REQUEST FOR PROPOSALS #2018-42
ELECTRONIC PLAN REVIEW IMPLEMENTATION PROJECT MANAGER
RESPONSE TO CLARIFYING QUESTIONS
September 25, 2018

Note that these are questions submitted by interested firms to the above referenced solicitation. The below answers are for clarification purposes only and in no way alter or amend the RFP as published.

1. *Is the expectation that the role would be only on premise or would remote work be a possibility?*

Answer: The software being implemented will influence the daily routine of our customers, regional partners, other agencies and our staff. As such, customer relationships and a clear understanding of the business process and department needs are imperative for this position to achieve a successful implementation.

The project manager would need to be available to attend meetings and perform work at the County, but this position would not require a full time presence at the county. Aspects of the work may be performed off site, while still achieving the business and contract goals of the project.
