BACKGROUND

The McLoughlin Area Plan (MAP) committee has been working with the community for nearly three years to develop a plan that describes a long term vision for this unincorporated area of the County. The committee completed their first phase of work in May 2010, which identified the vision, values and guiding principles that will be used as a guide for future improvements to the area.

The second and current phase of work began soon after and is focusing on identifying specific projects and programs that, if implemented, will assist the community in realizing their vision. Furthermore, Phase 2 will include discussion on viable funding mechanisms that could be used to implement the recommended projects and programs.

The presenters will update the Board on the progress the committee has made in Phase 2 of this process. The attached documents are submitted as background for the presentation and include:

- Attachment A: Vision, Values and Guiding Principles
- Attachment B: McLoughlin Area Plan Vision Map
- Attachment C: Memorandum titled Top Priority Projects from MAP Committee and Public Input, dated August 29, 2011
- Attachment D: List of Potential Capital Projects, Suggested by the Public
- Attachment E: List of Potential Programs, Suggested by the Public

The intent is for the committee to present final recommendations to the Board by the end of the year.
