Mission Statement

The mission of the Clackamas County Sheriff's Office is to provide public safety and law enforcement services to the people of Clackamas County so they can experience and contribute to a safe and secure community.

Issue Statements

1. Demand for Services

The increased demand for services driven by population growth, increased urbanization, traffic congestion, homelessness, drug use and addiction, a growing mental health crisis, and increased complexity of the criminal justice system, if not properly addressed, will result in:

- Diminished community safety and quality of life
- An increased number of unsolved and uninvestigated crimes
- An increased risk of victimization
- An increased number of traffic fatalities and injuries
- A decreased ability to deliver justice and hold offenders accountable

2. Aging Jail

The rapidly increasing demand for jail space and the inability to meet current demand, combined with an aging and out-of-date facility with an insufficient number of jail beds based upon the current and growing population, if not properly addressed, will result in:

- An increased risk to the safety of staff and inmates
- Forced releases of offenders into the community, causing an increased risk to public safety
- A diminished ability to remove criminals from the community
- An increased rate of failures to appear in court and a corresponding increased demand on resources to re-apprehend those offenders who fail to comply with court orders

3. Holding Offenders Accountable

The expectation to hold offenders accountable, combined with the increasing instances of offenders with addiction issues and/or a mental health diagnosis and the demand for specialized, innovative treatment, if not properly addressed, will result in:

- Diminished public trust
- An increased number of repeat offenders in the criminal justice system
- An increased rate of victimization by repeat offenders
- An increased workload on first responders to address repeat offenders

Issue Statements (continued)

4. Criminal Justice System

The continued lack of overall direction and integration of services across Clackamas County's criminal justice system, if not properly addressed, will result in:

- A limited understanding of the range of Sheriff's Office functions and services
- Sheriff's Office receiving calls for service in lieu of other County departments
- A drain on Sheriff's Office human and financial resources
- A lack of coordination among providers of wrap-around services to reduce recidivism (mental health, housing, victim services, etc.)

5. Aging Workforce and Demand for Qualified Applicants

The aging workforce,¹ combined with the increased regional demand and competition for qualified line-level applicants, if not properly addressed, will result in:

- Unanswered calls for service, increased response times, and uninvestigated crimes
- Increased crime rates and risk of victimization
- Increased citizen complaints and negative deputy-citizen interactions
- An inability to meet customer demands and the demands of our contract cities
- Insufficient technical knowledge, reducing the ability to perform effectively
- Negative impacts on staff morale and wellness

6. Administrative Support Partners

The increasing difficulty utilizing County core services, which negatively impacts the ability of the Sheriff's Office to effectively deliver services to Clackamas County residents, if not properly addressed, will result in:

- Duplication of services and inefficient service delivery
- Inconsistent direction and a lack of adequate representation
- Cumbersome processes that negatively impact efficiency and business needs
- Rising costs, project delays, and a lack of transparency related to the cost of services

¹ About 24% of employees are eligible to retire between December 2019 and December 2024.

Issue Statements (continued)

7. Leadership at Every Level

A lack of strong, consistent, and clear leadership at every level within the organization, if not properly addressed, will result in:

- A lack of performance measures achieved
- A lack of emerging leaders
- Diminished staff morale
- A lack of internal trust between different levels of the organization
- A diminished ability to deliver the quantity and quality of desired services to the public

8. Complex Job of Law Enforcement

The job of law enforcement becoming more professionally complex and personally demanding, requiring additional ongoing training, maintenance, and certifications, if not properly addressed, will result in:

- A decrease in professionalism leading to public dissatisfaction
- Diminished morale causing lower efficiency and productivity in delivering services to the public
- An increased risk of Use of Force incidents
- An increased risk of injuries to employees and the public
- Increased costs related to the loss of experienced employees due to medical issues and early attrition
- An increased risk of work-related stress, potentially resulting in employee suicide

9. Understanding of Services Provided

The community's lack of understanding of the functions of Clackamas County Sheriff's Office and the services it provides, if not properly addressed, will result in:

