

SURVEY MAP INDEX BLOCK

In our efforts to standardize and to eliminate rubber stampings on drawings we now require that an index block (approximately 2" X 3") be placed in the upper right corner (horizontal direction) of all Record of Survey maps. This location is required as part of our new system of vault file drawers.

Block and location are as follows:

<p>CLACKAMAS COUNTY SURVEYOR</p> <p>DATE RECEIVED: _____</p> <p>DATE ACCEPTED / FILED: _____</p> <p>SURVEY NUMBER: _____</p>
