

Climate Action Plan

COMMUNITY ADVISORY TASK

FORCE

Meeting #8: November 18, 2021

Land Acknowledgment

What we now call Clackamas County is the traditional lands and waterways of the Clackamas, Chinook Bands, Kalapuya, Kathlamet, Molalla, Multnomah, Tualatin, Tumwater, Wasco and many other tribes of the Willamette Valley and Western Oregon.

Acknowledging the original people of the land is a simple, powerful practice that demonstrates respect by making indigenous people's history and culture visible. It is also a small step along the path toward reconciliation and repair. Please join us in taking this opportunity to thank and honor the original caretakers of this land.

Meeting Objectives

- Gain understanding of what carbon neutrality means and looks like in practice
- Gain understanding of what the low carbon scenario (LCS) is and how it will be used
- Review and discuss the low carbon actions contained in the low carbon scenario (LCS)
- Review, generate and filter strategies to achieve the low carbon actions

Collaborative Conditions

- **Keep your eyes on the prize.** With a clear end goal, we will create and work towards actionable milestones.
- **Be curious.** Be open to diverse opinions and other points of view with a sense of curiosity.
- **Learn iteratively.** Decisions are made based on the information we have now and adapting and improvement through iterative learning is essential.
- **Don't let perfect be the enemy of great.** In the spirit of iteration towards improvement, prioritize “good enough for now” to keep our work moving forward, with the understanding that we can continue to refine if needed.
- **Practice trust.** Allow the processes to unfold and the group to move through them.
