If not, include a completed W-9 form for your school along with your application.

Composting support grant

Food waste makes up roughly 20% of our area's commercial waste stream. In a landfill, rotting food releases methane gas, contributing 1% of global greenhouse gas emissions. Composting food scraps avoids those emissions and gives the material another use as healthy fertilizer made locally.

Which kind of compost system are you working on?

_____ Commercial collection, i.e., through your trash company

_____ On-site composting (composter, worm bin, compost pile, etc.)

_____ Other: _____

How much food is currently in your school's garbage? *(You can find this out by conducting a waste audit. Contact nsarabiaferia@clackamas.us for help with your audit.)*

How much of the food in your school's garbage will then be composted after the program is implemented?

When do you plan to purchase the items and put them into use?

Please itemize the requested products and services. Include suppliers' names, addresses, and phone numbers. **Grants are available for amounts up to $500**. You may request more than $500 if your project will cost more; however, we may not be able to satisfy the total amount requested.

Item	Supplier	Website or Phone #	Quantity	Cost
