RESPONSE TO CLARIFYING QUESTIONS
September 14, 2017

Note that these are questions submitted by interested firms to the above referenced solicitation. The below answers are for clarification purposes only and in no way alter or amend the RFQ as published.

1. The RFQ states, “*Typical measurement accuracy of the instrument without control points and open sky condition...*”. For clarification is that “*without control points and without open sky condition*”, or “*with open sky condition*”?

Answer: Sentence clarification: Typical measurement accuracy of the instrument without control points and with open sky conditions. Add the word ‘with’ between the words ‘and’ and ‘open’ in the sentence, to read: “*Typical measurement accuracy of the instrument without control points and with open sky condition...*”
