ISSUE & BACKGROUND

The Department of Transportation and Development is pleased to present to the Board of County Commissioners the 2010 Annual Transportation Capital Projects Report. We last reported to you with the Semi-Annual Report in the spring of this year.

This Annual Report will focus on the projects that have been completed this year and their various funding sources, as well as projects that are in process. We will also discuss the Transportation System Plan, which will help direct our policy on transportation projects in the coming years.

Included with this report is a binder containing the Clackamas County Prospectus sheets and photos of the recently completed and in progress projects. The prospectus sheets provide basic information on each of the projects including project scope, why the project is needed, environmental impacts, project budget and timeline. We will periodically update these binders to keep the Board apprised of projects that we have underway.
