density for the remaining lot(s).

1012.05 MAXIMUM DENSITY

If this Ordinance establishes a district land area (DLA) for the applicable zoning district, the proposed development shall be limited to a maximum density. Except as necessary to implement a minimum lot size exception granted pursuant to Subsection 1012.02 or as established by Subsections 1012.06 and 1012.07, maximum density shall be calculated as follows.

- A. Calculate the land area of the subject property. The result is gross site area (GSA).
- B. Subtract the following from GSA to determine net site area (NSA). In the event of an overlap between categories requiring a subtraction, the area of overlap shall be classified in the most restrictive category.
 - 1. The land area of new county, public, or private roads (NR) in the HR, MRR, Urban Low Density Residential, VR-4/5, VR-5/7, and VTH Districts, except:
 - a. If NR exceeds 15 percent of the GSA, only 15 percent of the GSA shall be subtracted.
 - b. No subtraction shall be made for strips of land adjacent to existing road rights-of-way when such strips are required to be dedicated as a condition of approval;
 - 2. In a zoning district other than HR and MRR, any land area of the GSA in the following highly restricted areas (HRA), except that no subtraction shall be made for HRA that will remain undeveloped, in which case density accruing to these areas may be transferred to unrestricted areas:
 - a. Slopes greater than 50 percent;

- b. Mass movement hazards regulated by Section 1003, *Hazards to Safety*;
 - c. The floodway of the Floodplain Management District regulated by Section 703, *Floodplain Management District*;
 - d. The Willamette River and the required buffer area regulated by Section 705, *Willamette River Greenway*;
 - e. Habitat Conservation Areas regulated by Section 706, *Habitat Conservation Area District (HCAD)*; and
 - f. Water Quality Resource Areas regulated by Section 709, *Water Quality Resource Area District*; and
3. In a zoning district other than HR and MRR, fifty percent of the land area of any portions of the GSA in the following moderately restricted areas (MRA), except that no subtraction shall be made for MRA that will remain undeveloped, in which case density accruing to these areas may be transferred to unrestricted areas.:
- a. Slopes equal to or greater than 20 percent and less than or equal to 50 percent; and
 - b. Areas outside the floodway but within the Floodplain Management District regulated by Section 703.
4. In the HR and MRR Districts, any land area of the GSA in the following highly restricted area (HRA). Residential development is prohibited in the HRA.
- a. The Floodplain Management District regulated by Section 703; and
5. In the HR and MRR Districts, 50 percent of the land area of the GSA in the following moderately restricted areas (MRA). Residential development is prohibited in the MRA.
- a. Slopes greater than 25 percent;
 - b. Mass movement hazards regulated by Section 1003; and
 - c. Wetlands and required buffer areas regulated by Subsection 1002.06 or another public agency.
6. In the HR and MRR Districts, although no subtraction is required for stream corridor areas, residential development is prohibited in these areas.

- C. Divide the NSA by the DLA of the applicable zoning district. The result is base density (BD). The calculations that result in a determination of BD are represented by the following formula:

$$\{GSA - [NR + HRA + (MRA \times 0.5)]\} / DLA = BD^*$$

* Except in the HR and MRR Districts, HRA and MRA may be reduced to zero as provided by Subsections 1012.05(B)(2) and (3).

- D. In the MRR District, the calculation in Subsection 1012.05(C) shall be done separately for each proposed unit size category identified in Table 317-3. This requires the applicant to identify the square footage of the NSA that is attributed to each unit size category. The results of each separate calculation shall be added to determine BD.
- E. Add any applicable density bonuses to BD. Bonus density shall be allowed subject to the following criteria:
1. The proposed development shall include a minimum of four dwelling units, excluding accessory dwelling units and temporary dwellings approved pursuant to Section 1204, *Temporary Permits*.
 2. The bonus density categories and corresponding maximum increases to BD, as well as the zoning districts to which the bonus density categories are applicable, are identified in Table 1012-1, *Bonus Density*.
 3. In the MRR District, dwelling units allowed through the bonus density provisions shall be developed with the same unit size mixture as provided in the BD. For example, if a development is proposed with a BD of 50 units of 700 square feet and 50 units of 500 square feet, and a bonus density of 10 units is allowed, the 10 bonus units shall include 5 units of 700 square feet and 5 units of 500 square feet.

Table 1012-1: Bonus Density

Bonus Category	Maximum Increase in the HR and Urban Low Density Residential Districts	Maximum Increase in the HDR, MR-1, MR-2, MRR, and PMD Districts
Affordable Housing: Dwelling units qualifying and approved for housing for low-income families or for the elderly under a federal, state, or local program will be provided in the development.	One dwelling unit per affordable dwelling unit up to 5 percent of the base density	One dwelling unit per affordable dwelling unit up to 8 percent of the base density
Park Dedication: Land will be dedicated as a park and accepted by a government agency pursuant to Subsection 1011.04.	10 percent of the base density	10 percent of the base density
Habitat Conservation Area: At least 75 percent of the HCA on the subject property will be protected from development by a restrictive covenant or a public dedication.	Not applicable	25 percent of the base density; This bonus density provision is also applicable in the SHD and VA Districts.
MAXIMUM TOTAL INCREASE	15 percent of the base density	43 percent of the base density

- F. Any partial figure of one-half or greater shall be rounded up to the next whole number, except partial figures shall be rounded down for a subdivision, partition, or replat of 10 lots or fewer in an Urban Low Density Residential, VR-4/5, or VR-5/7 District.
- G. The result is maximum density, except that the result shall be reduced as necessary to:
 1. Comply with the minimum lot size standards, if any, of the applicable zoning district, as modified by Subsection 1012.02;
 2. Ensure that, in an R-2.5 District, the density of the developed portion of the subject property does not exceed one dwelling unit per 2,420 square feet of land area; and
 3. Ensure that, in all other Urban Low Density Residential Districts, the density of the developed portion of the subject property does not exceed one dwelling unit per 3,630 square feet of land area.