- Unmet expectations of the public
- Delayed delivery of services to the public
- Individuals not seeking available services
- A lack of overall confidence in and support for law enforcement

Strategic Results

1. Delivery of Justice²

By 2023, Clackamas County residents will experience safe communities through the delivery of justice and apprehension of criminals when crime has occurred, as evidenced by:

- The crimes against persons rate will be at or below 8.0 per 1,000 residents (Patrol)

Glossary of Terms

Enhanced Law Enforcement District (ELED): The Clackamas County ELED was approved by voters in November 1994. The ELED provides an improved level of patrol services in the unincorporated area of Clackamas County within the Metropolitan Urban Growth boundary.

Forced release: When the number of inmates to be lodged exceeds the number of available jail beds, the jail must release (force release) those individuals that pose the least risk to the public. Jail classification staff complete an in-depth assessment that measures potential risk to public safety on each inmate booked into the jail. The assessment produces a matrix score. The lower the score, the less perceived risk the inmate poses to public safety. Inmates whose public safety scores are the lowest are released to prevent overcrowding.

Inlying area: Patrol districts that are generally urban (82nd, 99E, and West).

Internal Affairs Investigations: Investigations that typically involve allegations of serious misconduct.

Outlying area: Patrol districts that are generally rural (Boring, East, Metro, Mountain, and South).

Priority 1 and Priority 2: Categories assigned to Calls for Service by call takers and dispatchers based upon a call's seriousness, complexity, and potential to escalate. Priority 1 and Priority 2 calls are typically dispatched to multiple units and more urgently than lower priority calls.

Prison Rape Elimination Act (PREA): A United States federal law enacted in 2003 that applies to all correctional facilities and is intended to protect persons in custody from experiencing sexual abuse by other inmates or staff.

Readiness rate: The number of positions filled by employees who have completed any necessary training and who are available/deployable (not injured or on medical leave, military leave, administrative leave, etc.).

Self-Initiated Activities: Law enforcement activities that are not originated by emergency calls for service, to include traffic stops, subject stops, and premise checks.

Service Investigations: Investigations that typically involve allegations related to employee behavior, such as rudeness, offensive language, procedural errors, or general misconduct.

MFR Glossary

To help participants and observers better understand this work program, definitions of a number of key words and phrases used throughout the process are listed below.

Customer: An individual or group of individuals whose best interests are served by, or who receives or uses, the services that the department delivers and who experiences the intended benefit.

Issues: A circumstance that will have a major impact on the customers served by the department.

Issue Statements: A statement that summarizes the issues and trends that will have a major impact on the customers served by the department over the next 2-5 years. The statement has two parts: 1) describes the issue or trend and how it is increasing, decreasing or continuing, and 2) describes how that trend, if the status quo continues unabated, is projected to impact customers and the department over the next 2-5 years.

Key Result Measures: A set of performance measures contained within each line of business comprised of one result measure from each of the programs in that line of business.

Lines of Business (LOB): A set of programs that have a common purpose or result. LOBs create the business profile of the department; they express in terms of broad result areas the particular mix of services that the organization is offering to the public in order to achieve its mission.

Managing for Results: An entire organization, its management system, its staff and the organizational culture (beliefs, behavior and language) are focused on achieving results for the customer.

Mission Statement: A clear, concise statement of purpose for the entire department, focused on the broad, yet distinct, results the department will achieve for its customers.

Performance Measures: A balanced "family of measures" that includes at least one of the following:
Result: measures the degree to which customers experience the expected benefit, as a consequence of having received the services that the department delivers.

Output: measures the amount of service provided or number of units produced or processed.

Demand: total units of a service expected to be demanded, requested or required by the customer.

Efficiency: expenditure/cost per output or result.

Program: A set of services that have a common purpose or result.

Program Purpose Statement: Clear, concise and results-oriented statement bringing together the name, the service provided the customer and the result customers are expected to experience.

Services: Tangible and intangible "things" or deliverables that the program provides to customers.

Strategic Result: The significant results the department must accomplish over the next 2-5 years to proactively respond to the critical trends, issues and challenges on the horizon.
