

How to Search for Permits and Records

Visit <https://acela.clackamas.us/citizenaccess>

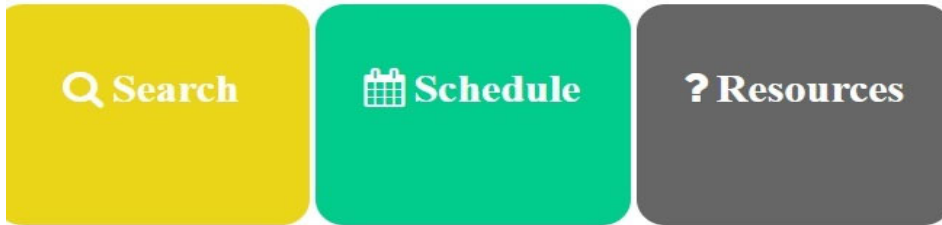

Move your mouse over the yellow “**Search**” button and then click the permit or record search. You can search for:

- Building Permits
- Code Enforcement Records
- Engineering Permits
- Planning Records
- Septic Records

Helpful Tips

Only use the search box (identified with red arrow below) if you **know** the file, permit, or record number or the **street number and street name** (do not include drive, place, road, circle, etc.)

[Register for an Account](#) [Login](#)

At this screen (see image below) enter the permit number or address of the property you are researching. If searching by **street number and name**, **DO NOT** enter the **direction** or **street type**.