1012.06 MAXIMUM DENSITY IN THE VA, VTH, VR-4/5, AND VR-5/7 DISTRICTS

In the VA, VTH, VR-4/5, and VR-5/7 Districts, maximum density shall be calculated pursuant to Subsection 1012.05, except if any restricted areas, as identified in Subsections 1012.05(B)(2) and (3), are to be developed, in which case:

- A. A district land area of one acre shall apply to the restricted areas proposed for development, and such areas shall not be developed at a density greater than one dwelling unit per acre.
- B. The steps identified in Subsections 1012.05(B)(2) and (3) shall be omitted when completing the calculations for the restricted areas to be developed.

1012.07 MAXIMUM DENSITY FOR TWO- AND THREE-FAMILY DWELLINGS IN URBAN LOW DENSITY RESIDENTIAL DISTRICTS

In the R-5, R-7, R-8.5, R-10, R-15, R-20, R-30, and RA-1 Districts, developments of two- or three-family dwellings approved pursuant to Section 1203, *Conditional Uses*, shall be limited to a maximum density, which shall be calculated as follows:

- A. Calculate the land area of the subject property. The result is gross site area (GSA).
- B. Divide GSA by the minimum lot area per dwelling unit (MLA) of the applicable zoning district as shown in Table 1012-2, *Minimum Lot Area per Dwelling Unit*. The result is base density (BD).

Table 1012-2: Minimum Lot Area per Dwelling Unit

Zoning District	Minimum Lot Area per Dwelling Unit (in square feet)
R-5	3,333
R-7	4,662
R-8.5	5,661
R-10	6,660
R-15	9,990
R-20	13,320
R-30	19,980
RA-1	43,560

- C. Except in the RA-1 District, add any applicable density bonuses to BD. Bonus density shall be allowed pursuant to Subsection 1012.05(E). However, if affordable housing is provided pursuant to Table 1012-1, *Bonus Density*, but affordability requirements are not specified by a federal, state, or local program as required by Table 1012-1, an affordability covenant or other mechanism to ensure affordability, deemed acceptable by the County, shall instead be attached to the affordable dwelling units.
- D. Any partial figure of one-half or greater shall be rounded up to the next whole number, except partial figures shall be rounded down in a subdivision, partition, or replat of 10 lots or fewer.
- E. The result is maximum density.

1012.08 MINIMUM DENSITY

A minimum density standard applies in the Urban Low Density Residential, HDR, MR-1, MR-2, PMD, RCHDR, SHD, and VA Districts. Minimum density shall be calculated as follows:

- A. Calculate the land area of the subject property. The result is gross site area (GSA).

- B. Subtract the following land area from GSA to determine net acreage:
1. New county, public, or private roads and strips of land dedicated adjacent to existing road rights-of-way;
 2. Slopes equal to or greater than 20 percent;
 3. Mass movement hazards regulated by Section 1003, *Hazards to Safety*;
 4. Areas in the Floodplain Management District regulated by Section 703, *Floodplain Management District*;
 5. The Willamette River and the required buffer area regulated by Section 705, *Willamette River Greenway*;
 6. Habitat Conservation Areas (HCA) regulated by Section 706, *Habitat Conservation Area District (HCAD)*, provided that the HCA, or portion thereof, to be subtracted is protected from development by a restrictive covenant or a public dedication, and provided that the subject property was inside the Portland Metropolitan Urban Growth Boundary on January 1, 2002;
 7. Water Quality Resource Areas regulated by Section 709, *Water Quality Resource Area District (WQRAD)*; and
 8. Land to be dedicated to the public for park or open space use.
- C. In the RCHDR District, the minimum density is 30 dwelling units per net acre. Otherwise, divide by the district land area of the applicable zoning district and multiply the result:
1. By 80 percent in Urban Low Density Residential Districts. However, partitions in these districts have no minimum density requirement provided that a master plan demonstrates that the minimum density for the entire property can be met through future land division;
 2. By 80 percent in the PMD and MR-1 Districts, except in the case of a manufactured home park where the result shall be multiplied by 50 percent;
 3. By 90 percent in the MR-2, HDR, and SHD Districts; or
 4. By 50 percent in the VA District.
- D. Any partial figure of one-half or greater shall be rounded up to the next whole number.
- E. The result is minimum density.

CLACKAMAS COUNTY ZONING AND DEVELOPMENT ORDINANCE

[Amended by Ord. ZDO-245, 7/1/13; Amended by Ord. ZDO-249, 10/13/14; Amended by Ord. ZDO-250, 10/13/14; Amended by Ord. ZDO-252, 6/1/15; Amended by Ord. ZDO-266, 5/23/18]
